The All-inclusive Christ Witness Lee, 1969

All Inclusive Farzana Doctor, 2015-10-03 A story about one all-inclusive resort, the ghost of an unknown father, and the tragedies we can't forget. What's it like when everyone's dream vacation is your job? Ameera works at a Mexican all-inclusive resort, where every day is paradise – if "paradise" means endless paperwork, quotas to meet, and entitled tourists. But it's not all bad: Ameera's pastime of choice is the swingers scene, and the resort is the perfect place to hook up with like-minded couples without all the hassle of having to see them again. Despite Ameera's best efforts to keep her sideline a secret, someone is spreading scandalous rumours about her around the resort, and her job might be at stake. Meanwhile, she's being plagued by

her other secret, the big unknown of her existence: the identity of her father and why he disappeared. Unbeknownst to Ameera, her father, Azeez, is looking for her, and they both must come to terms with the reason why he abandoned her. A moving new work from award-winning author Farzana Doctor, *All Inclusive* blurs the lines between the real world and paradise, and life and death, and reminds us that love is neither easily lost nor found. An Inclusive Academy Abigail J. Stewart, Virginia Valian, 2018-07-17 How colleges and universities can live up to their ideals of diversity, and why inclusivity and excellence go hand in hand. Most colleges and universities embrace the ideals of diversity and inclusion, but many fall short, especially in the hiring, retention, and advancement of faculty who would more fully represent our diverse world—in particular women and people of color. In this book, Abigail Stewart and Virginia Valian argue that diversity and excellence go hand in hand and provide guidance for achieving both. Stewart and Valian, themselves senior academics, support their argument with comprehensive data from a range of disciplines. They show why merit is often

overlooked; they offer statistics and examples of individual experiences of exclusion, such as being left out of crucial meetings; and they outline institutional practices that keep exclusion invisible, including reliance on proxies for excellence, such as prestige, that disadvantage outstanding candidates who are not members of the white male majority. Perhaps most important, Stewart and Valian provide practical advice for overcoming obstacles to inclusion. This advice is based on their experiences at their own universities, their consultations with faculty and administrators at many other institutions, and data on institutional change. Stewart and Valian offer recommendations for changing structures and practices so that people become successful in ways that benefit everyone. They describe better ways of searching for job candidates; evaluating candidates for hiring, tenure, and promotion; helping faculty succeed; and broadening rewards and recognition.

Creating an Inclusive School Richard A. Villa, Jacqueline S. Thousand, 2005-02-15 In this comprehensive resource on inclusive schooling, administrators, general and special educators, and parents explore how inclusive education can support a diverse student body at all grade levels. They show how schools can meet standards and provide a least restrictive environment for students with disabilities by using cooperative learning, teaming, multi-age grouping, multicultural education, social skills training, and educational technology applications. And they explain how to facilitate change by using universal design principles and other curricular, instructional, assessment, and organizational practices. The authors examine the prevailing myths and the most frequently asked questions about inclusive education, and they provide an extensive list of resources. Woven through the book are the personal stories of people with disabilities and the educators and parents who work with them. As their voices make clear, inclusion is more than an educational buzzword; inclusion is a way of life, based on the belief that each individual is valued and belongs. How to Be an Inclusive Leader Jennifer Brown, 2019-08-20 We know why diversity is important, but how do we drive real change at work? Diversity

and inclusion expert Jennifer Brown provides a step-by-step guide for the personal and emotional journey we must undertake to create an inclusive workplace where everyone can thrive. Human potential is unleashed when we feel like we belong. That's why inclusive workplaces experience higher engagement, performance, and profits. But the reality is that many people still feel unable to bring their true selves to work. In a world where the talent pool is becoming increasingly diverse, it's more important than ever for leaders to truly understand how to support inclusion. Drawing on years of work with many leading organizations, Jennifer Brown shows what leaders at any level can do to spark real change. She guides readers through the Inclusive Leader Continuum, a set of four developmental stages: unaware, aware, active, and advocate. Brown describes the hallmarks of each stage, the behaviors and mind-sets that inform it, and what readers can do to keep progressing. Whether you're a powerful CEO or a new employee without direct reports, there are actions you can take that can drastically change the day-to-day reality for your colleagues and the trajectory of your organization. Anyone can—and should—be an inclusive leader. Brown lays out simple steps to help you understand your role, boost your self-awareness, take action, and become a better version of yourself in the process. This book will meet you where you are and provide a road map to create a workplace of greater mutual understanding where everyone's talents can shine.

Inclusive Learning 365 Christopher Bugaj, Karen Janowski, Mike Marotta, Beth Poss, 2022-08-03 Designed to be read one day – and page – at a time, this book from four inclusive learning experts offers 365 strategies for implementing technology to design inclusive experiences. Educators across the world are working to design individualized instruction that empowers every student to become experts at learning. Technology and instructional interventions designed to support students with disabilities often eventually become mainstream and used by the masses. These practices provide a pathway for designing inclusive, equitable and accessible educational experiences that meet the needs of every individual learner. This engaging book includes daily strategies accompanied by examples of tools that can be implemented immediately to design meaningful instruction. Topics covered include role-playing games for social-emotional learning, building literacy through captioned video, coding to teach early literacy, text-to-speech for math and reading, and much more! Each daily strategy includes: • Explanation of how to

use the strategy to design inclusive educational experiences. • Examples of tools that can be used to implement the strategy. • Alternative ways to use the strategy to extend student learning. • Images illustrating the strategy or tool. • Identification of relevant ISTE Standards for Educators and ISTE Standards for Students. Related resources. The heart of the book is the shift in mindset that occurs by exploring a different practical, inclusive strategy each day and infusing these strategies into everyday practice.

Sun & Sea Tourism Linda M. Ambrosie, 2015-09-10 Cruise ship passengers and all-inclusive hotel-guests are increasing exponentially as these floating and fixed properties proliferate in size and number. This is especially true for developing economies that consider sun, sand and sea tourism as a form of growth. Tightly integrated, multi-billion dollar global enterprises mix with weak local institutions populated by local officials, some corrupt, vying for more investment to create a toxic cocktail with diminished social benefits as the hangover. Within view of the shoreline and the towering monoliths of hotels and ships, post-secondary education facilities teach normative concepts of good management to students who, upon graduation, fight for a decreasing number of poorly paid jobs. Meanwhile, local government officials tout vacuous GDP figures and hospitality companies make inflated claims of employment to garner federal funding for infrastructure expansion. Many observers have made similar claims that have been easily ignored to date due to an absence of studies integrating tax revenue, private and public finance,

and social outcomes. This combination illustrates not only current structures, but also how they are engendered. Rather than relying on tourist satisfaction, much investment is driven by windfall profits and tax-loss carryforwards thanks to tax loopholes and willing local officials that ignore or aid in the violation of regulations. While foreign companies condemn the corruption and cronyism at destinations, local nationals decry the exploitative foreign companies. The simple truth is that they flourish symbiotically. As such, this book necessarily addresses both actors. However, rather than being simply critical or numerical, this book provides recommendations for multinational enterprises increasingly running the risk of detection of aggressive tax planning and greenwashing. For host countries, it provides recommendations of a virtuous cycle for improved public sector accountability to restore the beneficial effects of tourism. There is also a discussion on how a value-added study of the tourism industry within a jurisdiction could detect untaxed profits that are withheld through astute transfer-pricing schemes. This is a book for tourism managers and experts, as well as policy-makers in the Caribbean and any sun, sand and sea destination that attracts floating and fixed all-inclusives.
