Lady Friends Karen L. Ito,2018-08-06 Many indigenous Hawaiians who have moved to the islands' cities languish at the bottom of the socioeconomic scale and are thought to have lost their cultural roots. Initially apolitical urban Hawaiians were often skeptical of activists who sought to revitalize traditional ways; yet, as Karen L. Ito shows, Hawaiian women in particular continue to maintain and express crucial aspects of their cultural heritage in their lifestyle and interactions with others. Ito conducted intensive fieldwork with six Honolulu families, all of which shared the distinguishing characteristics of Hawaii's matrifocal society. In her close examination of the friendships and family relations among the women in these households, she focuses on the significance of a traditional manner of speech known as talk story which they use when conversing together. She describes how her subjects employ metaphoric language to address issues concerning responsibility, retribution, understandings of self and personhood, and methods for conflict resolution. For these lady friends, Ito finds, the emotional quality and quantity of their social relationships help define personal identity while their common concepts of morality bind them together. By applying ethnopsychological strategies to the exploration of culture, Ito demonstrates cultural continuity at a level where most observers would not expect to find it. Lady Friends brings a new dimension to Hawaiian research.

Imperial Material Alvita Akiboh,2023 Alvita Akiboh's book reveals how US national identity has been created, challenged, and transformed through embodiments of empire found in its territories, whether stamps, flags, or currency. These objects are economic and symbolic, but they also encode the relationships between territories-including the Philippines, the Marshall Islands, Puerto Rico, and Palau-and the empire with which they are entangled. Akiboh shows how such items became objects of local power, transmogrifying their original intent. For even if imperial territories were not always front and center for federal lawmakers and administrators, the people living there remained continuously aware of the imperial United States, whose presence announced itself on every bit of currency, every stamp, and the local flag--

Hollywood's Hawaii Delia Caparoso Konzett, 2017-03 Whether presented as exotic fantasy, a strategic location during World War II, or a site combining postwar leisure with military culture, Hawaii and the South Pacific figure prominently in the U.S. national imagination. Hollywood's Hawaii is the first full-length study of the film industry's intense engagement with the Pacific region from 1898 to the present. Delia Malia Caparoso Konzett highlights films that mirror the cultural and political climate of the country over more than a century—from the era of U.S. imperialism on through Jim Crow racial segregation, the attack on Pearl Harbor and WWII, the civil rights movement, the contemporary articulation of consumer and leisure culture, as well as the buildup of the modern military industrial complex. Focusing on important cultural questions pertaining to race, nationhood, and war, Konzett offers a unique view of Hollywood film history produced about the national periphery for mainland U.S. audiences. Hollywood's Hawaii presents a history of cinema that examines Hawaii and the Pacific and its representations in film in the context of colonialism, war, Orientalism, occupation, military buildup, and entertainment.
