Ethiopian Scribal Practice 7 Steve Delamarter,Marilyn Heldman,Jeremy R. Brown,Sara Vulgan,2014-11-17 There are many stories to tell about the Ethiopic manuscripts in the collection of the Mekane Yesus Seminary in Addis Ababa. The stories about the content of the manuscripts are told in the catalogue (EMTS volume 13). But this volume recounts stories about the book culture that produced the manuscripts. One study provides a general introduction to Ethiopian Christian codicology and the scribal practices in evidence in the collection. Another focuses on the particular story of scribal errors and corrections. And a final study provides an art-historical account of all of the illuminations contained in the collection--even down to the crude drawings in pencil that adorn some pages. Books contain texts. But they are witnesses, first and foremost, to a particular people, at a particular place, at a particular moment in time, who had a particular way of making and using their books. The content of their books tells us about the community's past, about the authoritative texts from antiquity which they valued. But their book culture tells us about their present, about the history of the reception of those works among these people in order to articulate in the present their identity and ethos.

Popular Ethiopian Cinema Michael W. Thomas,2022-09-08 This book shines much-needed light on the history, structures and films of the Amharic film industry in Ethiopia. Focusing on the rise of the industry from 2002, until today, and embedded in archival, ethnographic and textual research methods, this book offers a sustained and detailed appreciation of Amharic-language cinema. Michael Thomas considers 'fiker'/love as an organising principle in national Ethiopian culture and, by extension, Amharic cinema. Placing 'fiker' as central to understanding Amharic film genres also illuminates the continuous negotiations at play between romantic, familial, patriotic and spiritual notions of love in these films. Thomas considers the production and exhibition of films in Ethiopia, charting fluctuations and continuities between the past and the present. Having done so, he offers detailed textual readings of films, identifying important junctures in the industry's development and the emergence of new genres. The findings of the book detail the affective characteristics that delineate most Amharic genres and the role culturally specific concepts, such as fiker, play in maintaining the relevance of commercial cinemas reliant on domestic audiences.

ONE GOD ONE MESSAGE in Amharic Paul D. Bramsen,2022-08-15 This is the Amharic Edition of ONE GOD ONE MESSAGE. Weaving together real-life stories, apologetics, emails from skeptics, and a cliché-free, mind-bending, three-stage, 30-chapter (or 30-day) chronological journey through history's best-loved and most-hated story as revealed in the scriptures of the prophets, ONE GOD ONE MESSAGE helps truth seekers over countless obstacles and offers a framework for rethinking life's greatest questions.

Automatic Amharic News Text Classification with C# and Python Fasil Alemeye,2013 Machine learning approach for text classification is widely used and have shown a promising accuracy. This approach is also applied for Amharic text and have shown an acceptable result. my objective is to apply machine learning approach using naive Bayes to the Amharic news text classification problem, and demonstrate how the resulting model from this approach can be used in a real world environment.300 files with 45,195 words were used; divided into 100 per class category (Politics, Social and Economy/Business). The files were preprocessed and features were extracted out of them for training and testing the naive Bayes classifier.Finally the designed model is implemented using C# and Python.

Designing an Information Extraction System for Amharic Vacancy Announcement Text Sintayehu Hirpassa,2015-02-11 Thesis (M.A.) from the year 2011 in the subject Computer Science - Applied, grade: Very Good, Addis Ababa University, course: NATural Language processing, language: English, abstract: The number of Amharic documents on the Web is increasing as many newspaper publishers started providing their services electronically. The unavailability of tools for extracting and exploiting the valuable information from Amharic text, which is effective enough to satisfy the users has been a major problem and manually extracting information from a large amount of unstructured text is a very tiresome and time consuming job, this was the main reason which motivate the researcher to engage in this research work. The overall objective of the research was to develop information extraction system for the Amharic vacancy announcement text. 116 Amharic vacancy announcement texts which contain 10,766 words were collected from the —Ethiopian reporter newspaper published in Amharic twice in week. For this study, nine candidate texts are selected from Amharic vacancy announcement text, these are organization, position, qualification, experience, salary, number of people required, work agreement, deadline and phone number. The experiments have been carried out on each component of a system separately to evaluate its performance on each components, this helps us to identify drawbacks and give some clue for future works. The experimental result shows, an overall F - measure of 71.7% achieved. In order to make the system to be applicable in this domain which is Amharic vacancy announcement,

Sanctity and Environment in Ethiopian Hagiography Abate Gobena,2023-10-04 The original forests of the central and northern highlands of Ethiopia are almost entirely confined to the sacred groves surrounding the churches and monasteries of the Ethiopian Orthodox Tewahido Church. In Ethiopian tradition sanctity starts from the Tabot on the altar of the church and extends to the outer periphery of the compound. Church forests serve as shade and shelter for the sacred, and are seen as integral parts of the churchyard. The Act of Gebre Menfes Qiddus (GGMQ) is an original Ethiopic hagiographic text. It depicts the life and struggle of the saint in the wilderness of forests and mountains. Hagiographic texts like GGMQ are in Ethiopia not mere historical records, but texts linked to the daily liturgical services that shape and mould the perceptions and actions of their readers and listeners. The aim of the thesis is to analyse how GGMQ presents the relation between the saint and the natural environment in order to see if there is a correlation with how the Ethiopian tradition has preserved the church forests and has considered these to be sacred spaces representing the wilderness. The aim is achieved through a close reading of the text and its intertexts using four selected themes as analytical instruments: ascetic estrangement, coexistence with non-human creation, identification with the angels and reconciliation of opposites. The analysis, and the fact that the GGMQ is one of the most venerated texts, read and heard with great liturgical solemnity, show that there are good reasons to believe that the constant reading of GGMQ has made and makes a significant impact upon the readers' views on the mutual co-habitation of human and non-human creation and the development of an awareness of the need to preserve the wilderness and non-human creation.

One-Volume Libraries: Composite and Multiple-Text Manuscripts Michael Friedrich,Cosima Schwarke,2016-11-07 Composite and multiple-text manuscripts are traditionally studied for their individual texts, but recent trends in codicology have paved the way for a more comprehensive approach: Manuscripts are unique artefacts which reveal how they were produced and used as physical objects. While multiple-text manuscripts codicologically are to be considered as production units, i.e. they were originally planned and realized in order to carry more than one text, composites consist of formerly independent codicological units and were put together at a later stage with intentions that might be completely different from those of its original parts. Both sub-types of manuscripts are still sometimes called miscellanies, a term relating to the texts only. The codicological difference is important for reconstructing why and how these manuscripts which in many cases resemble (or contain) a small library were produced and used. Contributions on the manuscript cultures of China, India, Africa, the Islamic world and European traditions lead not only to the conclusion that one-volume libraries have been produced in many manuscript cultures, but allow also for the identification of certain types of uses.

Syntax of the Noun in Amharic Olga Kapeliuk,1994

Phrase Based Amharic News Text Classification Zeleke Abebaw,2012 The recent growth of ICT infrastructure in Ethiopia is resulting in an exponential increase of digital information in local languages including Amharic. Huge volumes of data are available in Amharic, which is observed on the growing online newspapers, websites, and digital storage's of Ethiopian News Agency. To tackle the agency's news text management problems, a number of researches have been conducted on automatic processing of Amharic news texts using bag-of-words feature representation. However, using single words as features could result in losing the intended meaning when the concept is created from two or more sequential words. Thus, in order to maintain this concept, a phrase based approach (using bigrams and trigrams) has been proposed and implemented in this research.The result shows that using bigram phrases, the best accuracy (95.3%) has been obtained at four news categories, followed by (81.3%)for eight categories and (72.01%) for twelve categories.On the other hand, for trigram phrase structures, the best accuracy was(72.9%)four news categories, followed by 69.7% for eight categories, and 56.4% for twelve categories. Thus, bigrams shows better accuracy than trigrams.
