Global esports Dal Yong Jin,2021-03-25 Global esports explores the recent surge of esports in the global scene and comprehensively discusses people's understanding of this spectacle. By historicizing and institutionalizing esports, the contributors analyze the rapid growth of esports and its implications in culture and digital economy. Dal Yong Jin curates a discussion as to why esports has become a global phenomenon. From games such as Spacewar to Starcraft to Overwatch, a key theme, distinguishing this collection from others, is a potential shift of esports from online to mobile gaming. The book addresses why many global game players and fans play and enjoy online and mobile games in professional game competitions, and therefore, they investigate the manner in which the transfer to, from and between online and mobile gaming culture is occurring in a specific subset of global youth. The remaining focus identifies the major platforms used to enjoy esports, including broadcasting and smartphones. By analyzing these unexamined or less-discussed agendas, this book sheds light on the current debates on the growth of global esports culture.

Harmonic Experience W. A. Mathieu,1997-08-01 An exploration of musical harmony from its ancient fundamentals to its most complex modern progressions, addressing how and why it resonates emotionally and spiritually in the individual. W. A. Mathieu, an accomplished author and recording artist, presents a way of learning music that reconnects modern-day musicians with the source from which music was originally generated. As the author states, The rules of music--including counterpoint and harmony--were not formed in our brains but in the resonance chambers of our bodies. His theory of music reconciles the ancient harmonic system of just intonation with the modern system of twelve-tone temperament. Saying that the way we think music is far from the way we do music, Mathieu explains why certain combinations of sounds are experienced by the listener as harmonious. His prose often resembles the rhythms and cadences of music itself, and his many musical examples allow readers to discover their own musical responses.

Burden's Edge Sever Bronny,2017-12 When a young man chooses a forbidden calling, he must prove his worth . . . or watch his kingdom fall. Sixteen-year-old Augum Stone is a warlock prodigy suffocating under the weight of expectations. Students idolize him. Nobles plot to exploit him. Commoners think he's a miracle-maker. And with invasion looming, his already war-weakened kingdom expects him to be its champion. But Augum doesn't want to be a pawn in someone else's game. He'll forge his own path: that of the Arcaner-not a warlock or a knight, but a lethal combination of both. Legend says Arcaners once had the power to summon dragons. If true, it could change everything. Resurrecting the Arcaner path comes with consequences, however. Scandal. Malice. Treachery. And a harrowing test of character. He must survive. He must prove he's worthy of an

ancient path. And he must save the kingdom . . . before it's too late. * * * Sever Bronny is the Amazon bestselling author of the epic coming of age Arinthian Line series. Diversity of Play Mathias Fuchs,2020-10-09 The early days when digital games were new, harmless, and a niche are long gone. Today's games can simulate battlefields, predict disaster, and crash markets. We are faced with a diversity of play and the ubiquity of games, making them not only a popular medium, but the leading medium of our contemporary society. Based on the keynote lectures held at DiGRA2015, Diversity of Play provides a critical view on the current stage of digital games from a theoretic, artistic, and practical perspective by pointing towards the uncanny, the power of unnatural narratives, and the exceptions and uncertainties of digital ludic environments. With an interview with Karen Palmer and essays by Astrid Ensslin, Mathias Fuchs, Tanya Krzywinska, and Markus Rautzenberg. La Mere Brazier Eugenie Brazier,2015-11 La Mere Brazier was the most famous restaurant in France from the moment it opened in 1921. Its namesake, Eugénie Brazier, was the first woman ever to be awarded 6 Michelin stars. She was the inspiration and mentor for all modern French cooking. A masterclass on how to cook, this book reveals over 300 of Brazier's recipes that stunned all of France - from her Bresse chicken in mourning (with truffles) to her lobster Aurora - as well as simple traditional recipes that anyone can easily follow at home. Written in her own words, each page captures the unique atmosphere of France, of French society, of French cooking and of the relationships between men and women.

Inferno Eileen Myles,2016 Poet, essayist and performer Eileen Myles' chronicle transmits an energy and vividness that will not soon leave its readers. Her story of a young female writer, discovering both her sexuality and her own creative drive in the meditative and raucous environment that was New York City in its punk and indie heyday, is engrossing, poignant, and funny.

Unnatural Narratives - Unnatural Narratology Jan Alber,Rüdiger Heinze,2011-09-29 In recent

years, the study of unnatural narratives has become an exciting new but still disparate research program in narrative theory. For the first time, this collection of essays presents and discusses the new analytical tools that have so far been developed on the basis of unnatural novels, short stories, and plays and extends these findings through analyses of testimonies, comics, graphic novels, films, and oral narratives. Many narratives do not only mimetically reproduce the world as we know it but confront us with strange narrative worlds which rely on principles that have very little to do with the actual world around us. The essays in this collection develop new narratological tools and modeling systems which are designed to capture the strangeness and extravagance of such anti-realist narratives. Taken together, the essays offer a systematic investigation of anti-mimetic techniques and strategies that relate to different narrative parameters, different media, and different periods within literary history.
