American Literature from the 1850s to 1945 Adam Augustyn Assistant Manager and Assistant Editor, Literature, 2010-08-15 Explores the works, writers, and movements that shaped the American literary canon from the end of the nineteenth century through the first half of the twentieth.

American Literature and the Dream Frederic Ives Carpenter, 1955 The American dream has never been defined exactly, and probably never can be. It is both too various and too vague: many men have meant many different things by it. I shall therefore follow popular practice and use the phrase inclusively. But American Literature has been defined more exactly, and has been outlined in courses and embodied in anthologies. Most men agree that it is something very different from English literature, and many have sought to describe the difference. This book began as a series of essays in interpretation of the major American authors. But in the process of writing, an idea crystallized: American literature has differed from English because of the constant and omnipresent influence of the American dream upon it. But this influence has usually been indirect and unconscious, because the dream has remained vague and undefined. But the vague idea has influenced the plotting of our fiction and the imagining of our poetry. Almost by inadvertence our literature has accomplished a symbolic and experimental projection of it. The American dream, and the patterns of thinking and feeling which it has inspired, has given form and significance to American literature.

The Story of American Literature Ludwig Lewisohn, 1972

History of American Literature Reuben Post Halleck, 1911 This volume describes the greatest achievements in American literature, from the earliest times to the present. Special attention has been paid to the individual works of great authors, but also to literary movements, ideals, and animating principles, and the relation of all these to English literature. The author hopes this book will inspire students to investigate for themselves the remarkable American record of spirituality, initiative, and democratic accomplishment contained in our national literature.

Studies in Classic American Literature D. H. Lawrence, 1995 Studies In Classic American Literature Is Valuable Not Only For The Light It Sheds On Eighteenth And Nineteenth Century American Consciousness, Telling 'The Truth Of The Day', But Also As A Prime Example Of Lawrence's Learning, Passion And Integrity Of Judgement. To Cite Herbert J. Seligmann, 'Studies In Classic American Literature Alone Is A Foundation For A New American Critical Literature. Lawrence Fertilizes With Fire. No Living American Writing In A Critical Sense From Now On Will Be Able To Ignore Him.' Lawrence Asserted That 'The Proper Function Of A Critic Is To Save The Tale From The Artist Who Created It' In These Highly Individual, Penetrating Essays He Has Exposed 'The American Whole Soul' Within Some Of That Continent's Major Works Of Literature. In Seeking To Establish The Status Of Writings By Such Authors As Poe, Melville, Fenimore Cooper And Whitman, Lawrence Himself Has Created A Classic Work.

American Literature as World Literature Jeffrey R. Di Leo, 2017-12-28 For better or worse, America lives in the age of worlded literature. Not the world literature of nations and nationalities considered from most powerful and wealthy to the least. And not the world literature found with a map. Rather, the worlded literature of individuals crossing borders, mixing stories, and speaking in dialect. Where

translation struggles to be effective and background is itself another story. The worlded†? literature of the multinational corporate publishing industry where the global market is all. The essays in this collection, from some of the most distinguished figures in American studies and literature, explore what it means to consider American literature as world literature.

A History of American Literature Linda Wagner-Martin, 2015-07-20 A HISTORY OF AMERICAN LITERATURE 1950 TO THE PRESENT Featuring works from notable authors as varied as Salinger and the Beats to Vonnegut, Capote, Morrison, Rich, Walker, Eggers, and DeLillo, A History of American Literature: 1950 to the Present offers a comprehensive analysis of the wide range of literary works produced in the United States over the last six decades and a fascinating survey of the dramatic changes during America's transition from the innocence of the fifties to the harsh realities of the first decade of the new millennium. Author Linda Wagner-Martin - a highly acclaimed authority on all

facets of modern American literature - covers major works of drama, poetry, fiction, non-fiction, memoirs, and popular genres such as science fiction and detective novels. Viewing works produced during this fertile literary period from a wide-ranging perspective, Wagner-Martin considers literature in relation to such issues as the politics of civil rights, feminism, sexual preferences, and race- and gender-based marketing. She also places a special emphasis on works produced during the twenty-first century, and writings influenced by recent historic events such as the 9/11 terrorist attacks, Hurricane Katrina, and the global financial crisis. With its careful balance of scholarly precision and accessibility, *A History of American Literature: 1950 to the Present* provides readers of all levels with rich and revealing insights into the diversity of literary forms and influences that characterize postmodern America. "A monumental distillation of an enormous range of material, Wagner-Martin's rich book should be required reading for anyone grappling with making sense of the prolific, broad-spectrum, and diverse writing in the US since 1950." Thadious M. Davis, University of Pennsylvania "Linda Wagner-Martin's history impressively and judiciously surveys all fields of American writing over the past sixty years, taking full account of significant cultural and historical contexts and the major critical commentaries that have helped shape our understanding of developments in the second half of the last century and the dozen years following the millennium. Balanced, informative, and always highly readable there is much here for general readers, students, and specialists alike." Christopher MacGowan, the College of William and Mary

American Literature in Context Andrew Hook, 2016-05-20 First published between 1982 and 1983, this series examines the peculiarly American cultural context out of which the nation's literature has developed. Covering the years from 1865 to 1900, this third volume of *American Literature in Context* focuses on the struggles of American writers to make sense of their rapidly changing world. In addition to such major figures as Walt Whitman, Henry James, Emily Dickinson and Mark Twain, it analyses the writings of an unorthodox economist (Henry George), a Utopian reformer (Edward Bellamy) and a critical sociologist (Thorstein Veblen). Particular attention is paid to the challenge to conventional literary and cultural values represented by writers such as William Dean Howell who pursued a new form of scientific, democratic realism in American writing. This book will be of interest to those studying American literature and American studies.

American Literature in Transition, 1950-1960 Steven Belletto, 2017-12-28 *American Literature in Transition, 1950-1960* explores the under-recognized complexity and variety of 1950s American literature by focalizing discussions through a series of keywords and formats that encourage readers to draw fresh connections among literary form and concepts, institutions, cultures, and social phenomena important to the decade. The first section draws attention to the relationship between literature and cultural phenomena that were new to the 1950s. The second section demonstrates the range of subject positions important in the 1950s, but still not visible in many accounts of the era. The third section explores key literary schools or movements associated with the decade, and explains how and why they developed at this particular cultural moment. The final section focuses on specific

forms or genres that grew to special prominence during the 1950s. Taken together, the chapters in the four sections not only encourage us to rethink familiar texts and figures in new lights, but they also propose new archives for future study of the decade.
