Christian G. Meyer

Make Room for TV Lynn Spigel,2013-11-26 Between 1948 and 1955, nearly two-thirds of all American families bought a television set—and a revolution in social life and popular culture was launched. In this fascinating book, Lynn Spigel chronicles the enormous impact of television in the formative years of the new medium: how, over the course of a single decade, television became an intimate part of everyday life. What did Americans expect from it? What effects did the new daily ritual of watching television have on children? Was television welcomed as an unprecedented window on the world, or as a one-eyed monster that would disrupt households and corrupt children? Drawing on an ambitious array of unconventional sources, from sitcom scripts to articles and advertisements in women's magazines, Spigel offers the fullest available account of the popular response to television in the postwar years. She chronicles the role of television as a focus for evolving debates on issues ranging from the ideal of the perfect family and changes in women's role within the household to new uses of domestic space. The arrival of television did more than turn the living room into a private theater: it offered a national stage on which to play out and resolve conflicts about the way Americans should live. Spigel chronicles this lively and contentious debate as it took place in the popular media. Of particular interest is her treatment of the way in which the phenomenon of television itself was constantly deliberated—from how programs should be watched to where the set was placed to whether Mom, Dad, or kids should control the dial. Make Room for TV combines a powerful analysis of the growth of electronic culture with a nuanced social history of family life in postwar America, offering a provocative glimpse of the way television became the mirror of so many of America's hopes and fears and dreams.

Back Channel to Cuba William M. LeoGrande,Peter Kornbluh,2015-09-14 History is being made in U.S.-Cuban relations. Now in paperback and updated to tell the real story behind the stunning December 17, 2014, announcement by President Obama and President Castro of their move to restore full diplomatic relations, this powerful book is essential to understanding ongoing efforts toward normalization in a new era of engagement. Challenging the conventional wisdom of perpetual conflict and aggression between the United States and Cuba since 1959, Back Channel to Cuba chronicles a surprising, untold history of bilateral efforts toward rapprochement and reconciliation. William M. LeoGrande and Peter Kornbluh here present a remarkably new and relevant account, describing how, despite the intense political clamor surrounding efforts to improve relations with Havana, negotiations have been conducted by every presidential administration since Eisenhower's through secret, back-channel diplomacy. From John F. Kennedy's offering of an olive branch to Fidel Castro after the missile crisis, to Henry Kissinger's top secret quest for normalization, to Barack Obama's promise of a new approach, LeoGrande and Kornbluh uncovered hundreds of formerly secret U.S. documents and conducted interviews with dozens of negotiators, intermediaries, and policy makers, including Fidel Castro and Jimmy Carter. They reveal a fifty-year record of dialogue and negotiations, both open and furtive, that provides the historical foundation for the dramatic breakthrough in U.S.-Cuba ties.

Recent Social Trends in Italy, 1960-1995 Alberto Martinelli,Antonio Chiesi,Sonia Stefanizzi,1999-03-30 Italy remains an enigma for many observers. Recent Social Trends in Italy, 1960-1995, the sixth volume from the international Comparative Charting of Social Change program, provides a new and convincing schema for its comprehension. It shows that three essential institutions have structured and unified Italian society: the family, the church, and political parties. While the state remains a weak institution, it is important as a regulator of the economy and of society through the welfare state. The book, which contains a long introduction by Alberto Martinelli on the uneven modernization of Italy, shows the usefulness of analysing social change through study of a series of macro-social trends. These trends range from life-style structures to fertility, leisure, consumption, inequality, religion, and family, among others. This sixth national profile provides more arguments in favour of a hypothesis of diversification, rather than convergence, of modern societies. As Henri Mendras writes in the preface of the book, The more we change, the more we remain ourselves: that is the conclusion of our comparative research, and the Italian study provides further ample proof of it.

The Saffron Wave Thomas Blom Hansen,1999-03-23 The rise of strong nationalist and religious movements in postcolonial and newly democratic countries alarms many Western observers. In The Saffron Wave, Thomas Hansen turns our attention to recent events in the world's largest democracy, India. Here he analyzes Indian receptivity to the right-wing Hindu nationalist party and its political wing, the Bharatiya Janata Party (BJP), which claims to create a polity based on ancient Hindu culture. Rather than interpreting Hindu nationalism as a mainly religious phenomenon, or a strictly political movement, Hansen places the BJP within the context of the larger transformations of democratic governance in India. Hansen demonstrates that democratic transformation has enabled such developments as political mobilization among the lower castes and civil protections for religious minorities. Against this backdrop, the Hindu nationalist movement has successfully articulated the anxieties and desires of the large and amorphous Indian middle class. A form of conservative populism, the movement has attracted not only privileged groups fearing encroachment on their dominant positions but also plebeian and impoverished groups seeking recognition around a majoritarian rhetoric of cultural pride, order, and national strength. Combining political theory, ethnographic material, and sensitivity to colonial and postcolonial history, The Saffron Wave offers fresh insights into Indian politics and, by focusing on the links between democracy and ethnic majoritarianism, advances our understanding of democracy in the postcolonial world.

Mass Media - Mass Culture Stan L. Wilson,1993

Victorian Vogue Dianne F. Sadoff,2010 Ranging from cinematic images of Jane Austen's estates to Oscar Wilde's drawing rooms, Dianne F. Sadoff looks at popular heritage films, often featuring Hollywood stars, that have been adapted from nineteenth-century novels. Victorian Vogue argues that heritage films perform different cultural functions at key historical moments in the twentieth century. According to Sadoff, they are characterized by a double historical consciousness—one that is as attentive to the concerns of the time of production as to those of the Victorian period. If James Whale's *Frankenstein* and Tod Browning's *Dracula* exploited post-Depression fear in the 1930s, the horror films of the 1950s used the genre to explore homosexual panic, 1970s movies elaborated the sexuality only hinted at in the thirties, and films of the 1990s indulged the pleasures of consumption. Taking a broad view of the relationships among film, literature, and current events, Sadoff contrasts films not merely with their nineteenth-century source novels but with crucial historical moments in the twentieth century, showing their cultural use in interpreting the present, not just the past.

Fermented Foods of Latin America Ana Lucia Barretto Penna,Luis A. Nero,Svetoslav D. Todorov,2017-02-03 Due to the indigenous knowledge of pre-Colombian indigenous tribes and the new methods introduced by the immigrants arriving from Europe and other continents, a wide variety of fermented foods are produced in Latin America. In this book, we have collected information about the Latin American experience in the production of dairy, meat and wine. Special focus has been given to fermented fruits and vegetables as it is part of the genetic heritage of the South American continent. Pre-Columbian knowledge on preparation of various fermented food products is covered in the book.

Agrar-unternehmensrecht Jürgen von Both Freiherr von Maercken zu Geerath,2013-08-13 Der anhaltende Strukturwandel in der Landwirtschaft hat insbesondere in dem vergangenen Jahrzehnt zu einer Veränderung des agrarpolitischen Leitbildes geführt. Der bäuerliche Familienbetrieb wird unter betriebswirtschaftlichen Gesichtspunkten seine Bedeutung zunehmend verlieren. Dagegen wird das leistungs- und wettbewerbsfähige Unternehmen im ländlichen Raum in den Mittelpunkt der zukünftigen Agrarpolitik von Nationalstaaten und Europäischer Gemeinschaft treten. Diese Entwicklung wird durch die haushaltspolitischen Zwänge sowie den handelspolitischen Druck im Rahmen der WTO noch verstärkt. Vor diesem Hintergrund überprüft der Autor, ob das nach wie vor zur Anwendung kommende Agrarsonderrecht obsolet geworden oder aufgrund seiner Übereinstimmung mit dem für die Unternehmen der übrigen Wirtschaftsbereiche geltenden Recht durch diese zu ersetzen ist.
