**Evaluation of the C. Y. Leung Administration** Joseph Yu-shek CHENG, 2020-06-01 Did C. Y. Leung achieve his goals? Did he perform his duty to the Hong Kong people as their third Chief Executive? To answer these questions, this book presents a rational, research-based critique of the C. Y. Leung Administration (2012 - 2017). It is a sweeping and original publication that covers various aspects of governance, including politics, economics, healthcare, human rights, civil service, housing, urban planning, youth, and Legislative Council elections as well as Hong Kong's relationships with Taiwan, Mainland China, and Western countries. Written by a team of expert authors from various fields, this book is one of the first comprehensive academic discourses on the issues this administration faced while in office. The first chapter sets the tone of the book, with the subsequent chapters providing additional details confirming the general conclusions of the authors concerning the C. Y. Leung Administration. Written for scholars and community members interested in Hong Kong governance, this anthology presents a complex and comprehensive critique of one specific Chief Executive's period of

influence and how his administration's policies still affect the Hong Kong community today.

**Land and Housing Controversies in Hong Kong** Betty Yung, Kam-Por Yu, 2020-07-16 This book discusses land and housing controversies in Hong Kong, which offer a point of reference for the comparison and analysis of similar or contrasting cases overseas from the perspective of social values. It enhances readers' understanding of the social values, philosophical and theoretical issues that underpin land and housing controversies, as well as their policy implications. The discussion in each chapter goes beyond mere substantive and contextual analysis, and is explicitly positioned and theorized within the broader context of social values, with a theoretical and philosophical framework for assessing the issue concerned. The book is interdisciplinary in nature, with each chapter integrating two or more disciplines to examine various controversial land and housing issues.

*Interest Groups and the New Democracy Movement in Hong Kong* Sonny Shiu-Hing Lo, 2017-09-13 A new era in the democracy movement in Hong Kong began on July 1, 2003, when half a million people protested on the streets, and has included the 2012 anti-National Education

campaign, the 2014 Occupy Central Movement and the rapid rise of localist groups. The new democracy movement in Hong Kong is characterized by a diversity of interest groups calling for political reform, policy change and the territory's autonomy vis-à-vis the central government in Beijing. These groups include lawyers, teachers, students, nativists, workers, Catholics, human rights activists, environmental activists and intellectuals. This book marks a new attempt at understanding the activities of the various interest groups in their quest for democratic participation, governmental responsiveness and openness. They are utilizing new and unconventional modes of political participation, such as the Occupy Central Movement, cross-class mobilization, the use of technology and cyberspace, and human rights activities with cross-boundary implications for China's political development. The book will be useful to students, researchers, officials, diplomats and journalists interested in the political change of Hong Kong and the implications for mainland China.

**The Evolving Landscape of Media and Communication in Hong Kong** Yu Huang ,Yunya Song ,2019

Over the last twenty years Hong Kong society has witnessed dramatic change, and nowhere is this

better reflected than in the realm of media and communications. Across the fields of journalism, public relations and advertising, we can see the changing trends in terms of audience consumption and interaction. From technological developments to the shift in audience participation, the expectations and functions of these professions have been greatly altered. While many of these changes are occurring worldwide, within Hong Kong the processes of change have been further complicated by recent social and political events. Through a selection of essays by field experts, this volume explores the evolution of media itself as well as the complex causes underlying these developments. It identifies not only the difficulties and opportunities for media professionals today, but also the evolving role of the audience.

**Hong Kong Society** Stephen WK Chiu, Kaxton YK Siu, 2022-02-23 This book borrows the concept of “high-definition” from digital broadcasting to highlight our unique approach to Hong Kong society, which gives a sharper image than analyses. It intends to highlight contrasts with many common and taken-for-granted stories, myths and representations of Hong Kong— which often presented with a low

level of detail, lacking proper connections between grounded personal experiences and the macro social context. With chapters covering various salient dimensions of Hong Kong's society, including migration, economy, inequality, identity and social movements, our “high-definition” approach presents images with high enough “resolution” to match multiple layers of experiences from walks of life of Hong Kong people, contributing to an understanding of how global transformation impacts local people's experiences, as well as Hong Kong's significance in the regional and global system.

China's High-tech Companies: Case Studies Of China And Hong Kong Special Administrative Region (Sar) Tai Wei Lim,2023-10-12 China is now considered a tech superpower in many areas. This book illustrates certain aspects and case studies of China's technological developments and further analyzes them under various areas like coal energy, housing, connectivity, digital and space technologies. Furthermore, it examines technological developments in the periphery of China, focusing especially on Hong Kong Special Administrative Region (HKSAR). This book does not pretend to be comprehensive in its coverage albeit surveys a spectrum of sectors in China and Hong Kong to get an

idea of their developments. By peering into China through the mainland continental perspective and also looking into China from its periphery (e.g., 'Greater China' perspectives from HKSAR), this book provides readers with the broad contours of technological development in China through a multidisciplinary area studies perspective.

Prison Officers Helen Arnold, Matthew Maycock, Rosemary Ricciardelli, 2024-01-13 This edited collection brings together academics, lawyers, civil servants, and researchers working in the human rights NGO sector, to explore the work and role of prison officers around the world. Each chapter offers a distinctive perspective on the work of prison officers within localised socio-economic and criminal justice contexts, to provide a unique overview and insight into the realities and complexities of the role through accessible scholarly interpretations of their work. The aim of the book is to advance knowledge and understanding of the crucial role that prison officers occupy within carceral systems. The collection has widespread applicability with relevance beyond academia into criminal justice practice and policy internationally. Chapter 3 is available open access under a Creative Commons

**Hidden Youth and the Virtual World** Gloria Hongyee Chan, 2016-10-04 Hidden Youth and the Virtual World examines the phenomenon of 'hidden youth' or hikikomori, as it is better known in Japan as well as Hong Kong. Exposure to the Internet has allowed these young persons to develop a high level of capability within the virtual world, however these are skills that are not highly valued by society. This book uncovers the truth about hidden youth, the causes, coping strategies, power relations between them and adults in society, and their relationship with the virtual world. Key topics surrounding the phenomenon of hidden youth are explored in detail, including: The framework of Social Censure Theory The theoretical concepts of hegemony and the impact that labelling by the Government, the media and institutions has had on hidden youth The willingness of the hidden youth to remain hidden within the virtual world Subcultures as a platform for hidden youth empowerment This is a particularly useful volume to researchers in child and adolescent psychology, clinical psychology, counselling and psychotherapy, school psychology, sociology, social work, and youth policy; as well as

youth workers, school counsellors and mental health professionals, and will appeal to the interest of both academics and practitioners alike.

Decoding Branding Royce Yuen,2021-05-31 *Decoding Branding* explains the evolution of branding and how the disrupting factors like digital revolution, technological advancement, changing consumer behavior, and the COVID-19 pandemic have reshaped the marketing landscape. Fundamental principles of fostering strong brands are distilled with illustrations of case studies from various industries. A structured and holistic framework to building and revamping brands is clearly presented for corporations to remain competitive in this constantly changing operating environment. incarceration; electoral politics; gender and sexuality; and the global struggle for social justice.

Ultimately, the book argues that Hip-Hop is much more than a musical genre or cultural form: Hip-Hop is a resistance mechanism.

**A History of Journalism and Communication in China** Yunze Zhao, Ping Sun, 2018-05-11 From a modern perspective, journalism is highly relevant to modern society, along with the emergence of mass printing system and professionalisation. This book, however, expands the meaning of journalism and views it as a social process. It will not only explore the roots and development of Chinese journalism and communication, but also demonstrate how Chinese journalism and communication interact and struggle with social culture and politics. Arranged in chronological order mainly, this book examines the initial development of Chinese journalism in ancient times in chapter 1, which from then manifested strong political attributes. After the Opium War in 1840, missionaries and businessmen from the West started to set up newspapers and periodicals in China, which brought about the birth of China's modern journalism industry. Then China's private newspapers and political party's press are

studied, which are closely linked with political revolutions and have a far-reaching impact on modern Chinese society. What happened to Chinese journalism and communication after the founding of People's Republic of China in 1949? This book reviews the newspaper reforms, and studies the great negative impacts brought by Cultural Revolution. Noteworthy news phenomena after the reform and opening-up are also covered. This book will appeal to scholars and students in journalism, communication and Chinese studies. Readers interested in Chinese society and modern Chinese history will also be attracted by it.

**Multimedia Stardom in Hong Kong** Leung Wing-Fai, 2014-11-27 This book details original research into the practices and discourse of multimedia stardom alongside changing social and cultural landscapes in Hong Kong since 1980. It examines the cultural and sociological significance of stardom in the region, and the conditions which gave rise to such famous stars as Jackie Chan. This book elaborates the distinction between multimedia stardom and celebrity, asserting that in Hong Kong stardom has been central in the production and consumption of local media, while demonstrating the

importance of multimedia stardom as part of the 'cultural Chinese' mediascape and transnational popular culture from both historical and contemporary contexts.

*Hong Kong Media* Chi Kit Chan, Gary Tang, Francis L. F. Lee, 2022-08-11 This book explores the challenges to news professionalism and media autonomy stemming from the state, market pressure, the digitalization of communication, and a polarized civil society in Hong Kong. China is tightening its control over post-handover Hong Kong, which includes press freedom. Harsh market competition, coupled with shifting readership from mainstream media to digital platforms, is squeezing the business viability of media organizations. The polarization of civil society in post-handover Hong Kong had degraded consensual values upon which news professionalism relies. Journalists have had to reorient news professionalism and media power in the midst of state-society tension, market pressure, and the shifting communication mode driven by digitalization. These are the key questions for Hong Kong media. This dynamic intervention will be of interest to journalists, scholars of civil society, and scholars of Asian politics.

**The Resistance Dilemma** George Hoberg, 2021-08-17 How organized resistance to new fossil fuel infrastructure became a political force, and how this might affect the transition to renewable energy. Organized resistance to new fossil fuel infrastructure, particularly conflicts over pipelines, has become a formidable political force in North America. In this book, George Hoberg examines whether such place-based environmental movements are effective ways of promoting climate action, if they might inadvertently feed resistance to the development of renewable energy infrastructure, and what other, more innovative processes of decision-making would encourage the acceptance of clean energy systems. Focusing on a series of conflicts over new oil sands pipelines, Hoberg investigates activists' strategy of blocking fossil fuel infrastructure, often in alliance with Indigenous groups, and examines the political and environmental outcomes of these actions. After discussing the oil sands policy regime and the relevant political institutions in Canada and the United States, Hoberg analyzes in detail four anti-pipeline campaigns, examining the controversies over the Keystone XL, the most well-known of these movements and the first one to use infrastructure resistance as a core strategy; the Northern

Gateway pipeline; the Trans Mountain pipeline; and the Energy East pipeline. He then considers the “resistance dilemma”: the potential of place-based activism to threaten the much-needed transition to renewable energy. He examines several episodes of resistance to clean energy infrastructure in eastern Canada and the United States. Finally, Hoberg describes some innovative processes of energy decision-making, including strategic environment assessment, and cumulative impact assessment, looking at cases in British Columbia and Lower Alberta.

**Experiential Education and Adolescents’ Personal and Spiritual Development** Chung Kwan Ackie Cheung, 2012-11-27 Adventure-based programs have become prevailing in the schools in Hong Kong. Due to the little empirical examination to the frequent use of experiential education, Chung Kwan Ackie Cheung uses mixed methods to establish its first phenomenal picture, addressing the scale of the use of experiential education and the impact of it on adolescents’ development with regard to the globalizing phenomenon of Hong Kong. The findings show that experiential education, esp. adventure-based program, has been widely-spread and there is positive impact in the specified aspects self-

concept, self-efficacy, learning climate and spiritual dimension of its adolescent learners.
