Cocktails Across America: A Postcard View of Cocktail Culture in the 1930s, '40s, and '50s Diane

Lapis,Anne Peck-Davis,2018-07-10 50 20th century cocktail recipes, illustrated with vintage postcards
Cocktail culture boomed in the United States after Prohibition, starting with the jazz-filled cocktail lounges and elegant supper clubs in New York City and, as rail and automotive travel advanced, flowing all the way to the postwar-era resorts and cabaret night spots of California and beyond. Barkeepers and mixologists across the country were developing new-fangled concoctions like the Red Snapper, the Santa Fe Cooler, and Cooper's Ranch Punch. A newly liberated America couldn't get enough. The unique cocktail lounges, hotel bars, and other more exotic drinking venues (ice rinks, carousels, and tropical gardens, just to name a few) defined this era of drinking culture and were immortalized in the linen postcards used to advertise them. With over 50 vintage cocktail recipes (including several modern twists), fascinating historical vignettes, and more than 150 pieces of vintage ephemera, you will be transported to an era of unbridled indulgence and distinct glamour.

Alcohol, psychiatry and society Waltraud Ernst,Thomas Müller,2022-11-15 The medicalisation of

alcohol use has become a prominent discourse that guides policy makers and impacts public perceptions of alcohol and drinking. This book maps the historical and cultural dimensions of the phenomenon.

Emphasising medical attitudes and theories regarding alcohol and the changing perception of alcohol consumption in psychiatry and mental health, it explores the shift from the use of alcohol in clinical treatment and as part of dietary regimens to the emergence of alcoholism as a disease category that requires medical intervention and is considered a threat to public health.

Women with 2020 Vision Jeanne Stevenson-Moessner,2020-10-06 Women haven't always had the right to vote. From such diverse voices as John Stuart Mill and Cokie Roberts, the absolute right of both women and men to vote has been affirmed. And yet, resistance to women's suffrage even by women themselves has a long and painful history. In this exciting volume, thirteen theologians and religious leaders in America look back at the historic victory in 1920 when women in the United States won the right to vote. They then assess the current situation and speak into the future. *Women with 2020 Vision: American Theologians on the Voice, Vote, and Vision of Women* commemorates the 100th anniversary of women in the United States obtaining the right to vote, a story that must be told and retold and reflected upon in light of the current sociopolitical-theological realities.

American Woman Suffrage Postcards Kenneth Florey,2016-04-29 American women's suffrage activists were fascinated with suffrage themed postcards. They collected them, exchanged them, wrote about them, used them as fundraisers and organized "postcard day" campaigns. The cards they produced were imaginative and ideological, advancing arguments for the enfranchisement of women and responding to antisuffrage broadsides. Commercial publishers were also interested in suffrage cards, recognizing their profit potential. Their products, though, were reactive rather than proactive, conveying stereotypes they assumed reflected public attitudes—often negative—towards the movement. Cataloging approximately 700 examples, this study examines the "visual rhetoric" of suffrage postcards in the context of the movement itself and as part of the general history of postcards.

Effect of Clarifying Students' Misperceptions Associated with Alcohol Consumption at a Connecticut Public University C. Kevin Synnott,2001 The purpose of this study was to examine the effect of clarifying students' misperceptions regarding their peers' consumption of alcohol and feelings of comfort in drinking situations. Quantitative and qualitative approaches were used to determine if providing students with information would impact on their perceptions. A posttest-only control-group experimental design was employed to investigate the efficacy of clarifying students' misperceptions. The experimental group was provided with information gleaned from the literature regarding students' misperceptions. Participants were administered a questionnaire developed for this study to determine: (a) their drinking habits (i. e., frequency and quantity), (b) how comfortable they feel in drinking situations, (c) their perceptions regarding their peers' drinking habits, and (d) their perceptions regarding how comfortable their peers feel in drinking situations. The findings included: (a) students overestimated the alcohol consumed by their peers; (b) students inaccurately believed that their peers are more comfortable in drinking situations than they are themselves; and (c) information appears to have clarified female students' misperceptions associated with feelings of comfort in drinking situations. Resiliency in Action Nan Henderson,Bonnie Benard,Nancy Sharp-Light,2007 How to build bounce-back kids, families, schools, and communities is the theme of *Resiliency In Action: Practical Ideas for Overcoming Risks and Building Strengths in Youth, Families, and Communities*. It is edited by internationally recognized resiliency expert, trainer, and consultant Nan Henderson, M.S.W., whose

publications are used in more than 25 countries. The book is a research-based, practical guide for educators, counselors, parents, community organizers, and mentors and is filled with the latest strategies for helping children, families, schools, and communities bounce back from risk, stress, trauma, and adversity. More than two dozen experts in the fields of child, family, organizational, and community resiliency contributed to the book, which challenges a widely accepted myth about people especially young people, who experience risks, stress, trauma, and adversity in their lives, according to Henderson. Contrary to popular opinion, the majority of these individuals, over time, do bounce back and do well. There is a growing body of scientific research from several fields that documents this fact and yields important information as to what can be done every day to facilitate this process of overcoming. This book is really three books in one: it contains the most recent research, hands-on and practical strategies, and stories of resilient individuals and best practices. The book includes 60 chapters grouped in seven sections: The Foundations of Resiliency, Resiliency and Schools, Resiliency and Communities, Resiliency Connections (Mentoring, Support, and Counseling), Resiliency and Youth Development, Resiliency and Families, and Resiliency and the Brain.
