### **Beginning RSS and Atom Programming** Danny

Ayers, Andrew Watt, 2005-05-06 RSS and Atom are specifications that give users the power to subscribe to information they want to receive and give content developers tools to provide continuous subscriptions to willing recipients in a spam-free setting. RSS and Atom are the technical power behind the growing millions of blogs on the Web. Blogs change the Web from a set of static pages or sites requiring programming expertise to update to an ever changing, constantly updated landscape that anyone can contribute to. RSS and Atom syndication provides users an easy way to track new information on as many Web sites as they want. This book offers you insight to understanding the issues facing the user community so you can meet users' needs by writing software and Web sites using RSS and Atom feeds. Beginning with an introduction to all the current and coming versions of RSS and Atom, you'll go step by step through the process of producing,

aggregating, and storing information feeds. When you're finished, you'll be able to produce client software and Web sites that create, manipulate, aggregate, and display information feeds effectively. This book is full of practical advice and tips for consuming, producing, and manipulating information feeds. I only wish I had a book like this when I started writing RSS Bandit. - Dare Obasanjo, RSS Bandit creator: <http://www.rssbandit.org/>

*Writing Online* George Pullman, 2016-02-11 Contrary to the old adage about finding new names for old things, *Writing Online: Rhetoric for the Digital Age* gives new life and new meaning to old names. The book and its companion website transform ancient rhetoric as a process of oral composition—invention, arrangement, memory, style, and delivery—into a digital rhetoric, a dynamic process of writing for the World Wide Web: dynamic because it shows not only how to write in a Web-based medium but, more importantly, how to learn and adapt to a medium that is constantly evolving and changing. Unlike conventional books that provide specific solutions to specific problems, *Writing Online* reenacts the process of solving Web-based writing problems, explaining everything from how to create a simple web page to how to

develop a sophisticated content management system and everything in between: HTML, HTML5, CSS, JavaScript, PHP, and much more. As a digital rhetoric, moreover, Writing Online recreates the ancient processes of oral composition for a digital era. Digital invention becomes a push-pull process of transmitting information via searches, alerts, news aggregators, and read-write algorithms. Digital arrangement becomes a question-and-answer process inviting multiple responses via intuitive navigation systems and dynamic patterns of organization. Digital memory transforms the ancient memory palace into a dynamic, programmable content management system. Digital style provides computer-based tools to enhance writers' word choice, argumentative structures, and feedback. Digital delivery resituates speakers and writers in onscreen environments that balance functionality and aesthetics for optimum responsiveness and usability. —James P. Zappen, Professor, Department of Communication and Media, Rensselaer Polytechnic Institute

You Should Quit Reddit Jacob Desforges, 2023-02-21 In recent years, countless books, articles, and documentaries have addressed the negative effects that social media platforms have wrought on their users and society. However, these former works are incomplete — nearly no attention has been paid to Reddit, one of the most popular websites in the world. Reddit is certainly unique among social platforms, but its potential for addiction and darker side of nefarious activity should absolutely not be understated. Additionally, nearly no actionable advice has been provided to users of these platforms. The audience is told that these websites and apps are harming their mental health, wasting their time, and that they are addictive (which would logically make the task of quitting rather difficult), but then provided zero guidance on how to disconnect from them. Over 200,000 users gather on Reddit's /r/NoSurf community to discuss reducing their internet use; the forum is filled with reports of people who want to quit Reddit, but find themselves psychologically compelled to return to the site over and over. For moderate to heavy users of

these platforms, quitting is clearly not so simple. *You Should Quit Reddit* is a paradigm shift in the genre. Jacob Desforjes was a Reddit user of over a decade, and a self-admitted Reddit addict who spent on average around three hours daily on the site. Not only is this the first book investigating Reddit's flaws as a platform, but it is also written from the perspective of someone who experienced firsthand the struggle that comes with quitting these addictive platforms. This book therefore also provides readers with the practical advice, tools, and techniques needed to shatter the cycle of digital addiction, enabling them to quit visiting Reddit and other time-wasting websites for good, so they can effectively reclaim their time to use in a more intentional manner.

Ethno-Playography Anne Hart, 2007-07-27 Here's how to write salable plays, skits, monologues, or docu-dramas from life experiences, social issues, or current events. Write plays/skits using the technique of ethno-playography which incorporates traditions, folklore, and ethnography into dramatizing real events. The sample play and monologues portray events as social issues. One true life example for a skit is the scene in the sample play written from first-person point-of-view about a 1964 five-minute train interlude when a male passenger commands the protagonist not to cross between cars while the train is in motion. The passenger stands between the cars next to his wife who says timorously, Let her go, dear, after the wife notices the young protagonist wears a wedding ring. The protagonist tells him she's pregnant, returning from the john, and needs to get back to her family. Instead, he squeezes her head in a vise-like grip, crushing her between his knee and the wall of the train. He kicks at the base of her spine, yelling stereotypical ethnic epithets while passengers ignore events. After the sample play and three monologues for performance, you will have learned how to write ethnographic dialogue and select appropriate scene settings. Also included are e-interviews with popular fiction writers.
