The Alaska Airlines Story Archie Satterfield, 1981 History of Alaska Airlines, a commercial aviation carrier serving Alaska.

The History of Alaska Airlines Kathy Mills Rozzini, 2021 Based on interviews, newspaper accounts, books, and supporting documents, this history of Alaska Airlines tells of the company's triumphs and tragedies during the pioneer era of aviation in the land known for cold and gold. This book was written as an alternative history to that which is portrayed in the book *The Alaska Airlines story* by Archie Satterfield and in the May 2017 issue of *Alaska beyond*, the airline's inflight magazine, both of which credit McGee Airways, founded by Linious McGee in 1932, as one of the parent airline. The Mills family, unhappy that earlier airlines operated by family members were omitted, claims this is inaccurate, as the true beginning of Alaska Airlines dates to Northern Air Service founded by Steve Mills in 1931. Its successor, Star Air Service, bought McGee Airways in 1935. The airline became Star Air Lines in 1937 and later Alaska Airlines in 1943. Discover the story behind the mystery by following the journey that reveals the airline's fascinating history including the truth of who began Alaska Airlines.

Character & Characters Robert J. Serling, 2008 This is the history of Alaska's last legacy airline, Alaska Airlines. Aviation-history writer Robert Serling has documented Alaska Airlines' unconvontorional past and titled it *Character & Characters* in recognition of those who flew the planes and marked the airline's transformation from a single-aircraft bush operator in 1932 to a major US carrier.

Air Crash Investigations Allistair Fitzgerald, 2009-11 On January 31, 2000, Alaska Airlines, Flight 261, a McDonnell Douglas MD-83,

was on its way from Puerto Vallarta, Mexico, to Seattle, Washington, when suddenly the horizontal stabilizer of the plane jammed. While passengers were praying for their life, Captain Thompson and First officer Tansky tried to make an emergency landing in Los Angeles. They did not make it, the plane suddenly crashed into the Pacific Ocean, killing all 93 people aboard. The NTSB concluded that the failure of the horizontal stabilizer was caused by insufficient maintenance. In other words the crash of Alaska Airlines Flight 261 could have been avoided.

Alaska's Bush Pilots Rob Stapleton with the Alaska Aviation Museum, 2014 A thrilling ride alongside the daredevil aviators who first braved the unknown of Alaska's wilderness. Bush pilots are known as rough, tough, resourceful people who fly their aircraft into tight spots in the worst of weather. Alaska's bush pilots are all

of that and more. Acting as pioneers in a land with 43,000 miles of coastline and North America's largest mountains, Alaska's bush pilots were and are visionaries of a lifestyle of freedom. Flying came late to Alaska but caught on quickly. The first flight was made over a three-day exhibition at Fairbanks, July 3-5, 1913. James Martin first flew that aircraft, owned by him and his wife, Lilly, and investors Arthur Williams and R.S. McDonald. Ever since, Alaskan bush pilots have found that they were calculators of their own fate, flying in fragile aircraft over vast stretches of tundra or through towering mountain passes. This book examines the pioneer aviators and the aircraft types such as the Stearman, Stinson, and Lockheed, many of which were tested and crashed in the far north regions of Alaska.

CloudDancer's Alaskan Chronicles CloudDancer, 2007-11-05 At a certified average of 1.2 belly laughs and two good chuckles per page, this book is a must read for flying and Alaska enthusiasts alike. Even non-aviators can comfortably follow along as drama and nail biting suspense usually result in knee slapping good, clean humor. These are completely true Arctic adventure flying stories written by the central character himself CloudDancer. This first-time author was literally raised at airports and on airliners by two parents who worked for major airlines since his birth. CloudDancer spent his formative years growing up in Fort Worth, Texas until running away to Alaska in 1973 to become a bush pilot at age 19. Having taken his first flying lesson a week after his thirteenth birthday, his love affairs with one airplane after another have continued through today. He currently commands one of the world's most modern airliners for a major US airline. But no matter where in the world he has flown, a large part of his heart and even greater part of his soul have remained attached and devoted to Alaska; the land and the people. He looks forward with anticipation to the day when he can retire, move back to Alaska, and once again spend time soaring over the wonders of the far north.
