American College of Emergency Physicians

An Ambulance Is on the Way Jonathan Wilson, 2010-02-10 National Jewish Book Award finalist Jonathan Wilson's uproariously funny stories showcase the neuroses of suburban men as they ruminate, self-medicate, and acclimate to the rhythms of middle age. From the slacker husband who spends his day running household errands, chatting up the local soccer moms, and drinking most of the wine he was instructed to buy for his wife's women's-group meeting, to the man who calls an old girlfriend while waiting for the verdict from his cardiologist, to the good Jewish son who is torn between the caustic wit of his very Jewish mother and the fertility urges of his very not-Jewish girlfriend, each of these stories is touched by Wilson's affection for male foibles. Taken together, they give us a nuanced picture of men in hot water-with women, their teenage kids, and their own consciences.

Omaha Orange Carl J. Post, 2002 Essential reading for anyone who has ever wondered how EMS in America evolved into its present state.

American Sirens Kevin Hazzard, 2022-09-20 The extraordinary story of an unjustly forgotten group of Black men in Pittsburgh who became the first paramedics in America, saving lives and changing the course of emergency medicine around the world Until the 1970s, if you suffered a medical crisis, your chances of survival were minimal. A 9-1-1 call might bring police or even the local funeral home. But that all changed with Freedom House EMS in Pittsburgh, a group of Black men who became America's first paramedics and set the gold standard for emergency medicine around the world, only to have their story and their legacy erased—until now. In *American Sirens*, acclaimed journalist and paramedic Kevin Hazzard tells the dramatic story of how a group of young, undereducated Black men forged a new frontier of healthcare. He follows a rich cast of characters that includes John Moon, an orphan who found his calling as a paramedic; Peter Safar, the Nobel Prize-nominated physician who invented CPR and realized his vision for a trained ambulance service; and Nancy Caroline, the idealistic young doctor who turned a scrappy team into an international leader. At every turn, Freedom House battled racism—from the community, the police, and the government. Their job was grueling, the rules made up as they went along, their mandate nearly impossible—and yet despite the long odds and fierce opposition, they succeeded spectacularly. Never-before revealed in full, this is a rich and troubling hidden history of the Black origins of America's paramedics, a special band of dedicated essential workers, who stand ready to serve day and night on the line between life and death for every one of us.

A Brief Plea for an Ambulance System for the Army of the United States Henry Ingersoll Bowditch, 1863

The Medical Dept. of the U.S. Army in the World War United States. Surgeon-General's Office, 1928

The Ambulance Ryan Corbett Bell, 2009 Over several centuries the ambulance has evolved from horse-drawn wagons designed to remove wounded soldiers from the battlefield into high-speed emergency rooms on wheels, staffed by skilled professionals. This thorough history follows the ambulance through every phase, focusing not just on the vehicles but on their role within the developing medical systems they served, as well as the political, social and economic influences that have shaped their advancement. Topics include the critical role of police ambulances in the development of the first emergency medical services, the history of the ambulance intern, breakthroughs in ambulance design and function from the horse-drawn days to the present, notable women in ambulance development, and a fresh look at the first organized paramedic services. More than 275 photographs and other illustrations accompany the text.

Gentlemen Volunteers Arlen J. Hansen, 1996 This history of the American ambulance drivers corps during World War I is also a companion research reference to some of the greatest writers, editors, and philosophers of the 20th century. Young men from all parts of the country made starry eyed commitments to serving in Europe, finding a brutal reality for which Harvard or Yale had not prepared them. Among the most famous

were John Dos Passos, Ernest Hemingway, E.E. Cummings, Edward Weeks, and Malcolm Cowley. Hansen (English, U. of the Pacific) has gathered together letters, writings, and research to provide the historical landscape responsible for some of the best war literature ever produced. A Brief Plea for an Ambulance System for the Army of the United States Henry I. Bowditch, 2017-10-16 Excerpt from A Brief Plea for an Ambulance System for the Army of the United States: As Drawn From the Extra Sufferings of the Late Lieut. Bowditch and a Wounded Comrade I know of no other way, in which any man can fully act up to the duties of the hour, than by a faithful expression, in thought and action, of whatever his mind or his hands may find to do towards assisting the country and our brave army in their present trials. Providentially, as I deem it, I have been twice brought to know the wretched want of system now existing in the arrangements for taking care of the wounded on the field of battle, viz: during my visit to Centreville, in September last, and from the dying statements of my son. I am fully sensible of the imperfections of this appeal to the men and women of the North. I make it, however, under a solemn sense of responsibility. I should be faithless to what I deem a high trust, were I to allow any fear of making an imperfect state ment to deter me, and, on that account, should keep silence.
