March or Die Andrew Keith, William H. Keith, 2016-03-01 An uprising from an alien species threatens a futuristic foreign legion in this military sci-fi. As the Terran Commonwealth expanded the borders of the interstellar territories it controlled, a waning alien race was forced to yield much of their once glorious star empire. But they had never been fully conquered, and they would never cease trying to undermine the Commonwealth's power. When Commonwealth diplomats and the command officers of the Terran Fifth Foreign Legion gathered in the alien capital city to meet with a local ruler, no one suspected the trap they were walking into. As assassins attacked the diplomatic party, native forces struck the fortress of the Fifth Foreign Legion, which was still under construction and not yet secure. The ranking surviving officer from the fort has to lead his troops on an impossible march through the heart of enemy territory, fighting every step of the way in a last-ditch effort to reach the main base . . . or die in the attempt.

March the Damned Jeremiah Israel, 2014-08-12 Movie director, alcoholic and all around asshole Dennis March's plans for his next blockbuster are put on hold when Southern California is invaded by flying parasitic aliens that use people as hosts before discarding them as zombies. After local newscaster Kelly Stelly and crew save him from attack, he discovers that he has become partially infected with the alien DNA which changes his mind and body into something more alien than human. March quickly takes control of the group, renaming everyone and casting them as actors in the film that will save their lives and salvage his career. Meanwhile, Military officer Shane Mitchell is anxious to get a piece of the action, but his superiors won't lift the stand down order. After Professor Perry Prost makes a fool of him for disrupting his informative class on the aliens and zombies, Shane takes his action hungry Win Squad to take on the flying alien parasites and their hosts head on at the happiest place on earth: Disneyland. March's crew teams up with Little Boy Blam, a ten year old gangster from Compton, and uses his weapon and drug packed safe house to outfit his cast. No one knows the true secret to March's new found power, or the conspiracy behind the alien attack, until they meet another of the partially infected. By refusing to join the alien collective in their evil conspiracy to consume the souls of all mankind, he instigates a losing battle against the most powerful controlling force in existence. Flying Zombies deftly blends action, horror and satire into a ruthlessly humorous caricature of American pop culture and infectious paranoia. Its outrageous conclusion will either leave you laughing or deeply disturbed, but probably both.

The Last Sunset March Lions, 2022-11-03 Two baby girls seating in the rear of a car are involved in a terrible accident and their mother dies. An alien spacecraft hovering in the storm above witnesses the event and teleports the girls from the burning car. The girls are taken to the alien's home world on the other side of the galaxy. On arrival, they are separated and never told they were saved from a burning vehicle on a planet on the other side of the galaxy. Twenty-six years later, they are headed to Earth on opposite sides of good and evil. However, they are not aware they are sisters, let alone earthlings. The younger sister is an agent for the alien, Captain Arantose, who wants to either conquer or destroy the Earth for its precious raw materials. The other sister's mission is to either protect Earth or let it be destroyed. The eyes of Earth can't see every inch of space and spot an intruder, with either good or bad intentions, which could sneak through and take over or destroy Earth. When these aliens arrive, can Earth survive? Will the leaders of Earth be able to negotiate and save its inhabitants? Will its inhabitants be ready to sacrifice everything or die?

Identified Flying Objects Dr. Michael P. Masters, 2019-03-22 Could "UFOs" and "Aliens" simply be us, but from the future? This provocative new book cautiously examines the premise that extraterrestrials may instead be our distant human descendants, using the anthropological tool of time travel to visit and study us in their own hominin evolutionary past. Dr. Michael P. Masters, a professor of biological anthropology specializing in human evolutionary anatomy, archaeology, and biomedicine, explores how the persistence of long-term biological and cultural trends in human evolution may ultimately result in us becoming the ones piloting these disc-shaped craft, which are likely the very devices that allow our future progeny to venture backward across the landscape of time. Moreover, these extraterrestrials are ubiquitously described as bipedal, large-brained, hairless, human-like beings, who communicate with us in our own languages, and who possess technology advanced beyond, but clearly built upon, our own. These accounts, coupled with a thorough understanding of the past and modern

human condition, point to the continuation of established biological and cultural trends here on Earth, long into the distant human future.

Ghosts Aliens Trey Hamburger, 2008-11-04 Are you freaked out by the mere thought of a bird winking at you? Or do you panic when you hear an unexplained gurgling sound? Well, listen to this. On Saturday, March 8, at 7:12 p.m., Trey Hamburger heard a second hand account of a teleporting Hot Pocket and started wiggin' out bad. So he and his amigo Mike Stevens basically went into combat mode and ended up encountering some of the most seriously messed-up shit ever. And they're STILL FREAKED OUT ABOUT IT. Now, even though these guys aren't SCIENTISTS, it's pretty for sure that they might have extrapolated something HUGE, which will have the intellectual community going nuts for weeks. This is their story. Ghost/Aliens is probably the first time ever a regular person has investigated this sort of thing. So now the people of planet Earth will finally know the truth about all those levitating towels and dead grandpas popping up all over the place.

Alien Salute Charles Ingrid, 1989 The Thraks had killed Jack Storm's commanding officer, and Storm had been given the command of the Knights and the responsibility of overcoming the Thraks. Confessions of an Alien Hunter Seth Shostak, 2009-03-17 Aliens are big in America. Whether they've arrived via rocket, flying saucer, or plain old teleportation, they've been invading, infiltrating, or inspiring us for decades, and they've fascinated moviegoers and television watchers for more than fifty years. About half of us believe that aliens really exist, and millions are convinced they've visited Earth. For twenty-five years, SETI has been looking for the proof, and as the program's senior astronomer, Seth Shostak explains in this engrossing book, it's entirely possible that before long conclusive evidence will be found. His informative, entertaining report offers an insider's view of what we might realistically expect to discover light-years away among the stars. Neither humanoids nor monsters, says Shostak; in fact, biological intelligence is probably just a precursor to machine beings, enormously advanced artificial sentients whose capabilities and accomplishments may have developed over billions of years and far exceed our own. As he explores what, if anything, they would tell us and what their existence would portend for humankind and the cosmos, he introduces a colorful cast of characters and provides a vivid, state-of-the-art account of the past, present, and future of our search for extraterrestrial intelligence.

The March South Mike Adams, 2019-04-07 It's bad enough being forced to march our way to be the main ingredient for an alien stewpot but us being stripped down to our bloomers is just a bit much. My neck, back and bum are glowing red and sitting down is a real pain. Next time I get captured by aliens I'll have to remember not to wear a thong!-Lieutenant Moira Sullivan, shuttle pilot, Colonial Rangers, New Hope Colony, Ireland.
