Led Zeppelin Martin Popoff,2022-10-04 Perfect for the ultimate Led Zeppelin fan, this definitive anthology analyzes each of the 81 tracks on Zep's nine studio albums in mind-boggling, awesome detail.

Queen Martin Popoff,2018-11-13 A thoughtfully curated and gloriously illustrated retrospective of the band's studio releases, Queen, comes just in time for the 45th anniversary of their debut LP and biopic. Formed in 1970, Queen went on to become one of the most popular—and most successful—rock bands of all time. Even following the untimely death of beloved and magnetic frontman Freddie Mercury, and nearly 50 years after their formation, interest in the band has continued, evidenced by scores of reissues, arena tours with surviving members, and a feature-film biopic. In this new installment in Voyageur Press's Album by Album series, rock journo Martin Popoff convenes a cast of 19 Queen experts and superfans to discuss all 15 of the band's studio albums (including their soundtrack for the 1980 film Flash Gordon). Panelists include Queen experts, rock journalists, musicians, and record industry

figures. The results are freewheeling discussions delving into the individual songs, the circumstances that surrounded the recording of each album, the band and contemporary rock contexts into which they were released, and more. The engaging text of this beautifully designed book is illustrated throughout with rare live performance and candid offstage photography, as well as scads of rare Queen ephemera. The Album by Album series is a unique approach to the rock bio, injecting the varied voices of several contributors. The results have even the most diehard fans rushing back to their MP3 players (or turntables) to confirm the details and opinions expressed!

All You Need to Know About the Music Business Donald S. Passman, 2023-10-24
Dubbed “the industry bible” by the Los Angeles Times, *All You Need to Know*

About the Music Business by veteran music lawyer Donald Passman is the go-to guide for everyone in the music business through ten editions, over thirty years, and over a half a million copies sold. Now with updates explaining why musicians have more power today than ever in history; discussion of the mega-million-dollar sales of artists' songs and record catalogs; how artist access to streaming media, and particularly TikTok, has completely reshaped the music business; the latest on music created by AI; and a full update of the latest numbers and trends. For more than thirty years, All You Need to Know About the Music Business has been universally regarded as the definitive guide to the music industry. Now in its eleventh edition, Passman leads novices and experts alike through what has been the most profound change in the music business since the days of wax cylinders and piano rolls: streaming. For the first time in history, music is no longer monetized by selling something—it's monetized by how many times a listener streams a song. And also, for the first time, artists can get their music to listeners without a record company gatekeeper, creating a new democracy for music. The "industry bible" (Los Angeles Times), now updated, is essential for anyone in the music business—musicians, songwriters, lawyers, agents, promoters, publishers, executives, and managers—and the definitive guide for anyone who wants to be in the business. So, whether you are—or aspire to be—in the music industry, veteran music lawyer Passman's comprehensive guide is an indispensable tool. He offers timely information about the latest trends,

including the reasons why artists have more clout than ever in history, the massive influence of TikTok, the mega million dollar sales of artists' songs and record catalogs, music in Web3 and the Metaverse, music created by AI, and a full update of the latest numbers and practices.

Why You Like It Nolan Gasser, 2019-04-30 From the chief architect of the Pandora Radio's Music Genome Project comes a definitive and groundbreaking examination of how your mind, body, and upbringing influence the music you love. Everyone loves music. But what is it that makes music so universally beloved and have such a powerful effect on us? In this sweeping and authoritative book, Dr. Nolan Gasser—a composer, pianist, and musicologist, and the chief architect of the Music Genome Project, which powers Pandora Radio—breaks down what musical taste is, where it comes from, and what our favorite songs say about us. Dr. Gasser delves into the science, psychology, and sociology that explains why humans love music so much; how our brains process music; and why you may love Queen but your best friend loves Kiss. He sheds light on why babies can clap along to rhythmic patterns and reveals the reason behind why different cultures around the globe identify the same kinds of music as happy, sad, or scary. Using easy-to-follow notated musical scores, Dr. Gasser teaches music fans how to become engaged listeners and provides them with the tools to enhance their musical preferences. He takes readers under the hood of their favorite genres—pop, rock, jazz, hip hop, electronica, world music, and classical—and covers songs from Taylor Swift to

Led Zeppelin to Kendrick Lamar to Bill Evans to Beethoven, and through their work, Dr. Gasser introduces the musical concepts behind why you hum along, tap your foot, and feel deeply. *Why You Like It* will teach you how to follow the musical discourse happening within a song and thereby empower your musical taste, so you will never hear music the same way again.

He has won 17 Grammy awards, was elected to the Rock and Roll Hall of Fame in 1989, and earned the Grammy's Lifetime Achievement Award in 1996. Equally important, his work as a producer, arranger, and instrumentalist on other artists' recordings has put him in the highest rank of musical collaborators.
