

Alone In Space

Francesca Specter

Alone in Space Tillie Walden,2021-06-16 A collection of Tillie's three longform comics with Avery Hill, I Love This Part, The End Of Summer and A City Inside. Plus the early sketches, short comics for magazines and webcomics such as What It's Like To Be Gay In An All-Girls Middle School that shot her to fame on both sides of the Atlantic and have never been collected before.

Mission 41-B ,1984

Leave Me Alone! Vera Brosgol,2016-09-13 A wry and funny modern folktale about one grandma's epic quest to finish her knitting, from Anya's Ghost author Vera Brosgol.

Alone Out Here Riley Redgate,2022-04-05 What do you stand for,when you're one of the last left standing? The year is 2072. Soon a volcanic eruption will trigger catastrophic devastation, and the only way out is up. While the world's leaders, scientists, and engineers oversee the frantic production of a space fleet meant to save humankind, their children are brought in for a weekend of touring the Lazarus, a high-tech prototype spaceship. But when the apocalypse arrives months ahead of schedule, First Daughter Leigh Chen and a handful of teens from the tour are the only ones to escape the planet. This is the new world: a starship loaded with a catalog of human artifacts, a frozen menagerie of animal DNA, and fifty-three terrified survivors. From the panic arises a coalition of leaders, spearheaded by the pilot's enigmatic daughter, Eli, who takes the wheel in their hunt for a habitable planet. But as isolation presses in, their uneasy peace begins to fracture. The struggle for control will mean the difference between survival and oblivion, and Leigh must decide whether to stand on the side of the mission or of her own humanity. With aching poignancy and tense, heart-in-your-mouth action, this enthralling saga will stay with readers long after the final page.

Alone in the Universe John Gribbin,2011-12-01 The acclaimed author of *In Search of Schrödinger's Cat* searches for life on other planets Are we alone in the universe? Surely amidst the immensity of the cosmos there must be other intelligent life out there. Don't be so sure, says John Gribbin, one of today's best popular science writers. In this fascinating and intriguing new book, Gribbin argues that the very existence of intelligent life anywhere in the cosmos is, from an astrophysicist's point of view, a miracle. So why is there life on Earth and (seemingly) nowhere else? What happened to make this planet special? Taking us back some 600 million years, Gribbin lets you experience the series of unique cosmic events that were responsible for our unique form of life within the Milky Way Galaxy. Written by one of our foremost popular science writers, author of the bestselling *In Search of Schrödinger's Cat* Offers a bold answer to the eternal question, Are we alone in the universe? Explores how the impact of a supercomet with Venus 600 million years ago created our moon, and along with it, the perfect conditions for life on Earth From one of our most talented science writers, this book is a daring, fascinating exploration into the dawning of the universe, cosmic collisions and their consequences, and the uniqueness of life on Earth.

Alone in Space Dottie Mahaffey,2006-05-01 Linda lives in New Jersey with her mom. Her parents are separated and do not talk to each other. Linda tells her mom she is staying with her dad over spring break. Her dad thinks she is at space camp. Then Linda takes off for her own adventure of seeing a spaceport and maybe seeing a spaceship lift off. While wandering around, she sees a large spaceship and sneaks aboard. While she is exploring the control room, the ship locks down and takes off. She does not have a clue to the password for the computer that controls the radio, so she cannot contact Earth. There also is no clue to where the ship is heading or how long it will take to get there. There are twenty-seven others aboard, all in space sleep. Linda is reluctant to wake anyone in fear she could do them harm. So while she copes with being alone on this space voyage, her mom and dad begin their own journey as they frantically search for their daughter. Though it seems like Linda has just vanished, they will not give up looking for her.

Alone Scott Stuart,2022-03-30 We all feel different sometimes, and Earth, slowly spinning in the darkness of space, feels so very different from all the other planets. Can Earth find friendship in the loneliest of places?--Provided by publisher.

Live Alone and Like It Marjorie Hillis,2009-11-29 In this witty, engaging guide, a renowned Vogue editor takes readers through the fundamentals of living alone by showing them how to create a welcoming environment and cultivate home-friendly hobbies, for no woman can accept an invitation every night without coming to grief. Whether you view your one-woman ménage as Doom or Adventure, you need a plan, if you are going to make the best of it. Thus begins Marjorie Hillis' archly funny, gently prescriptive manifesto for single women. Though it was 1936 when the Vogue editor first shared her wisdom with her fellow singletons, the tome has been passed lovingly through the generations, and is even more apt today than when it was first published. Hillis, a true bon vivant, was sick and tired of hearing single women carping about their living arrangements and lonely lives; this book is her invaluable wake-up call for single women to take control and enjoy their circumstances. With engaging chapter titles like A Lady and Her Liquor and The Pleasures of a Single Bed, along with a new preface by author Laurie Graff (You Have to Kiss A Lot of Frogs), *Live Alone and Like It* is sure to appeal to live-aloners—and those considering taking the plunge.

Alone Chaboute,2018-05-08 On a tiny lighthouse island far from the rest of the world, a hermit lives out his existence. Every week a supply boat leaves provisions, yet the fishermen never leave their boat, and never meet him. Years spent on this deserted rock, with imagination his sole companion, has made the lighthouse keeper something more than alone, something else entirely. For him, what lies beyond the horizon might be... nothing. And so, why would you ever want to leave? But, one day, as curiosity gets the better of him, a new boatman steps onto the island. Intertwining tenderness, despair, and humour, *Alone* captures how someone can be an everyman, and every man is someone.

Salvation Day Kali Wallace,2020-06-16 A lethal virus is awoken on an abandoned spaceship in this incredibly fast-paced, claustrophobic thriller. They thought the ship would be their salvation. Zahra knew every detail of the plan. House of Wisdom, a massive exploration vessel, had been abandoned by the government of Earth a decade earlier, when a deadly virus broke out and killed everyone on board in a matter of hours. But now it could belong to her people if they were bold enough to take it. All they needed to do was kidnap Jaswinder Bhattacharya—the sole survivor of the tragedy, and the last person whose genetic signature would allow entry to the spaceship. But what Zahra and her crew could not know was what waited for them on the ship—a terrifying secret buried by the government. A threat to all of humanity that lay sleeping alongside the orbiting dead. And then they woke it up.

Octopus Alone Divya Srinivasan,2013-05-16 Octopus loves living on the busy reef under the sea. From her cozy cave, she can see clown fish, and sea turtles, and little butterflies swimming by. She especially loves watching the seahorses having fun, wiggling and twirling. Sometimes she will play with them, but occasionally Octopus just wants to be alone, somewhere quiet, and not so busy. So one day, she swims far, far beyond the reef and finds another cozy cave, only here she is perfectly, wonderfully alone. It is exactly what she wanted . . . until she's ready to go back home to be with her friends. As she did in *Little Owl's Night*, Divya Srinivasan shows children a wonderful part of the natural world in a very warm-hearted way.

Earth Alone Daniel Arenson,2016-06-17 They came from deep space. They came to destroy us. Fifty years ago, bloodthirsty aliens devastated the Earth. Most of humanity perished. We fell into darkness. But now we rise from the ashes. Now we fight back. Marco Emery was born into the war. After his mother is killed, he joins the Human Defense Force, Earth's ragtag army. Emery must survive basic training, become a soldier, and finally face the aliens in battle. Against the alien onslaught, Earth stands alone. But we will fight. We will rise. We will win!

Alone Together Sherry Turkle,2017-11-07 Savvy and insightful. --New York Times Technology has become the architect of our intimacies. Online, we fall prey to the illusion of companionship, gathering thousands of Twitter and Facebook friends, and confusing tweets and wall posts with

authentic communication. But this relentless connection leads to a deep solitude. MIT professor Sherry Turkle argues that as technology ramps up, our emotional lives ramp down. Based on hundreds of interviews and with a new introduction taking us to the present day, *Alone Together* describes changing, unsettling relationships between friends, lovers, and families.

Bowling Alone Robert D. Putnam, 2000 Packed with provocative information about the social and political habits of twentieth-century Americans.

Alonement Francesca Specter, 2021-03-04 How to be alone and absolutely own it, by founder of the Alonement blog and podcast, Francesca Specter. _____ *A Times Book of the Year* 'A hugely generous and thoughtful book' - ALAIN DE BOTTON 'A kind, wise celebration of solo living' - DAISY BUCHANAN 'Thoughtful and thought provoking, it made me genuinely excited about spending time in my own company' - FELICITY CLOAKE _____ Being alone has a serious branding issue. We've only ever had negative language to talk about flying solo - but what about when time spent alone is restorative and joyful? What if it's something you crave? What if it's even just an hour you've carved out for yourself in the middle of a hectic week? Enter: Alonement, Francesca Specter's empowering new word to express valuing your own company and dedicating quality time to yourself, whoever you are and whatever your relationship status. Between shared homes, social plans and smartphone addictions, most of us don't know how to be alone - yet our life-long relationship with ourselves is the most important one we'll ever have. A reformed 'extreme extrovert' who struggled to spend even an hour on her own, Francesca made the resolution in January 2019 to improve her solitude skills. A year later, facing months of lockdown as a household-of-one, she valued those skills more than ever - and began sharing her wisdom with others on how to cherish time alone. Packed with practical tips, insights from key experts and lessons from guests of the Alonement podcast - including Alain de Botton, Florence Given, Konnie Huq, Vick Hope and Camilla Thurlow - Francesca reveals how we can all thrive alone, whatever our circumstances, and harness the untapped power of some meaningful time with me, myself and I.

Alone in Plain Sight Ben Higgins, 2021-02-02 Are you tired of people knowing who you are but no one really knowing you? As the star of the twentieth season of *The Bachelor*, Ben Higgins looked like he had it all together. Instead, Ben felt dissatisfied, fearful, and deeply alone. Like so many of us, he thought of himself as the kid who never got picked for the game, the person always on the outside of the joke, the friend who knew a lot of people but was never truly known. He wondered if he mattered at all. In *Alone in Plain Sight*, Ben vulnerably shares how he found authentic connection with himself, with others, and with God. As Ben helps us name our own yearning for meaning, he explores ways to understand ourselves more deeply so that we are free to connect with others; how shared pain can bridge even the widest gaps between two very different people; why we must deconstruct our culture's fairy-tale view of love; and how the God who longs for relationship with us is the answer to our need for connection. As Ben discovered, in a disconnected world, it is still possible to have lasting purpose and peace. You are already known. You are already loved. You are already seen. Discover how to live out how much you matter as you embrace the true meaning of your one incredible life.

There's No Place Like Space Tish Rabe, 2019-06-18 The *Cat in the Hat* takes readers on an out of this world reading adventure through outer space! The *Cat in the Hat's Learning Library* is a nonfiction picture book series that introduces beginning readers ages 5-8 to important basic concepts. Learn about the solar system, planets, the constellations, and astronauts, and explore the wonders of space with the help of everyone's favorite *Cat in the Hat*! Perfect for aspiring astronauts, or any kid who loves learning and science. The universe is a mysterious place. We are only just learning what happens in space. Featuring beloved characters from Dr. Seuss's *The Cat in the Hat*, the *Learning Library* are unjacketed hardcover picture books that explore a range of nonfiction topics about the world we live in and include an index, glossary, and suggestions for further reading.

Alone Scott Stuart,2019-08-08 We all feel different sometimes, and Earth, slowly spinning in the darkness of space, feels so very different from all the other planets. Can Earth find friendship in the loneliest of places? This lovingly illustrated children's book by Scott Stuart reminds us that even when we feel completely alone, friendship is just a moment (or a meteor) away. An excerpt... Earth opened her eyes and looked all around. She looked for a friend... but no friend could be found. Click the BUY button and get your copy of this beautiful and empowering story now!

Five Years Alone in Space H. Bordo,2020-07-12 Ivan is the last mutant, but he wants to be so much more than that. That's why he sets out to make history. He will be the first person to spend five years alone in a spaceship while documenting the experience. However, he realizes things aren't always what they seem to be, and what he thought was a once-in-a-lifetime opportunity could, in reality, be a suicide mission. Is it too late to get off the ride?

I Love You, Michael Collins Lauren Baratz-Logsted,2017-06-20 It's 1969 and the country is gearing up for men walking on the moon. Ten-year-old Mamie's class is given an assignment to write letters to the astronauts, and she is the only one who writes to Michael Collins, the astronaut who doesn't get to walk on the moon because he has to stay with the ship. After school ends for the year, Mamie keeps writing to Michael Collins, taking comfort in telling someone about what's going on with her family. One by one, they each leave her thinking that someone else is taking care of her--until she is all alone except for her best friend, Buster, who lives next door. As the launch nears, everyone in the country is on the edge of their seats: Will the mission be successful? For Mamie, there's even greater turmoil, and she can't help but wonder: Does no one stay with the ship anymore?

Right here, we have countless books **Alone In Space** and collections to check out. We additionally give variant types and as a consequence type of the books to browse. The satisfactory book, fiction, history, novel, scientific research, as skillfully as various supplementary sorts of books are readily genial here.

As this Alone In Space, it ends up instinctive one of the favored books Alone In Space collections that we have. This is why you remain in the best website to see the unbelievable ebook to have.
