Culinary Landmarks Elizabeth Driver,2008-04-05 Culinary Landmarks is a definitive history and bibliography of Canadian cookbooks from the beginning, when *La cuisinière bourgeoise* was published in Quebec City in 1825, to the mid-twentieth century. Over the course of more than ten years Elizabeth Driver researched every cookbook published within the borders of present-day Canada, whether a locally authored text or a Canadian edition of a foreign work. Every type of recipe collection is included, from trade publishers' bestsellers and advertising cookbooks, to home economics textbooks and fund-raisers from church women's groups. The entries for over 2,200 individual titles are arranged chronologically by their province or territory of publication, revealing cooking and dining customs in each part of the country over 125 years. Full

bibliographical descriptions of first and subsequent editions are augmented by author biographies and corporate histories of the food producers and kitchen-equipment manufacturers, who often published the books. Driver's excellent general introduction sets out the evolution of the cookbook genre in Canada, while brief introductions for each province identify regional differences in developments and trends. Four indexes and a 'Chronology of Canadian Cookbook History' provide other points of access to the wealth of material in this impressive reference book.

The Post-Mortem Vindication of Jesus in the Sayings Gospel Q

Daniel A. Smith,2007-01-06 Q 13:34-35, the Jerusalem Logion, aligns the rejection of the speaker by Jerusalem both with the abandonment of Jerusalem's house and with the future invisibility and return of the speaker: 'You will not see me until you say, Blessed is the Coming One in the name of the Lord' (13:35b). The coincidence of not seeing language with a reference to a future coming is reminiscent of the connection, in Jewish literature especially, between the assumption and eschatological function. The book proposes that this reference to

Jesus' assumption is a clue to how Q conceives of the post-mortem vindication of Jesus, since numerous Q sayings presuppose a knowledge of Jesus' death. In support of this, the book argues that in Hellenistic Jewish writings assumption was not always considered to be an escape from death (as in the biblical instances of Enoch and Elijah), but could happen at or after death, as was more clearly the case in Greek thought. Such a strategy of vindication is necessary for Q because it evidences a belief in Jesus' ongoing existence and future return as the Son of Man, and because resurrection though a feature of Q's eschatology is not individually applied to Jesus. A similar view is presupposed by the pre-Markan empty tomb tradition, which describes the disappearance of Jesus' body but narrates neither the resurrection itself nor an appearance of the risen Jesus. The book also draws out implications of the thesis for the place of the Sayings Gospel Q within the early Christian movements, particularly vis-vis the vindication of Jesus.
