

Allegro Metronome

Max Rudolf

Classical Style Charles Rosen,1998-01-06 Presents a detailed analysis of the musical styles and forms developed by Mozart, Haydn, and Beethoven.

Baroque Music Robert Donington,1982 The fruit of a lifetime's research into baroque performing practice.

Classical and Romantic Performing Practice 1750-1900 Clive Brown,2004-05-20 The past ten years have seen a rapidly growing interest in performing and recording Classical and Romantic music with period instruments; yet the relationship of composers' notation to performing practices during that period has received only sporadic attention from scholars, and many aspects of composers' intentions have remained uncertain. Brown here identifies areas in which musical notation conveyed rather different messages to the musicians for whom it was written than it does to modern performers, and seeks to look beyond the notation to understand how composers might have expected to hear their music realized in performance. There is ample evidence to demonstrate that, in many respects, the sound worlds in which Mozart, Beethoven, Wagner, and Brahms created their music were more radically different from ours than is generally assumed.

The Musical Herald ,1908

The Compleat Conductor Gunther Schuller,1997 In world renowned conductor and composer Gunther Schuller's highly provocative critique of modern conducting, he castigates many of this century's most venerated conductors for using the podium to indulge their own interpretive idiosyncrasies, rather than devote themselves to reproducing the composer's stated intentions. 937 music examples. 35 tables.

Performing Brahms Michael Musgrave,Bernard D. Sherman,2003-10-02 A great deal of

evidence survives about how Brahms and his contemporaries performed his music. But much of this evidence - found in letters, autograph scores, treatises, publications, recordings, and more - has been hard to access, both for musicians and for scholars. This book brings the most important evidence together into one volume. It also includes discussions by leading Brahms scholars of the many issues raised by the evidence. The period spanned by the life of Brahms and the following generation saw a crucial transition in performance style. As a result, modern performance practices differ significantly from those of Brahms's time. By exploring the musical styles and habits of Brahms's era, this book will help musicians and scholars understand Brahms's music better and bring fresh ideas to present-day performance. The value of the book is greatly enhanced by the accompanying CD of historic recordings - including a performance by Brahms himself.

Schubert Studies Brian Newbould, 2017-07-05 *Schubert Studies* comprises eleven essays by renowned Schubert scholars and performers. The volume sheds light on certain aspects of Schubert's music and biography which have hitherto remained relatively neglected, or which warrant further investigation. Musical topics include analyses of tempo conventions, transitional procedures and rhythmic organization. There are reassessments of several works, using autograph research, performing experience and other approaches; while assumptions as to the extent of Schubert's influence on later Czech composers are also brought into question. Concerns with aspects of Schubert's biography, in particular the social and musical circles in which he moved, come under examination in several essays. The final two chapters deal specifically with the composer's relationships with women, and the psychological and physiological illnesses from which he suffered. Each of the essays here charts new and existing evidence to provide fresh perspectives on these aspects of Schubert's life and music, making this volume an indispensable tool for scholars concerned

with his work.

Franz Schubert's Music in Performance David Montgomery, 2003 In *Franz Schubert's Music in Performance* David Montgomery challenges many operative myths about the music of this great, but often misunderstood, Viennese master. Chief among them is the lingering notion that Schubert was poorly-trained but still managed to turn out brilliant, if often flawed, scores. Modern adherents of this view believe that Schubert could not notate his own musical wishes accurately, and that he was principally a creature of intuition. Accordingly, musicians might allow themselves wide intuitive leeway in the interpretation of his music. Another myth challenged by Montgomery is that Schubert was a conservative, or perhaps even a chronological throwback. Opposing recent attempts to legitimize performer-generated embellishment of Schubert's music in the style of the eighteenth century, He clarifies Schubert's contributions to the radical intellectualism of nineteenth-century romanticism. The book offers six informative chapters ranging from aesthetics and acoustics to the specifics of tempo and expression, plus an appendix of pertinent Viennese pedagogical sources. In addition to many years of musicological research, Montgomery brings long experience as a concertizing pianist and conductor to this engaging and controversial work.

Jacobs' Band Monthly, 1920

A Musical Life Max Rudolf, 2001 This volume offers a collection of articles written by the renowned conductor and scholar Max Rudolf, together with a selection of his correspondence relating to material in the articles. Max Rudolf's conducting career spanned seventy years, from his first performances in 1920-21 to his last in 1990. His life was devoted to performing, scholarship, and teaching. He conducted at the Metropolitan Opera from 1943 to 1937 and was Musical Director of the Cincinnati Symphony from 1938 to 1970, after which he combined guest conducting with teaching

opera and conducting at the Curtis Institute in Philadelphia. The articles reflect a lifetime of thought on the art of conducting, musical style, and performance practice. Rudolf, known as an interpreter of the classical repertoire, freely shared his vast knowledge of Mozart's and Beethoven's scores with colleagues and students. His conducting book, *The Grammar of Conducting*, has been the leading college text in the field for many years. As such it has extended his influence on many generations of conductors. Throughout his life, Rudolf corresponded voluminously with other musicians. The letters included in this volume were selected because they shed a warm, personal light on the formal published articles thus providing an opportunity to share the mind and thoughts of an outstanding human being.

Classical and Romantic Music David Milsom, 2017-07-05 This volume brings together twenty-two of the most diverse and stimulating journal articles on classical and romantic performing practice, representing a rich vein of enquiry into epochs of music still very much at the forefront of current concert repertoire. In so doing, it provides a wide range of subject-based scholarship. It also reveals a fascinating window upon the historical performance debate of the last few decades in music where such matters still stimulate controversy.

Piano Sonatas, Volume 1 (Nos. 1-8) Ludwig van Beethoven, Stewart Gordon, Beethoven wrote 32 sonatas for piano. Volume 1, edited by Stewart Gordon, includes the first 8 sonatas (Op. 2, Nos. 1-3; Op. 7; Op. 10, Nos. 1-3; and Op. 13 [Pathétique]), written between 1795 and 1799. Since these autographs no longer exist, this edition is based on the first editions, published by various Viennese engravers. Dr. Gordon discusses a variety of topics including Beethoven's life; the pianos of his time and their limitations; Beethoven's use of articulation, ornamentation, tempo; and the age-old challenge of attempting to determine the definitive interpretation of Beethoven's music. Valuable performance recommendations, helpful fingering suggestions and ornament realizations are offered in this comprehensive critical body of Beethoven's sonatas. Where performance options are open to interpretation, other editors' conclusions are noted, enabling students and teachers to make informed performance decisions.

Gabriel Fauré: The Songs and their Poets Graham Johnson, 2017-07-05 The career of Gabriel Fauré's a composer of songs for voice and piano traverses six decades (1862-1921); almost the whole

history of French music is contained within these parameters. In the 1860s Fauré the lifelong protégé of Camille Saint-Saëns was a suavely precocious student; he was part of Pauline Viardot's circle in the 1870s and he nearly married her daughter. Pointed in the direction of symbolist poetry by Robert de Montesquiou in 1886, Fauré as the favoured composer from the early 1890s of Winnaretta Singer, later Princesse de Polignac, and his songs were revered by Marcel Proust. In 1905 he became director of the Paris Conservatoire, and he composed his most profound music in old age. His existence, steadily productive and outwardly imperturbable, was undermined by self-doubt, an unhappy marriage and a tragic loss of hearing. In this detailed study Graham Johnson places the vocal music within twin contexts: Fauré's own life story, and the parallel lives of his many poets. We encounter such giants as Charles Baudelaire and Paul Verlaine, the patrician Leconte de Lisle, the forgotten Armand Silvestre and the Belgian symbolist Charles Van Lerberghe. The chronological range of the narrative encompasses Fauré's first poet, Victor Hugo, who railed against Napoleon III in the 1850s, and the last, Jean de La Ville de Mirmont, killed in action in the First World War. In this comprehensive and richly illustrated study each of Fauré's 109 songs receives a separate commentary. Additional chapters for the student singer and serious music lover discuss interpretation and performance in both aesthetical and practical terms. Richard Stokes provides parallel English translations of the original French texts. In the twenty-first century musical modernity is evaluated differently from the way it was assessed thirty years ago. Fauré's no longer merely a 'Master of Charms' circumscribed by the belle époque. His status as a great composer of timeless

Dmitri Shostakovich, Pianist Sofia Mosheovich, 2004 Dmitri Shostakovich (1906–1975) is recognized as one of the greatest composers of the twentieth century yet few people know that he was also an outstanding concert pianist who maintained a hectic performing schedule. In Dmitri

Shostakovich, Pianist Sofia Moshevich offers the first detailed examination of Shostakovich the pianist within the context of his life and work as a composer. She traces his musical roots, piano studies, repertoire, and concert career through his correspondence with family and friends and his own and his contemporaries' memoirs, using material never before available in English. This biographical narrative is interwoven with analyses of Shostakovich's piano and chamber works, demonstrating how he interpreted his own music. For the first time, Shostakovich's own recordings are used as primary sources to discover what made his playing unique and to dispel commonly held myths about his style of interpretation. His recorded performances are analysed in detail, specifically his tempos, phrasing, dynamics, pedal, and tonal production. Some unpublished variants of musical texts are included and examples of his interpretations are provided and compared to various editions of his published scores.
