*Insurgence* Matthew Tice,2020-01-16 Insurgence is designed to help business leaders apply new methods to the most important business problem they face in the world today: namely, how to overcome their incumbent mentality to maintain relevance and discover new sources of growth. At the convergence of lean, business model innovation, agile, and design thinking, insurgence is a methodology and business philosophy that will help leaders in incumbent businesses rediscover how to operate like small and nimble insurgents whilst maintaining many of their incumbent advantages. Incumbent businesses, often having enjoyed a long period of relative historical market stability, are increasingly unprepared for nimble insurgents coming on to the field of play and applying different assumptions and business models at speed and scale. These incumbent businesses find that the business models that fuelled their success are no longer robust to the change surrounding their business, and they are becoming increasingly obsolete, weighed down by a high degree of internal focus, inflexible internal controls, and an inability to innovate. Meanwhile, nimble insurgents strike at the heart of these weaknesses by formulating alternative core assumptions, building adaptive business models, and innovating in close proximity to customers and market needs. This book enables business leaders to characterise the difference between incumbents and insurgents, develop new ways of thinking about how to compete in this age of accelerating change, and provide a new framework for strategy and innovation that helps leaders to discover the essence of insurgence for their businesses. It uses rich case studies that illustrate both successful and unsuccessful efforts to help leaders move from theory to action at speed and at scale.

Even if her latest attempt at chasing rainbows might cost her a real future . . . Once in the city of lights, Laney is almost undone by the glaring truth: maybe she isn't sophisticated or talented enough to make it as an artist—or an independent woman, for that matter. **Dating Makes Perfect** Pintip Dunn,2020-08-18 The Tech sisters don't date in high school. Not because they're not asked. Not because they're not interested. Not even because no one can pronounce their long, Thai last name—hence the shortened, awkward moniker. But simply because they're not allowed. Until now. In a move that other Asian American girls know all too well, six months after the older Tech twins got to college, their parents asked, "Why aren't you engaged yet?" The sisters retaliated by vowing that they won't marry for ten (maybe even twenty!) years, not until they've had lots of the dating practice that they didn't get in high school. In a shocking war on the status quo, her parents now insist that their youngest daughter, Orrawin (aka "Winnie"), must practice fake dating in high school. Under their watchful eyes, of course—and organized based on their favorite rom-coms. 'Cause that won't end in disaster. The first candidate? The son of their longtime friends, Mat Songsomboon—arrogant, infuriating, and way too good-looking. Winnie's known him since they were toddlers throwing sticky rice balls at each other. And her parents love him. If only he weren't her sworn enemy.

So with just a few more months until freedom, she spends her summer working at the local aquarium gift shop and dreaming of the fall. Then she meets Georgia, a counselor at the aquarium's camp, and Caroline's world changes. Through pizza lunches, trips to amusement parks, and midnight talks, Georgia begins to show Caroline there's more to life than being with Jake. The stronger Georgia and Caroline's bond grows, the more uneasy Caroline becomes about her plans to leave. When summer comes to a close, she'll have to say goodbye to someone...but who is she willing to lose?
