Currency Trading in the Forex and Futures Markets Carley Garner, 2012 Currency trading offers immense potential to stock and futures investors seeking new speculative opportunities. However, there are several ways to trade in currencies, and many unsuspecting traders have been burned by aggressive marketing campaigns and gimmicks luring them into unfavorable trading environments. In this book, best-selling trading author Carley Garner covers everything new currency traders need to know to avoid those pitfalls and start earning big profits. *Currency Trading in the Forex and Futures Markets* begins by demystifying all the essentials, from quotes and calculations to the unique language of Forex trading. Readers learn all they need to know about choosing trading platforms and brokerage firms; working with leverage; controlling transaction costs; managing liquidity, margins, and risks; and much more. Garner thoroughly explains the currency spot market (Forex); currency futures traded on the Chicago Mercantile Exchange (CME); and currency ETFs. She candidly discusses the advantages and disadvantages of each, cutting through the smoke and mirrors often associated with currency trading. Readers will also find a full section on currency market speculation, including a clear introduction to fundamental and seasonal analysis in currency markets. With her guidance, new currency traders can identify the markets and approaches that best fit their objectives, and avoid the pitfalls that have often victimized their predecessors.

Forex Trading Kacemi Abdallah, 2021-04-28 Every trader wants to know how to trade without losses. Unfortunately, we all do mistakes. Sometimes it seems like we've made a genius decision, but later we find out that it was impossible to take a decision more stupid than this one. It's possible to trade without losses at all, and minimize the risks. Professionalism in the currency trading market is not impossible. The professional trading process is a trading process based on laws and obligations, the trader must start applying it step by step. This is a hellish strategy that I always follow for trading in Forex, it's a powerful strategy that you cannot lose using it even a single cent even in the worst fluctuations in global markets, even that if something went wrong then the margin of loss will

be very little, because the strategy has a safety valve to ensure its success.

Forex Trading Signals Trader X, 2013-12 Ever felt like knocking your boss the eff out? Even if you're your own boss? I have. I remember the day I decided to punch my boss in the face. One of the best decisions I ever made by far. It was glorious. A V day of sorts. I just walked in his office, looked him straight in the eyes, and did a spinning back fist. Yeah, that's right ... a spinning back fist. Bruce Lee style, baby. I missed of course. And fell. But nevertheless ... my point had been made. I picked myself back up off the floor, slotted back to my cubic-hell, and resumed my daily torchores like a good little drone. And then I woke up. Literally. Like ... in a bed. I was just a stupid dream. Man, I thought. If I can't even punch my boss the right way in my dreams, how the heck am I ever gonna do it in real life? So I decided to do what every sensible human being does in his mid-thirties ... give up on my dreams. Luckily for me I had two dreams. One was to punch my boss in the face. The other was to quit my job and get filthy rich doing stuff that made me happy. Swing-and-a-miss on the first dream (pun intended). Home run on the second one. Like ... grand slam home run. I wanna tell you both how I did it and how you can be one of my RBIs. I've done all the hard work for you. All you have to do is quit your job and come on home. Here's my point ... You can have and do whatever the heck you want. You can, to a certain degree, create your own reality. But it's not easy. Which is why I've decided to create your reality for you. Wanna see it? Step into it even? You would if you knew what was on the other side. All ya gotta do is punch a few buttons and get this book. But you're going to have to take a click of faith.

How to Day Trade the Forex Market for REDICULOUS Profits Fire Your Boss, Escape 9-5, Live Anywhere, Join the New Rich Trader X, 2013-01-10 I will tell you more about my book later, but first, let me tell you a story to make my point even more clear. The other day I took my wife to a B&B to an island not too far from where I live. We drove about 30 min to get to the place It was a beautiful day the sun was up. The ocean was calm and nice, no wind you could glide on the surface if you wanted to. Man...this island was beautiful, flowers blooming everywhere in February. Keep reading we will get to the strawberries! So I get to this B&B, my wife is like gleaming can't wait to see what's in the house, the house was set up in a old colonial style at least that's what my wife told me. So before I get in the house I go around, cause there is a beautiful garden and I see that there is a basement floor which is completely empty. By the way what I am telling you has a lot to do with Forex trading, I have a purpose to my madness, so bear with me. But before I go further let me tell you what happened. I go and ask the host about the basement floor... you know why they are not using it, looks decent to me. So she goes ahead and tells me at least a dozen hurricane stories and how last time there was a hurricane, the water stood up eight feet strong on the street and that floor was always stuck under water and had to be completely wiped out and cleaned and how they decided not to use it any more. See my friend Forex trading can be like that beautiful island and a gorgeous paradise... The problem is that storms and hurricanes are a normal events in tropical paradise. The reason I wrote this book is so you don't end up being on the basement of Forex and get flushed every time there is a hurricane. If you are newbie or even a somewhat experienced trader, but live in the basement of Forex, you will get wiped out every single time. I promise you! The basement of Forex is full with indicator worship going on, in all kinds of indicator temples. Of course your broker is leading the main quire... fast to give you the free education and all of the stochastic, bands and other ropes so you can hang yourself fast. See in most cases your broker is on the opposite side of your trades unless he is an ECN broker(tip there is no guarantees the ECN brokers are not doing it, since they have all the info of your trades and stops.) So basically they have to hedge your trades, because they are not a price maker, but continually bidding for better quotes from the banks. So you the innocent retail trader enter the trade and the slaughter begins. I am sick and tired of seeing innocent hard working people, like you get slaughtered every day by the broker. I wrote this book for you, so it doesn't happen again. I have done all the hard work for you, and put a system that will give you a step by step guidance for success with Forex. You are just a few keyboard clicks away from getting your eyes open to the Forex reality and trading like the pros. Take a click of faith, punch few buttons and jump the gap. See you on the other side!
