Tripping the Flight Fantastic Andrew Fraser, 2016-06-10 Nabbing flights for less than a fiver, Andrew Fraser took off on a month long jaunt around ten European cities for £144. In this entertaining account of his trip, he not only describes what he saw, but also how he did it, coaching aspiring travellers in how to create their own dream travel itineraries on flights which cost less than an airport latte. Join him on a bargain journey to some of Europe's weirdest, least visited backwaters, while also learning how to plan a ten-city adventure of your own. Andrew Fraser travelled 6,928 miles at an average cost of 2p per mile. Now you can, too. This unique title - the only one available that explains how to travel so far for so little - takes in some of Europe's least discovered cities, including Skopje, Girona, Thessaloniki, Gdansk, Warsaw and Wroclaw, as well as giving an entertaining overview of some more familiar places, such as Barcelona, Rome and Brussels. It tells you how to book secret five star hotels for three star prices with no mystery about where you are going to stay, how to travel the world cheaply from your local airport, and how to save a fortune and create an adventure by abandoning the notion of the linear return flight. Uncovering the little

known travel gems which you can fly to for under a tenner, it is also an often surreal, idiosyncratic and funny account of one man's adventures on the move, from attending an octopus autopsy in Barcelona to unearthing uncomfortable secrets in Europe's new Capital of Culture and discovering hip Warsovian apartments which straddle the worlds of Molotov and Madonna. What's more, it's a journey in search of culture, gastronomy and history and - on occasions - the seamier side of life in some of Europe's most thrilling but least known cities. Andrew Fraser is former Travel Editor and Deputy Editor of Attitude magazine, and former Chief Writer of OK! Magazine. He has had a love of the obscure, a love of bargains, and a love of travel since he was a strange eight year-old-boy locked in his bedroom obsessing over maps of Narnia-esque towns, cities and regions on the red side of the European map, which he was told he would never be able to visit. When the Berlin wall fell in 1989, he rushed to Prague, Bratislava and Budapest where he enjoyed the greatest adventure of his life so far, costing little more than pennies. Now the internet and low cost airlines, have brought back those halcyon days of cheap travel bliss and Andrew Fraser's mission in life is to transport you to places beyond your wildest dreams for less than the cost of your airport latte. Come join him.

Sex and World Peace Valerie M. Hudson, Mary Caprioli, Donna Lee Bowen, Rose McDermott, 2023-05-30 Sex and World Peace is a groundbreaking demonstration that the security of women is a vital factor in the occurrence of conflict and war, unsettling a wide range of assumptions in political and security discourse. Harnessing an immense amount of data, it relates microlevel violence against women and macrolevel state peacefulness across global settings. The authors find that the treatment of women informs human interaction at all levels of society. They call attention to the adverse effects on state security of sex-based inequities such as sex ratios favoring males, the practice of polygamy, and lax enforcement of national laws protecting women. Their research challenges conventional definitions of security and democracy and common understandings of the causes of world events. The book considers a range of ways to remedy these injustices, including top-down and bottom-up approaches to redressing violence against women and the lack of sex parity in decision-making. Advocating a state responsibility to protect women, the authors campaign against women's systemic insecurity, which threatens the security of all. Sex and World Peace has been a go-to book for instructors, advocates, and policy makers since its publication in 2012. Since then, there have been major changes in world affairs, including the #MeToo movement, as well as advances in both theoretical and empirical literature surrounding the subject. This second edition, which adds coauthors Rose McDermott and Donna Lee Bowen alongside

Valerie M. Hudson and Mary Caprioli, revises and updates the book for a new generation. The book retains its foundational overview of the relationship between women's oppression and war, enhanced by fresh data and new material covering recent developments for global women's rights and analysis of additional examples of gender and conflict throughout the world.

Advances in Social Media for Travel, Tourism and Hospitality Marianna Sigala, Ulrike Gretzel, 2017-07-20 This book brings together cutting edge research and applications of social media and related technologies, their uses by consumers and businesses in travel, tourism and hospitality. The first section addresses topical issues related to how social media influence the operations and strategies of tourism firms and help them enhance tourism experiences: open innovation, crowdsourcing, service-dominant logic, value co-creation, value co-destruction and augmented reality. The second section of the book looks at new applications of social media for marketing purposes in a variety of tourism-related sectors, addressing crowd-sourced campaigns, customer engagement and influencer marketing. The third section uses case studies and new methodologies to analyze travel review posting and consumption behaviors as well as the impact of social media on traveller perceptions and attitudes, with a focus on collaborative consumption and sharing economy accommodation. Finally, the fourth section focuses on hot topics and issues related to the analysis, interpretation and use of online information and user-generated content for deriving business intelligence and enhancing business decision-making. Written by an international body of well-known researchers, this book uses fresh theoretical lenses, perspectives and methodological approaches to look at the practical implications of social media for tourism suppliers, destinations, tourism policy makers and researchers alike. For these reasons, it will be a valuable resource for students, managers and academics with an interest in information and communication technologies, marketing for tourism and hospitality, and travel and transportation management.

Crowdfunding with Enhanced Reputation Monitoring Mechanism (Fame) Omid Torabi, Abbas Mirakhor, 2020-02-10 Crowdfunding is increasingly becoming a method of mobilizing project finance ventures, particularly in a sharing economy. Moreover, the element of risk sharing which is found in equity crowdfunding makes up the essence of Islamic finance. However, as with any

type of risk-sharing contract, Islamic crowdfunding faces the problem of lack of trust and information asymmetry. The author employs a game theory approach to Islamic crowdfunding as a means to tackle the issue of information asymmetry through a reputation mechanism which is touted as one of the latest means of solving information asymmetry in web-based social networks. The primary objective of the reputation mechanism is to enable more efficient transactions in communities where cooperation is compromised by post-contractual opportunism or information asymmetry. The game theory approach in this study involves two different games: without Fame and with Fame, and it is proposed that a with Fame crowdfunding game produces better results. The reputational mechanism in this research was also designed specifically to eliminate any potential moral hazards and minimize information asymmetry. In this study, Fame refers to the credibility of every individual within the crowdfunding system. Fame is a form of systematic, measurable and computable (implicit and explicit) reputation, which allows other members of the crowdfunding social network to better learn about the individual and their credibility.
