**In Quest of Justice** Khaled Fahmy,2023-02-07 In Quest of Justice provides the first full account of the establishment and workings of a new kind of state in Egypt in the modern period. Drawing on groundbreaking research in the Egyptian archives, this highly original book shows how the state affected those subject to it and their response. Illustrating how shari'a was actually implemented, how criminal justice functioned, and how scientific-medical knowledges and practices were introduced, Khaled Fahmy offers exciting new interpretations that are neither colonial nor nationalist. Moreover he shows how lower-class Egyptians did not see modern practices that fused medical and legal purposes in new ways as contrary to Islam. This is a major contribution to our understanding of Islam and modernity.

**Seasonal Knowledge and the Almanac Tradition in the Arab Gulf** Daniel Martin Varisco,2022-05-14 This book is the first in English to survey indigenous knowledge of seasonal, astronomical, and agricultural information in Arab Gulf almanacs. It provides an extensive analysis of the traditional information available, based on local almanacs, Arabic texts and poetry by Gulf individuals, ethnographic interviews, and online forums. A major feature of the book is tracing the history of terms and concepts in the local seasonal knowledge of the Gulf, including an important genre about weather stars, stemming back to the ninth century CE. Also covered are pearl diving, fishing, seafaring, and pastoral activities. This book will be of interest to scholars who study the entire Arab region, since much of the lore was shared and continues through the present. It will also be of value to scholars who work on the Indian Ocean and Red Sea Trade Network, as well as the history of folk astronomy in the Arab World.

**Cyber Worship in Multifaith Perspectives** Mohamed Taher,2006 Cyber Worship in Multifaith Perspectives, as is implied by its name, explores worship (i.e., Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc.) on the Internet. It is not an 'everything you need to know' guide about the subjects of faith and belief, religions-online, religions on the Net, or religions in cyberspace. Rather, it is a book about religious and spiritual experience under the rubric, cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term 'Cyber Worship' is a catchall phrase, which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr. Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.

**Islam and Political Power in Indonesia and Malaysia** Joseph Chinyong Liow,2022-08-25 Islamism in Indonesia and Malaysia has undergone a fascinating transformation from social movement roots to mainstream politics. How did this take place, and to what ends? Drawing on social movement theories, this Element explains this transformation by focusing on key Islamic social movements in these two countries. It argues: first, that the popularity and appeal of Islamism in Indonesia and Malaysia cannot be understood without appreciating how these social movements have enabled and facilitated mobilization; and second, that it is precisely these roots in civil societal mobilization that account for the enduring influence of Islamist politics evident in how Islamic social movements have shaped and transformed the political landscape. These arguments will be developed by unpacking how Islamist ideas took root in social movement settings, the kinds of institutional and organizational structures through which these ideas were advanced, and the changing political landscape that facilitated these processes.
