Claimings, Tails, and Other Alien Artifacts Lyn Gala,2018-05-19 Liam loves his life as a linguist and trader on the Rownt homeworld, but he has ignored his heart and sexual needs for years. After escaping the horrors of war, he wants a boring life. He won't risk letting anyone come too close because he won't risk letting anyone see his deeply submissive nature. For him, submission comes with pain. Life burned that lesson into his soul from a young age. This fear keeps him from noticing that the Rownt trader Ondry cares for him. Ondry may not understand humans, but he recognizes a wounded soul, and his need to protect Liam is quickly outpacing his common sense. They may have laws, culture, and incompatible genitalia in their way, but Ondry knows that he can find a way to overcome all that if he can just overcome the ghosts of Liam's past. Only then can he take possession of a man he has grown to respect.

In *The Dark Forest*, Earth is reeling from the revelation of a coming alien invasion-in just four centuries' time. The aliens' human collaborators may have been defeated, but the presence of the sophons, the subatomic particles that allow Trisolaris instant access to all human information, means that Earth's defense plans are totally exposed to the enemy. Only the human mind remains a secret. This is the motivation for the Wallfacer Project, a daring plan that grants four men enormous resources to design secret strategies, hidden through deceit and misdirection from Earth and Trisolaris alike. Three of the Wallfacers are influential statesmen and scientists, but the fourth is a total unknown. Luo Ji, an unambitious Chinese astronomer and sociologist, is baffled by his new status. All he knows is that he's the one Wallfacer that Trisolaris wants dead. **The War of the Worlds** H. G. Wells,2014-08-01 When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

**True Hallucinations** Terence McKenna, 1994-04-22 This mesmerizing, surreal account of the bizarre adventures of Terence McKenna, his brother Dennis, and a small band of their friends, is a wild ride of exotic experience and scientific inquiry. Exploring the Amazon Basin in search of mythical shamanic hallucinogens, they encounter a host of unusual characters -- including a mushroom, a flying saucer, pirate Mantids from outer space, an appearance by James and Nora Joyce in the guise of poultry, and translinguistic matter -- and discover the missing link in the development of human consciousness and language.

*The Humane Gardener* Nancy Lawson, 2017-04-18 In this eloquent plea for compassion and respect for all species, journalist and gardener Nancy Lawson describes why and how to welcome wildlife to our backyards. Through engaging anecdotes and inspired advice, profiles of home gardeners throughout the country, and interviews with scientists and horticulturalists, Lawson applies the broader lessons of ecology to our own outdoor spaces. Detailed chapters address planting for wildlife by choosing native species; providing habitats that shelter baby animals, as well as birds, bees, and butterflies; creating safe zones in the garden; cohabiting with creatures often regarded as pests; letting nature be your garden designer; and encouraging natural processes and evolution in the garden. *The Humane Gardener* fills a unique niche in describing simple principles for both attracting wildlife and peacefully resolving conflicts with all the creatures that share our world.

*The Third Industrial Revolution* Jeremy Rifkin, 2011-10-04 The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful Third Industrial Revolution. He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an energy internet, just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. *The Third Industrial Revolution* is an insider's account of the next great economic era, including a look into the personalities and players — heads of state, global CEOs, social entrepreneurs, and NGOs — who are pioneering its implementation around the world.

*Spinning Out* David Stahler Jr., 2011-05-27 High school senior Frenchy has little ambition beyond hanging out at the smoking rock until his best friend, the ever-witty and conniving Stewart, gets him to try out for *Man of la Mancha*. To everyone's surprise, the guys are a hit. But when Stewart's antics begin to grow more obsessive—he wears his costume 24/7, freaks out about little details, and displays an incessant hatred of the high-tech windmills outside of town—Frenchy worries that there's something deeper going on. Is Stewart spiraling into madness, just like Don Quixote? And can Frenchy battle through his own demons in time to save his friend from self-destruction before it's too late?

**Chariots of the Gods** Erich von Daniken, 2019-06-27 All over the world there are fantastic ruins and objects that cannot be explained by conventional history, archaeology or religion. In the groundbreaking *Chariots of the Gods*, Erich von Daniken provides answers to these questions...why do religious texts often refer to Gods who descend from fiery chariots? Why do modern space launch sites look like constructions on the plains of Nazca in Peru? Was God an astronaut? By looking at human history and the ruins of ancient civilisations with an open mind, Erich von Daniken offers a new solution to these eternal mysteries in *Chariots of the Gods*. Why, for instance, do the world's

sacred books describe Gods who came down from the sky in fiery chariots and always promised to return? How could an ancient Sanskrit text contain an account which could only be of a journey in an alien craft? Compare photographs of American space centre launch sites to the constructions on the plains of Nazca in Peru. In order to understand the mysteries which Erich von Daniken has catalogued we must go back to these ancient relics with an open mind. We must call in the resources and experience of sciences other than archaeology. Chariots of the Gods is a provocative attempt to explain some of the universe's most interesting mysteries. Erich von Daniken has spent a lifetime gathering evidence to prove that, before the dawn of recorded history, our ancestors were visited by an alien race. Erich von Daniken was responsible for popularising the ancient astronaut hypothesis of human development. Orthodox historians have been sceptical but a vast public have been drawn to his ideas by instinctive interest and wonder. His 26 books have sold over 60 million copies in over 40 languages.

*Of Jenny and the Aliens* Ryan Gebhart, 2017-08-01 When boy meets girl meets alien, the angst of first love gets an extraterrestrial intervention in a tale both outrageously funny and full of heart. Ten years after Earth sent messages out into deep space, there has been an answer. Music from distant planet Pud 5 has reached the world's radios. Are aliens about to invade? No one knows, and almost-eighteen-year-old Derek doesn't really care, because at a wild end-of-the-world party, Jennifer Novak invited him to play beer pong, and things, well, progressed from there. Derek is in love. Deeply, hopelessly in love. He wants it all — marriage, kids, growing old on a beach in Costa Rica. For him, Jenny is the One. But Jenny has other plans, which may or may not include Derek. So Derek will try anything to win her — even soliciting advice from an alien who shows up in his hometown. This alien may just be the answer to Derek's problem, but is Derek prepared to risk starting an intergalactic war to get his girl? Just how far is he willing to travel to discover the mysteries of the universe — and the enigma of love?

**Psychedelic Cannabis** Daniel McQueen, 2021-09-28 • Explains how cannabis can be used to treat trauma and emotional pain, as a profound problem-solving tool, and as a potent catalyst for self-transformation and ongoing healing work • Shares methods to minimize the unwanted effects, such as intensified anxiety and paranoia, and direct the experience to produce deep physical relaxation and, when needed, elevated healing states • Details how to blend cannabis strains for specific kinds of psychedelic experiences and how to prepare for your sessions to ensure success Despite the recent resurgence of interest in the therapeutic potential of psychedelics, Cannabis sativa as a psychedelic therapy has been completely overlooked. Yet, as psychedelic specialist Daniel McQueen reveals, when used skillfully and with intention, cannabis can be used to treat trauma and other mental health concerns just as psilocybin mushrooms and MDMA can. It can also be used as a problem-solving tool and as a potent catalyst for self-actualization and ongoing healing work. Presenting a step-by-step guide, McQueen explores how to transform cannabis into a reliable and safe psychedelic medicine. Drawing on his years of experience working with clients to release traumas and emotional pain and step into their full potential, he explains the importance of proper dose, set, setting, and intention and details how to prepare for your psychedelic cannabis sessions to ensure success. He shares methods to use cannabis in a specialized and mindful way to minimize unwanted effects, such as intensified anxiety and paranoia, and direct the experience to produce vivid psychedelic states, deep physical relaxation, and healing. Looking at the unique qualities of different cannabis strains, the author explores the art of making a psychedelic cannabis blend, the possibilities and hidden potentials of each strain, and how to blend strains for specific medicine experiences, ranging in similarity to MDMA, psilocybin, and even ayahuasca. Unveiling new depth to this ancient spiritual and medicinal ally, McQueen shows how consciously using cannabis as a psychedelic can help transform your trauma into resilience and shift your mindset from surviving to thriving.

**Alien Plants** (Collins New Naturalist Library, Book 129) Clive A. Stace, Crawley, 2015-11-26 The word 'aliens' can be used in many ways, to invoke fear, dislike and fascination.
