Many people, mental health professionals included, think therapy needs to be long, hard, and painful--a lifelong commitment. And while some people will need help longer than others, it is often possible for people to start feeling better right now. If you engage in the right behaviors and strategies, you'll optimize your brain health--and see the benefits in your everyday life. In *Conquer Worry and Anxiety*, renowned psychiatrist Dr. Daniel G. Amen will guide you to lasting change, teaching you how to make decisions that serve your brain's health and set you on a path to a happier, healthier life. Feel Better Fast and Make It Last Daniel G. Amen, MD,2018-11-13 If you want to feel happier, more optimistic, more joyful, and resilient, Dr. Amen's groundbreaking new book is for you. We've all felt anxious, sad, traumatized, grief-stricken, stressed, angry, or hopeless at some point in life. It's perfectly normal to go through emotional crises or have periods when you feel panicked or out of sorts. It is how you respond to these challenges that will make all the difference in how you feel--not just immediately, but also in the long run. Unfortunately, many people turn to self-medicating behaviors, such as overeating, drugs, alcohol, risky sexual behavior, anger, or wasting time on mindless TV, video games, Internet surfing, or shopping. And even though these behaviors may give temporary relief from feeling bad, they usually only prolong and exacerbate the problems--or cause other, more serious ones. Is it possible to feel better--and make it last? Renowned physician, psychiatrist, brain-imaging researcher, and founder of Amen Clinics Dr. Daniel Amen understands how critical it is for you to know what will help you feel better fast, now and later. In *Feel Better Fast and Make It Last*, you'll discover new, powerful brain-based strategies to quickly gain control over anxiety, worry, sadness, stress and anger, strengthening your resilience and giving you joy and purpose for a lifetime.

Swimming Aimlessly Jon Waldman,2021-03-30 Using his own journey as inspiration, writer Jon Waldman offers this heartfelt and funny guide for men and couples struggling with infertility. Take a moment to scroll through the contacts on your phone or your friends on Facebook. One in six of them is struggling with infertility. The affected women have most likely reached out to family, close friends, support groups, or online communities. They ask for the help they need, and often get it on behalf of themselves and their partners. But men don't always handle infertility well. Regardless of the underlying cause, the inability to conceive naturally can be extremely painful. The resulting feelings of inadequacy, shame, and isolation can change how a man acts towards those closest to him. But Jon Waldman wants to change that. In *Swimming Aimlessly*, Waldman shares his family's infertility story, a years-long, crazy expensive, physically and emotionally exhausting ride. He also speaks with other couples, doctors, and fertility experts, providing not only the latest science, but more intimate advice about the ups and downs of trying to conceive, keeping the partnership healthy, and dealing with the inevitable losses that come--even when the journey ends in a baby.

The Normative and the Evaluative Richard Rowland,2019-01-31 Many have been attracted to the idea that for something to be good there just have to be reasons to favour it. This view has come to be known as the buck-passing account of value. According to this account, for pleasure to be good there need to be reasons for us to desire and pursue it. Likewise for liberty and equality to be values there have to be reasons for us to promote and preserve them. Extensive discussion has focussed on some of the problems that the buck-passing account faces, such as the 'wrong kind of reason' problem. Less attention, however, has been paid as to why we should accept the buck-passing account or what the theoretical pay-offs and other implications of accepting it are. The Normative and the Evaluative provides the first comprehensive motivation and defence of the buck-passing account of value. Richard Rowland argues that the buck-passing account explains several important features of the relationship between reasons and value, as well as the relationship between the different varieties of value, in a way that its competitors do not. He shows that alternatives to the buck-passing account are inconsistent with important views in normative ethics, uninformative, and at odds with the way in which we should see practical and epistemic normativity as related. In addition, he extends the buck-passing account to provide an account of moral properties as well as all other normative and deontic properties and concepts, such as fittingness and 'ought', in terms of reasons.

Producing Women Michele White,2015-03-02 *Producing Women* examines the ways femininity is produced through new media. Michele White considers how women are constructed, produce themselves as subjects, form vital production cultures on sites like Etsy, and deploy technological processes to reshape their identities and digital characteristics. She studies the means through which women market traditional female roles, are viewed, and produce and restructure their gendered, raced, eroticized, and sexual identities. Incorporating a range of examples across numerous forms of media—including trash the dress wedding photography, Internet how-to instructions about zombie walk brides, nail polish blogging, DIY crafting, and reborn doll production—*Producing Women* elucidates women's production cultures online, and the ways that individuals can critically study and engage with these practices.

Just In Case! Lose Your Heart, Not Your Mind: Smart Woman's Guide to Marriage and Self-Sufficiency (HC) Aliette Carolan, 2017-06-07 "In this practical guide, Aliette Carolan insightfully outlines the keys to a successful marriage and its dissolution. She paves the way for women, especially, to feel empowered in their life-choices which then allows them to make the best decisions for themselves and their family. This is a great guide for any woman who wants to be smart, empowered and conscious in the choices she makes in love, life and family." –Dr. Shefali Tsabary NYT Bestselling Author of THE AWAKENED FAMILY GIVE AWAY YOUR HEART, but don't lose your mind. Know the deal you're getting into. Know that self-preservation is the key to a happy marriage– and a happy divorce. We don't take a job expecting that we'll hate it and quit. We don't sign the lease on an apartment we'll be sick of in six months, and we don't enter into a relationship planning for the breakup. But the flip side is that we shouldn't expect any relationship we enter into will save us from the responsibility of being self-sufficient. No matter where you are in the process–dating, engaged, married, contemplating separation, and divorce–if you can realize why you have to put yourself first, you're halfway there. Whether you're in the rapturous throes of endless love or the first moments of stomach-churning awareness that your marriage is falling apart, this book is for you. It's for every woman who understands that self-preservation will not happen if you rely on someone else to save you. You need to maintain–or begin to establish– your personal independence and financial solvency if you want to be self-sufficient no matter what life throws at you. You can lean on someone, but you have to be able to stand on your own two feet at a moment's notice, and that's what this book is about.

Writing and Representing Qualitative Research Maria K. E. Lahman, 2021-08-25 This book addresses foundational areas of qualitative writing (such as journal articles and dissertations), aesthetic representations (including poetry and autoethnography), publishing, and reflexivity in representation in one practical and engaging text based on real experiences. Author Maria K.E. Lahman draws on her experiences as a qualitative research professor and writing instructor, and as someone who has published widely in scholarly journals, employing both traditional and more innovative forms of writing. The first part of the book covers writing tips; how to represent data; how to write a qualitative thematic journal article; how to write a qualitative dissertation; and provides guidance on the publication process. The second part encourages the qualitative researcher to move beyond traditional forms of writing and consider how qualitative research can be represented more aesthetically: as poems, autoethnographies, and visually. The book concludes with a chapter on reflexivity in research representations. Throughout, the author provides vivid examples from her own work, and that of graduate students and colleagues.

The Lumière Galaxy Francesco Casetti, 2015-03-03 Francesco Casetti believes new media technologies are producing an exciting new era in cinema aesthetics. Whether we experience film in the theater, on our hand-held devices, in galleries and museums, onboard and in flight, or up in the clouds in the bits we download, cinema continues to alter our habits and excite our imaginations. Casetti travels from the remote corners of film history and theory to the most surprising sites on the internet and in our cities to prove the ongoing relevance of cinema. He does away with traditional notions of canon, repetition, apparatus, and spectatorship in favor of new keywords, including expansion, relocation, assemblage, and performance. The result is an innovative understanding of cinema's place in our lives and culture, along with a critical sea-change in the study of the art. The more the nature of cinema transforms, the more it discovers its own identity, and Casetti helps readers realize the galaxy of possibilities embedded in the medium.

The Convenience Revolution Shep Hyken, 2018-10-02 Convenience is King When you make it easier for customers to do business with you, they will reward you with their money, their loyalty, and their referrals. There's a reason they call it a convenience store – because it's convenient! When you have to pick up a gallon of milk, would you rather stop by a large supermarket or a 7-Eleven? Customers who shop at convenience stores know the selection is smaller and the prices are often higher...yet they still come in droves because of the ease of purchase. What about the minibar in your hotel room? That's convenient too...but the convenience comes at a cost. Did you ever

stop to think that the same \$5.00 can of Coca-Cola in the hotel’s mini-fridge can be bought down the hall from the vending machine for just \$1.25? Yet even with that can of Coke being four times more expensive, hotels are restocking minibars every day. Customers will pay for convenience. And they’ll choose to do more business over time with the people and companies that make their lives more convenient! Whether you’re trying to out-service a competitor or disrupt an entire industry, creating less friction and being more convenient for your customers should be your strategy. When you raise the convenience bar, you create the next level of amazing customer experience. This book shows you how to leverage convenience as a powerful way to differentiate yourself from your competition. You’ll learn six compelling strategies, supported by numerous examples and case studies that will fuel your plan to create a focus on convenience for your customers. The value proposition is both simple and profound: when you reduce friction and make it easier for customers to do business with you, they’ll reward you with their money, their loyalty, and their referrals. That’s the advantage of being a part of The Convenience Revolution.

Combatting Body Shaming Tamra B. Orr,2016-07-15 In the West, overweight people are shamed daily for their “poor choices” and their “lack of self-discipline.” But thin people can be shamed, too—we assume they are anorexic or desperate to keep up with Hollywood standards. Then there are the female athletes who should be celebrated for their strength and power but are deemed “masculine.” How can anyone feel good about his or her body? This important resource for female and male students alike uses real-life examples to explore the concept and harmful consequences of body shaming, as well as what to do if it happens to them.

The Art of Permanence Tim Swick,2017-09-25 Mate selection is the second most important decision we make in life! This decision determines whether our life will be blessed and full of joy or if it will be a painful calamity. If it is a calamity, then it will bring disastrous effects on us, our mate, our children, and our extended family and friends. Who can best guide us through this decision? Parents frequently convey to their children that the only criteria for success in mate selection and marriage are money and education. Parents want their children to excel in marriage, but they give their children no specialized training or emphasis on preparing their lives and being the kind of person who can secure a godly mate and maintain a permanent, lasting relationship. I see churches striving to attract youths and young adults to the church. I see churches challenging youths to be exceptional in their faithfulness to Jesus. I want to see churches teaching teenagers and young adults to be intimate with one another while maintaining sexual purity. I want to see churches teaching youths how to build the skills that will make them an excellent mate and future parent. I want to see churches teaching youths and young adults how to find healing for the pains that are destroying their lives. I see churches teaching that God demands holiness, and I want to see them teaching that holiness is the most enjoyable, beneficial, and only lifestyle that can and will bring permanence to all of our relationships, including marriage.
