Made of Shores Amalia Ran,2011-08-16 Made of Shores places Jewish Argentinean fiction within the context of Latin American literature and Judaic Studies. It offers the reader to participate actively in the scholarly debates on issues of memory and identity, and the different representations of Jewishness in Latin America. By reviewing the new material conditions within Argentina and its diasporas, this book imposes a new reflection on what Judeo-Argentinean fiction is all about

Dimensional Approach to the conceptualization and measurement of the broad autism phenotype Marta Godoy Giménez,2023-06-26 The present dissertation has converged the knowledge of three fundamental areas of psychology: cognitive psychology, psychobiology, and psychometrics with the purpose of improving the operational and relational definitions of the broad autism phenotype (BAP) and its measurement process. Especially, it lies essence in psychometrics and its role in reconnecting how people show certain milder autistic behaviours with a theoretical and psychometric model capable of representing an operationalization of the construct in the Spanish and English general populations and developing a new measurement tool. This book is organized into three blocks: in the theoretical framework, we define autism (and BAP) from a dimensional perspective and expose the state of the art in its conceptualization and measurement. We finish by establishing the objectives and the research plan. The second block deepens into the empirical studies conducted during my Ph.D. apprenticeship. The first study presents the Spanish adaptation of the Broad Autism Phenotype Questionnaire (BAPQ), and the second study deepens into the BAPQ psychometric properties from the item response theory (IRT) perspective. In the third study, the ASD and BAP definitions are harmonized, and then a group of experts attempts to reshape the items of the most applied tests to assess BAP into its updated operationalization. The sixth chapter introduces the Broad Autism Phenotype-International Test (BAP-IT), which assesses the BAP two-domain operationalization in two different languages, Spanish and English. Finally, the third block exposes a general discussion of the overall results, draws certain conclusions, states the research limitations, and delineates future research approaches.

Marxism and the Failure of Organised Socialism in Spain, 1879-1936 Paul Heywood,2003-02-13 This is the first full-length study in English of the role of Marxist theory in the Spanish Socialist movement prior to the outbreak of Civil War in 1936. In particular, the author stresses the intellectual poverty of this aspect of leftwing politics in Spain. In concentrating on the Partido Socialista Obrero Español (PSOE), the major organised party of the left prior to the Civil War, the study seeks to achieve two main aims: first, to attempt to isolate the political, social and intellectual factors which led to a particularly distorted version of Marxism which became established in Spain at the end of the nineteenth century; and second, to demonstrate how this particular conception of Marxism had a crucial negative impact on the political formulations and fortunes of the PSOE between 1879 and 1936. The central argument of the book is that the significance of Spanish Marxism lay precisely in its poverty, since it was this 'decaffeinated' version of the theory which set the parameters within which the PSOE formulated its strategy for socialism.

The Social History of the American Family Marilyn J. Coleman, Lawrence H. Ganong,2014-09-02 The American family has come a long way from the days of the idealized family portrayed in iconic television shows of the 1950s and 1960s. The four volumes of The Social History of the American Family explore the vital role of the family as the fundamental social unit across the span of American history. Experiences of family life shape so much of an individual's development and identity, yet the patterns of family structure, family life, and family transition vary across time, space, and socioeconomic contexts. Both the definition of who or what counts as family and representations of the "ideal" family have changed over time to reflect changing mores, changing living standards and lifestyles, and increased levels of social heterogeneity. Available in both digital and print formats, this carefully balanced academic work chronicles the social, cultural, economic, and political aspects of American families from the colonial period to the present. Key themes include families and culture (including mass media), families and religion, families and the economy, families and social issues, families and social stratification and conflict, family structures (including marriage and divorce, gender roles, parenting and children, and mixed and non-modal family forms), and family law and policy. Features: Approximately 600 articles, richly illustrated with historical photographs and color photos in the digital edition, provide historical context for students. A collection of primary source documents demonstrate themes across time. The signed articles, with cross references and Further Readings, are accompanied by a Reader's Guide, Chronology of American Families, Resource Guide, Glossary, and thorough index. The Social History of the American Family is an ideal reference for students and researchers who want to explore political and social debates about the importance of the family and its evolving constructions.

Social Inequities and Contemporary Struggles for Collective Health in Latin America Emily E Vasquez, Amaya G. Perez-Brumer, Richard Parker,2020-09-10 This book explores the legacy of the Latin American Social Medicine and Collective Health (LASM-CH) movements and other key approaches—including human rights activism and popular opposition to neoliberal governance—that have each distinguished the struggle for collective health in Latin America during the twentieth and now into the twenty-first century. At a time when global health has been pushed to adopt increasingly conservative agendas in the wake of global financial crisis and amidst the rise of radical-right populist politics, attention to the legacies of Latin America's epistemological innovations and social movement action are especially warranted. This collection addresses three crosscutting themes: First, how LASM-CH perspectives have taken root as an element of international cooperation and solidarity in the health arena in the region and beyond, into the twenty-first century. Second, how LASM-CH perspectives have been incorporated and restyled into major contemporary health system reforms in the region. Third, how elements of the LASM-CH legacy mark contemporary health social movements in the region, alongside additional key influences on collective action for health at present. Working at the nexus of activism, policy, and health equity, this multidisciplinary collection offers new perspective on struggles for justice in twenty-first-century Latin America. The chapters in this book were originally published as a special issue of the journal, Global Public Health.

Voices from an Empire Russell G. Hamilton,1975 A critical and historical study of the Portuguese-language literatures of Angola, Mozambique, the Cape Verde Islands, Sao Tome, and Principe, examining the works of principal and representative writers in their social and cultural contexts

A Social History of Spanish Labour José A. Piqueras, Vicent Sanz-Rozalén,2008-01-30 Focusing on organization,

resistance and political culture, this collection represents some of the best examples of recent Spanish historiography in the field of modern Spanish labor movements. Topics range from socialism to anarchism, from the formation of the liberal state in the 19th century to the Civil War, and from women in the work place to the fate of the unions under Franco.

Visions of Filth Teresa Peris Fuentes,2003-09-01 This book explores how notions of deviancy and social control are dramatized in the novels of the late nineteenth-century Spanish realist author Benito Pérez Galdós. Galdós's treatment of prostitutes, alcoholics, beggars and vagrants is studied within the context of the socio-cultural and medical debates circulating during the period. Drawing on Foucault's very specific conceptualisation of the idea of control through discourses, the book analyses how Galdós's novels interacted with contemporary debates on poverty and deviancy – notably, discourses on hygiene, domesticity and philanthropy. It is proposed that Galdós's view of marginal social groups was much more open-minded, shrewd and liberal than the often inflexible pronouncements made by contemporary professional voices.

Leisure experiences, opportunities and contributions to human development María Jesús Monteagudo,2018-04-14 The new human development paradigm rests on the human and cultural capital of peoples and revolves around the challenge of increasing the well-being and happiness of people. Therefore, leisure understood in today's societies as one of the key means to feel good, satisfied with life and reaffirmed in the pursuit of a meaning for life, seems to be ultimately called to play a key role in promoting human development processes. The contents of this book are a good proof of it. Each chapter focuses on a different approach, discipline or group and highlights the potential of leisure experiences for human development. This book is an invitation to reflection and thought on issues that, far from being irrelevant, have a bearing on people's future, in terms of happiness, well-being and quality of life. It is everyone's responsibility to ensure that future leisure develops under the guidelines of a leisure that contributes to human development.

Literary Culture and U.S. Imperialism John Carlos Rowe,2000 John Carlos Rowe, considered one of the most eminent and progressive critics of American literature, has in recent years become instrumental in shaping the path of American studies. His latest book examines literary responses to U.S. imperialism from the late eighteenth century to the 1940s. Interpreting texts by Charles Brockden Brown, Poe, Melville, John Rollin Ridge, Twain, Henry Adams, Stephen Crane, W. E. B Du Bois, John Neihardt, Nick Black Elk, and Zora Neale Hurston, Rowe argues that U.S. literature has a long tradition of responding critically or contributing to our imperialist ventures. Following in the critical footsteps of Richard Slotkin and Edward Said, *Literary Culture and U.S. Imperialism* is particularly innovative in taking account of the public and cultural response to imperialism. In this sense it could not be more relevant to what is happening in the scholarship, and should be vital reading for scholars and students of American literature and culture.

Devouring Frida Margaret A. Lindauer,2014-01-27 This provocative reassessment of Frida Kahlo's art and legacy presents a feminist analysis of the myths surrounding her. In the late 1970's, Frida Kahlo achieved cult heroine status. Her images were splashed across billboards, magazine ads, and postcards; fashion designers copied the so-called "Frida" look in hairstyles and dress; and "Fridamania" even extended to T-shirts, jewelry, and nail polish. Margaret A. Lindauer argues that this mass market assimilation of Kahlo's identity has detracted from appreciation of her work, leading to narrow interpretations based solely on her tumultuous life. Kahlo's political and feminist activism, her stormy marriage to fellow artist Diego Rivera, and her progressively debilitated body made for a life of emotional and physical upheaval. But Lindauer questions the "author-equals-the-work" critical tradition that assumes a "one-to-one association of life events to the meaning of a painting." In Kahlo's case, such assumptions created a devouring mythology, an iconization that separates us from the real significance of the oeuvre. Accompanied by twenty-six illustrations and deep analysis of Kahlo's central themes, this provocative, semiotic study recontextualizes an important figure in art history. At the same time, it addresses key questions about the language of interpretation, the nature of veneration, and the truths within self-representation.

The Future of Service Post-COVID-19 Pandemic, Volume 2 Jungwoo Lee, Spring H. Han,2021-02-10 This book adds to the discussion from Volume 1 by providing insights and stimulating new thinking about the changing nature of services and marketing, service work and workers, and service experiences during and after the COVID-19 pandemic in 2020, particularly focusing on services marketing. This book serves as a useful resource for business practitioners and academics in the areas of service management and marketing responses during a pandemic. Each chapter deals with specific current issues within these industries due to COVID-19 and issues that will come up post-pandemic. As COVID-19 is expected to change the service practice and promote the utilization of novel methods, such as untact marketing, untact service, telecommuting, alternative work arrangements, job crafting, and new work skills, a range of examples and cases are provided to elaborate on applying these emerging new concepts within the service sector.

The three amigos Deborah Shaw,2016-05-16 This is the first academic book dedicated to the filmmaking of the three best known Mexican born directors, Guillermo del Toro, Alejandro González Iñárritu, and Alfonso Cuarón. Deborah Shaw examines the career trajectories of the directors and presents a detailed analysis of their most significant films with a focus on both the texts and the production contexts in which they were made. These include studies on del Toro's *Cronos/ Chronos*, *El laberinto del fauno/ Pan's Labyrinth*, and *Hellboy II: The Golden Army*; Iñárritu's *Amores Perros*, *21 Grams* and *Babel*; and Cuarón's *Sólo con tu pareja/ Love in the Time of Hysteria*, *Y tu mamá también*, and *Children of Men*. The Three Amigos will be of interest to all those who study Hispanic and Spanish Cinema in particular, and World and contemporary cinema in general.

Living Life to Death Phyl Anderson,2012-11-26 A woman who is trapped in the bliss of dementia where her memory is intermittent, she is neglected by her own children and lovingly cared for by a hired attendant from the home health care agency. Although her illness forces her to forget a lot of things, she gives her attendant something that is unforgettable. A man who is suffering from congestive heart failure has had several surgeries and the doctors have given him little hope of much longer to live. He tries to live doing things he loves to do. After several attempts he finally gets an attendant who he can trust while he takes his much loved swim. Unfortunately

something he loves to do is what kills him. All of the stories are different life like scenarios of every day life in the home health care industry.
