Long-Range Casimir Forces Frank S. Levin,David A. Micha,2013-06-29 This series, Finite Systems and Multiparticle Dynamics, is intended to provide timely reviews of current research topics, written in a style sufficiently pedagogic so as to allow a nonexpert to grasp the underlying ideas as well as understand technical details. The series is an outgrowth of our involvement with three interdis ciplinary activities, namely, those arising from the American Physical Society's Topical Group on Few Body Systems and Multiparticle Dynam ics, the series of Gordon Research Conferences first known by the title Few Body Problems in Chemistry and Physics and later renamed Dynamics of Simple Systems in Chemistry and Physics, and the series of Sanibel Symposia, sponsored in part by the University of Florida. The vitality of these activities and the enthusiastic response to them by researchers in various subfields of physics and chemistry have convinced us that there is a place--even a need-for a series of timely reviews on topics of interest not only to a narrow band of experts but also to a broader, interdisciplinary readership. It is our hope that the emphasis on pedagogy will permit at least some of the books in the series to be useful in graduate-level courses. Rather than use the adjective Few-Body or Simple to modify the word Systems in the title, we have chosen Finite. It better expresses the wide range of systems with which the reviews of the series may deal.

Pressure Plate Ed Toy,2013-11-05 This book provides one perspective on the operational activities associated with executing offensive counter-IED operations in Southern Afghanistan during 2008-2009. This period of the war experienced more IED attacks on US and coalition forces than another time during the war. The comments and observations made by the author, Colonel Ed Toy USA are drawn from his personal experience while serving as the Chief of Counter-IED operations in Regional Command-South and the Deputy Commander for Joint Task Force Paladin at Kandahar Airfield. COL Toys perspective is not necessarily the official viewpoint of the US military or the contributing nations to the International Security Assistance Forces (ISAF) however much of the research and commentary are taken from actual events either drawn from the authors own personal experience or directly from US and ISAF forces conducting C-IED operations during this the bloodiest year of the Afghan war.
