Late Nights on Air Elizabeth Hay, 2010-08-20 The Scotiabank Giller Prize-winning novel from Elizabeth Hay. Harry Boyd, a hard-bitten refugee from failure in Toronto television, has returned to a small radio station in the Canadian North. There, in Yellowknife, in the summer of 1975, he falls in love with a voice on air, though the real woman, Dido Paris, is both a surprise and even more than he imagined. Dido and Harry are part of the cast of eccentric, utterly loveable characters, all transplants from elsewhere, who form an unlikely group at the station. Their loves and longings, their rivalries and entanglements, the stories of their pasts and what brought each of them to the North, form the centre. One summer, on a canoe trip four of them make into the Arctic wilderness (following in the steps of the legendary Englishman John Hornby, who, along with his small party, starved to death in the barrens in 1927), they find the balance of love shifting, much as the balance of power in the North is being changed by the proposed Mackenzie Valley gas pipeline, which threatens to displace Native people from their land. With unforgettable characters, vividly evoked settings, in this award-winning novel, Hay brings to bear her skewering intelligence into the frailties of the human heart and her ability to tell a spellbinding story. Written in gorgeous prose, laced with dark humour, *Late Nights on Air* is Hay's most seductive and accomplished novel yet.

Defending Air Bases in an Age of Insurgency Shannon Caudill,Air University Press,2014-08 This anthology discusses the converging operational issues of air base defense and counterinsurgency. It explores the diverse challenges associated with defending air assets and joint personnel in a counterinsurgency environment. The authors are primarily Air Force officers from security forces, intelligence, and the office of special investigations, but works are included from a US Air Force pilot and a Canadian air force officer. The authors examine lessons from Vietnam, Iraq, Afghanistan, and other conflicts as they relate to securing air bases and sustaining air operations in a high-threat counterinsurgency environment. The essays review the capabilities, doctrine, tactics, and training needed in base defense operations and recommend ways in which to build a strong, synchronized ground defense partnership with joint and combined forces. The authors offer recommendations on the development of combat leaders with the depth of knowledge, tactical and operational skill sets, and

counterinsurgency mind set necessary to be effective in the modern asymmetric battlefield.

Eisenhower's Fine Group of Fellows Valerie L. Adams, 2006 Eisenhower's Fine Group of Fellows examines the contributions and management of civilians during the Eisenhower administration. Valerie Adams provides a concise history of the roles played by civilian advisers in developing a national security strategy. By examining the successful utilization of civilians in the Eisenhower administration, Adams draws lessons for the future from our recent past. The cooperation of Eisenhower's administration was exemplary in many aspects, including: the management of ad hoc civilian committees, the utilization of science and technology, and the personal leadership of Eisenhower himself. Eisenhower's Fine Group of Fellows draws a blueprint from the past for the future and is of great interest to historians of the period and forward thinkers.
