**DEALING | the Incredible Journey of an African American Car Dealer** Kevin Anderson,2020-05-30 This book takes you on my journey of becoming a car dealer. It offers a bird's-eye view of the automobile industry. It evaluates the conditions under which I and many other Black car dealers operate in order to determine why so many of us failed. In 2005 there were 751 new car franchise-rooftops<sup>1</sup> owned by African Americans. As of December 2017, that number declined drastically to 270, out of a total of 19,284 American new car franchise-rooftops. In 2005, black car dealers accumulated billions of dollars in wealth; unfortunately, they lost most of it when the recession ended in 2009. Yet African Americans continue to purchase new cars in record numbers. African Americans purchased 1,105,931 new cars in 2015, with gross revenue of \$35,357,792,000, most of which went to white car dealers. With an annual growth rate of 9.4%, it's estimated that African Americans will purchase over 1.5 Million New Cars in 2020, with gross reveue surpassing \$50 Billion!With African Americans owning only 1.4% of car dealerships nationwide, can we afford to give \$50 Billion dollars of our hard-earned income every freaking year to folks who don't look like us? \$50 Billion dollars circulating within the African American community can go a long way and will do wonders for African Americans! It will create jobs with fair incomes and will allow Blacks to purchase houses that appreciate in value instead of simply buying cars that depreciate. Ultimately, it will allow Blacks to build wealth. After all, it's our damn money! In September of 1992, at the age of 36, after a 10-

year career as a Business Consultant for Ford Motor Company and a Ford Dealer Trainee, I joined the ranks of the Black car dealers in America and became the proud owner of a Lincoln Mercury franchise in St. Louis, Missouri. Five years later, like the majority of Black car dealers, I lost my franchise. Dealing chronicles the emotional highs and lows I experienced both before and after becoming a Black car dealer.

American Icon Bryce G. Hoffman, 2012 A riveting, behind-the-scenes account of the near collapse of the Ford Motor Company, which in 2008 was close to bankruptcy, and CEO Alan Mulally's hard-fought effort and bold plan--including his decision not to take federal bailout money--to bring Ford back from the brink.

American Motors Corporation Patrick R. Foster, 2013-11-25 Patrick Foster's American Motors Corporation: The Rise and Fall of America's Last Independent Automaker is the definitive history of the AMC corporation. Featured vehicles include the Rambler, Javelin, and more, as Foster walks the reader through not only the history of an American classic, but a history of the automotive industry itself as it evolved through emissions restrictions and the gas guzzlers of the 80s and 90s-Provided by publisher.

### **Ford Dealer and Service Field ,1939**

**The Dealer** Jim Ciardella, 2022-07-15 When Ferrari of Los Gatos opened, few people could afford an expensive sports car. In 1976, the average annual income was \$12,686, and a new home cost about \$48,000. Motorists in California could only buy gas on odd or even-numbered days based on the last digit of their license

plate, due to the global oil crisis. Times were tough, and people were hesitant to take chances, especially with a car that cost more than a house. At the same time, Brian Burnett and his friend Richard Rivoir had the idea of starting a Ferrari dealership. The Dealer is the story of how one dealership, Ferrari of Los Gatos, fueled the rise of the iconic Italian sports car in the U.S. market on its way to becoming the number one Ferrari dealer in North America. Even Enzo Ferrari himself took notice, flying Brian and the other dealers to Italy to show his appreciation for their success. Customers included movie stars, sports celebrities, entertainers, and some with unusual sources of income and a strong desire for a low profile. Along the way, Burnett made friends, enemies, and millions of dollars, only to lose everything in the blink of an eye. Author Jim Ciardella shows readers a part of Ferrari that no one has even seen, with behind-the-scenes stories as told to him by Richard Rivoir and Brian Burnett, their customers and employees, and other North American dealers who all rode high and eventually burned out on selling fast cars.

### **Selling the American Muscle Car** Diego

Rosenberg,2016-10-14 As the muscle car wars developed in the early 1960s, auto manufacturers scrambled to find catchy marketing campaigns to entice the buying public into their dealerships. General Motors, Ford, and Chrysler, with all their divisions, as well as AMC and Studebaker, inevitably sank billions of dollars into one-upmanship in an effort to vie for the consumer's last dollar. Automotive writer Diego Rosenberg examines the tactics and components used by manufacturers in waging war against one another in the muscle car era. Manufacturers poured millions into racing programs, operating under the principle of Win on Sunday, Sell on Monday. Cars were given catchy nicknames, such as The GTO Judge, Plymouth Roadrunner, Cobra, and Dodge Super Bee. Entire manufacturer lines were given catchy marketing campaigns, such as Dodge's Scat Pack, AMC's Go Package, and Ford's Total Performance. From racing to commercials to print ads, from dealer showrooms to national auto shows, each manufacturer had its own approach in vying for the buyer's attention, and gimmicks and tactics ranged from comical to dead serious. Selling the American Muscle Car: Marketing Detroit Iron in the 60s and 70s takes you back to an era when options were plentiful and performance was cheap. You will relive or be introduced to some of the cleverest marketing campaigns created during a time when America was changing every day.

**Ford Tough** Patrick R. Foster,2017-06-01 Get Fords complete story in Ford Tough: 100 Years of Ford Trucks and see why they've dominated the truck market, selling 1.5 million trucks every year in the US alone. In July 1917 Ford Motor Company introduced a one-ton chassis for commercial trucks, marking what many

historians feel was its official entry into the dedicated truck business. Sure, after-market pickup beds could be added to a Model T car to convert it to a pickup, but with the debut of the rugged Model TT truck chassis, Ford was firmly in the truck market. Eight years later, Ford introduced its first factory-produced pickup, a sturdy half-ton job the public loved. During the century that has passed since that first Ford truck chassis, the F-series has become the best-selling truck in the world, and the best-selling vehicle of any type in America. Ford Tough: 100 Years of Ford Trucks tells the entire Ford truck story from the very beginning, when Ford got its start in truck production. This book provides the history of the wide array of models Ford has built over the past century, including the Model A roadster pick-up, stylish 81C pickups, legendary 1948 F-1, Bronco, Courier, Ranchero, and Econoline.

**Storied Independent Automakers** Charles K.

Hyde, 2009-11-15 With roots extending back to the first decade of the twentieth century, Nash Motor Company and the Hudson Motor Car Company managed to compete and even prosper as independent producers until they merged in 1954 to form the American Motors Company, which itself remained independent until it was bought in 1987 by the Chrysler Corporation. In *Storied Independent Automakers*, renowned automotive scholar Charles K. Hyde argues that these companies, while so far neglected by auto history scholars, made notable contributions to automotive engineering and styling and were an important part of the American automobile industry. Hyde investigates how the relatively small corporations struggled in a postwar marketplace increasingly dominated by the giant firms of Ford, General Motors, and Chrysler, which benefited from economies of scale in styling, engineering, tooling, marketing, and sales. He examines the innovations that kept the independents' products distinctive from those of the Big Three and allowed them to survive and sometimes prosper against their larger competitors. Hyde also focuses on the

visionary leaders who managed the companies, including Charles Nash, Roy D. Chapin, Howard Coffin, George Mason, George Romney, and Roy D. Chapin Jr., who have been largely unexamined by other scholars. Finally, Hyde analyzes the ultimate failure of the American Motors Company and the legacy it left for carmakers and consumers today. *Storied Independent Automakers* is based on extensive research in archival collections generated by the three companies. Residing in large part in the DaimlerChrysler Corporate Collection, these sources have been seldom tapped by other scholars before this volume. Auto historians and readers interested in business history will enjoy *Storied Independent Automakers*.
