The Archaeology of Ancient North America Timothy R. Pauketat,Kenneth E. Sassaman,2020-02-27 Unlike extant texts, this textbook treats pre-Columbian Native Americans as history makers who yet matter in our contemporary world.

Archaeology of Native North America Dean R. Snow,2015-09-04 This comprehensive text is intended for the junior-senior level course in North American Archaeology. Written by accomplished scholar Dean Snow, this new text approaches native North America from the perspective of evolutionary ecology. Succinct, streamlined chapters present an extensive groundwork for supplementary material, or serve as a core text.The narrative covers all of Mesoamerica, and explicates the links between the part of North America covered by the United States and Canada and the portions covered by Mexico, Guatemala, Belize, and the Greater Antilles. Additionally, book is extensively illustrated with the author's own research and findings.
