Designing Mobile Payment Experiences Skip Allums, 2014-08-13 Now that consumer purchases with mobile phones are on the rise, how do you design a payment app that's safe, easy to use, and compelling? With this practical book, interaction and product designer Skip Allums provides UX best practices and recommendations to help you create familiar, friendly, and trustworthy experiences. Consumers want mobile transactions to be as fast and reliable as cash or bank cards. This book shows designers, developers, and product managers—from startups to financial institutions—how to design mobile payments that not only safeguard identity and financial data, but also provide value-added features that exceed customer expectations. Learn about the major mobile payment frameworks: NFC, cloud, and closed loop Examine the pros and cons of Google Wallet, Isis, Square, PayPal, and other payment apps Provide walkthroughs, demos, and easy registration to quickly gain a new user's trust Design efficient point-of-sale interactions, using NFC, QR, barcodes, or geolocation Add peripheral services such as points, coupons and offers, and money management

Looking Beyond the Runway Nawal K. Taneja, 2016-12-05 The global airline industry, facing significant changes and discontinuity is prompted and forced to deal with a new normal. Who would have imagined a few years ago that: - a significant percentage of consumers in the US now prefer to fly low-cost airlines instead of full-service airlines because they perceive the product to be better, - airlines would generate up to a third of their total income from non-ticket revenue, - many low-cost airlines would add complexity to their original simple business models through the development of code-share agreements, the use of global distribution systems, and travel agents to distribute their seats, - Jetstar, a low-cost subsidiary of Qantas, would grow faster and be more profitable than its parent, - a survey carried out by Ryanair would show that 42 percent of passengers would be willing to stand on short (one hour) flights if they could pay 50 percent less than seated passengers, - passengers could pay as little as US\$2,000 for a transatlantic Business Class ticket on top-brand airlines, - Lufthansa would have ownership in airlines based in Austria, Belgium, Italy, Switzerland, Turkey, the UK, and the US, and that it would continue to pursue equity ownership in airlines based in Poland and Scandinavia, or - the Japanese and Canadian governments would struggle to find different ways to bail out their heretofore flag carriers? To deal with this upcoming new normal, airlines have to go beyond their short-term circumstantial strategies - they need strategic renewal of their ageing business model. In this candidly-written book, Nawal Taneja explains what will separate the winners from the losers. He maintains the leaders will be the airlines that: (1) exploit this crisis-driven change to their best advantage, (2) learn to work around the airline-inherent constraints that prevent them from running their businesses just like other businesses, (3) learn from successes and failures of other global enterprises, (4) sharpen their business intelligence, analytics, and strategic agility, and (5) proactively explore the pockets of growth in this emerging-markets century. To help airline executives become informed of new competitive games, the author analyzes numerous business sectors such as auto, hospitality, retail, technology, and entertainment. For example, relevant lessons can be learned from the strategic mistakes made by the US automakers. Likewise, emergent and compelling insights can be gained in

superior customer experience from Ritz Carlton and Zappos, and in value-creating innovation from Cirque du Soleil and Zipcar. The book also features a multitude of forewords from airlines and related businesses to provide readers with multiple perspectives on the changing landscape in the global airline industry. Nawal Taneja is a career analyst of the global airline industry with wide-ranging experience in the aviation industry, academia, and public policy. Encouraged by industry executives, he has written five other books for practitioners in the global airline industry, including FASTEN YOUR SEATBELT: The Passenger is Flying the Plane and Flying Ahead of the Airplane.

Air New Zealand Paul Little,2014 Air New Zealand will commemorate it's 75th anniversary with an exhibition at the country's national museum Te Papa in Wellington. The airline will celebrate 75 years of operations during 2015, and is working with Te Papa to launch a six month retrospective exhibition that will open in mid-December 2014. Air New Zealand Chief Executive Officer Christopher Luxon announced the exhibition at a function in Wellington this evening. Our airline has been an integral part of the fabric of New Zealand and we have enjoyed the immense support of New Zealanders for almost 75 years. The exhibition, which will be free to attend, will give the public a real insight into the history of the airline, covering both the highs and the lows we've experienced in that time, says Mr Luxon. Te Papa's Acting Chief Executive and Kaihautu-, Arapata Hakiwai, says the national museum is excited to be working with Air New Zealand to bring its history to life. Air New Zealand's 75th anniversary is a milestone, and it presents us with a great opportunity to share some of the wonderful personal stories that have shaped its rich history. says Mr Hakiwai. The exhibition will open on 20 December 2014 and run until early June 2015--Wheelers website.

Te Araroa The New Zealand Trail Geoff Chapple,2014-10-03 A travel book of vivid encounters with the New Zealand's people and landscape along its famous long trail. When journalist Geoff Chapple wrote a newspaper article that set out a vision for a 2600-km hiking trail the length of New Zealand, he never imagined that he would become the trail blazer. Over five years he talked to farmers and landowners, seeing where the route might be possible. He then walked every step of an adventurous and remote off-road trail from Cape Reinga to Bluff. Chapple set up a trail-building and fund-raising body, the Te Araroa Trust, that has enlisted the support of mayors and councillors throughout New Zealand. Now hundreds of New Zealanders and overseas visitors walk all or part of the trail every year. This is the story of how an individual took up a dream and single-mindedly created a heritage for future generations to enjoy. 'I admire his energy and creativity and support the vision of a national trail. ' Sir Edmund Hillary ' A fine far-sighted quest.' Michael King

The Laboratory Biosafety Guidelines Canada. Health Canada,Centre for Emergency Preparedness and Response (Canada),2004 These guidelines were

developed to guide government, industry, university, hospital, and other public health and microbiological laboratories in their development of biosafety policies and programs. They also provide information and recommendations on the design, construction, and commissioning of containment facilities. The guidelines are intended to reduce the incidence of infection and mortality among laboratory workers, as well as to prevent secondary transmission of disease to the public.

Migration and Hybrid Political Regimes Rustamjon Urinboyev, 2020-12-01 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. While migration has become an all-important topic of discussion around the globe, mainstream literature on migrants' legal adaptation and integration has focused on case studies of immigrant communities in Western-style democracies. We know relatively little about how migrants adapt to a new legal environment in the ever-growing hybrid political regimes that are neither clearly democratic nor conventionally authoritarian. This book takes up the case of Russia—an archetypal hybrid political regime and the third largest recipients of migrants worldwide—and investigates how Central Asian migrant workers produce new forms of informal governance and legal order. Migrants use the opportunities provided by a weak rule-of-law and a corrupt political system to navigate the repressive legal landscape and to negotiate—using informal channels—access to employment and other opportunities that are hard to obtain through the official legal framework of their host country. This lively ethnography presents new theoretical perspectives for studying immigrant legal incorporation in similar political contexts.

Pathology of Asbestos-Associated Diseases Victor L. Roggli, Tim D. Oury, Thomas A. Sporn, 2006-04-29 *Pathology of Asbestos-Associated Diseases* integrates the newest research and advances in its discussion of asbestos-induced diseases. Organized in 13 chapters, the book begins with background information on the mineralogy of asbestos, occupation and environmental exposure to asbestos, and asbestosis. A detailed discussion on mesothelioma includes a historical background, addresses etiologic considerations and epidemiology, pathologic features, differential diagnosis and treatment and prognosis. Guidelines for assessing and identifying asbestos-associated carcinomas of the lung, including histopathology and differential diagnosis, are discussed. The text also addresses the explosion of research in the area of molecular biology and the abundance of information bearing on the mechanisms by which asbestos causes disease. Chapters also cover cytopathology and experimental models of asbestos-related diseases. The diseases associated with asbestos have significant medico-legal implications, and there are two chapters dedicated to addressing the issue. More than 190 illustrations complement the text. An invaluable reference for the pathologist, pulmonologist, radiologist, and occupational medical practitioner interested in asbestos-related disease as well as malpractice attorneys needing an understanding of asbestos, the diseases it induces, prognosis and clinical implications.

Caciques and Cemi Idols José R. Oliver, 2009-05-10 Takes a close look at the relationship between humans and other (non-human) beings that are imbued with cemí power, specifically within the Taíno inter-island cultural sphere encompassing Puerto Rico and Hispaniola. Cemís are both portable artifacts and embodiments of persons or spirit, which the Taínos and other natives of the Greater Antilles (ca. AD 1000-1550) regarded as numinous beings with supernatural or magic powers. This volume takes a close look at the relationship between humans and other (non-human) beings that are imbued with cemí power, specifically within the Taíno inter-island cultural sphere encompassing Puerto Rico and Hispaniola. The relationships address the important questions of identity and personhood of the cemí icons and their human “owners” and the implications of cemí gift-giving and gift-taking that sustains a complex web of relationships between caciques (chiefs) of Puerto Rico and Hispaniola. Oliver provides a careful analysis of the four major forms of cemís—three-pointed stones, large stone heads, stone collars, and elbow stones—as well as face masks, which provide an interesting contrast to the stone heads. He finds evidence for his interpretation of human and cemí interactions from a critical review of 16th-century Spanish ethnohistoric documents, especially the *Relación Acerca de las Antigüedades de los Indios* written by Friar Ramón Pané in 1497–1498 under orders from Christopher Columbus. Buttressed by examples of native resistance and syncretism, the volume discusses the iconoclastic conflicts and the relationship between the icons and the human beings. Focusing on this and on the various contexts in which the relationships were enacted, Oliver reveals how the cemís were central to the exercise of native political power. Such cemís were considered a direct threat to the hegemony of the Spanish conquerors, as these potent objects were seen as allies in the native resistance to the onslaught of Christendom with its icons of saints and virgins.
