The Smithsonian's History of America in 101 Objects

Richard Kurin, 2016-10-25 The Smithsonian Institution is America's largest, most important, and most beloved repository for the objects that define our common heritage. Now Under Secretary for Art, History, and Culture Richard Kurin, aided by a team of top Smithsonian curators and scholars, has assembled a literary exhibition of 101 objects from across the Smithsonian's museums that together offer a marvelous new perspective on the history of the United States. Ranging from the earliest years of the pre-Columbian continent to the digital age, and from the American Revolution to Vietnam, each entry pairs the fascinating history surrounding each object with the story of its creation or discovery and the place it has come to occupy in our national memory. Kurin sheds remarkable new light on objects we think we know well, from Lincoln's hat to Dorothy's ruby slippers and Julia Child's kitchen, including the often astonishing tales of how each made its way into the collections of the Smithsonian. Other objects will be eye-opening new discoveries for many, but no less evocative of the most poignant and important moments of the American experience. Some objects, such as Harriet Tubman's hymnal, Sitting Bull's ledger, Cesar Chavez's union jacket, and the Enola Gay bomber, tell difficult stories from the nation's history, and inspire controversies when exhibited at the Smithsonian. Others, from George Washington's sword to the space shuttle Discovery, celebrate the richness and vitality of the American spirit. In Kurin's hands, each object comes to vivid life, providing a tactile

connection to American history. Beautifully designed and illustrated with color photographs throughout, The Smithsonian's History of America in 101 Objects is a rich and fascinating journey through America's collective memory, and a beautiful object in its own right.

Art History: A Very Short Introduction Dana Arnold, 2004-01-22
This clear and concise new introduction examines all the major debates and issues using a wide range of well-known examples. It discusses the challenge of using verbal and written language to analyse a visual form. Dana Arnold also examines the many different ways of writing about art, and the changing boundaries of the subject of art history. Topics covered include the canon of Art History, the role of the gallery, 'blockbuster' exhibitions, the emergence of social histories of art (Feminist Art History or Queer

Art History, for example), the impact of photography, and the development of Art History using artefacts such as the altarpiece, the portrait, or pornography, to explore social and cultural issues such as consumption, taste, religion, and politics. Importantly, this book explains how the traditional emphasis on periods and styles originates in western art production and can obscure other critical approaches, as well as art from non western cultures. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Art History 101 . . . Without the Exams Annie Montgomery Labatt, 2022-09-06 Why is something a masterpiece? *Art History 101 . . . Without the Exams* is about revisiting famous works of art that we may have studied in an art history class or seen in a textbook. Each discussion delves into one great masterpiece and asks the questions that help us understand how it has shaped history. What is the piece about? How did the original owner look at this piece? Where was it originally placed? Why is it in this museum now? How did it get famous? From the sixth-century mosaics of Ravenna and the painted bulls of Altamira, Spain, dated 12,500 BCE, to an incense burner from twelfth-century Seljuk Iran, frescoes from a Late Byzantine funerary chapel, and masterworks by Botticelli, Caravaggio, Monet, and Sargent, this book shows readers how to look closely. It welcomes us to the joy of art history—but without the papers, notes, and exams.

Jewels That Made History Stellene Volandes, 2020-10-13 The history of the world--triumphs and tragedies, breakthroughs and breakups--through the iconic jewels that have inspired and influenced since the dawn of time. From ancient treasures to royal weddings, great heists to the red carpet, this book is a stunning,

surprising, and glittering tour of historic turning points and gem-driven drama, delving into the passions and predilections of some of the world's most interesting and extraordinary people. Starting in the era of Cleopatra and continuing through to contemporary jewelry statements by Jennifer Lopez, Lady Gaga, and Meghan Markle, Stellene Volandes tells the stories of how shiny stones and precious metals have determined empires, inspired expeditions and great crime, and been the communicator of status and ruin since ancient times. Each moment is placed in historic and relevant context, with Volandes drawing engaging parallels between Napoleon's gift to Marie Louise at the birth of their son and the modern push present or the insouciant story behind the brooch Jackie Kennedy famously wore to a 1962 State Dinner with the Shah of Iran. Illustrated with a mix of archival images and gorgeous photography of the jewels, this book is a beautiful, informative, and essential read for history lovers, fashion, celebrity, and pop-culture followers, as well as passionate jewel hounds.

The Invention of Art History in Ancient Greece Jeremy Tanner, 2006-03-23 The ancient Greeks developed their own very specific ethos of art appreciation, advocating a rational involvement with art. This book explores why the ancient Greeks started to write art history and how the writing of art history transformed the social functions of art in the Greek world. It looks at the invention of the genre of portraiture, and the social uses to which portraits were put in the city state. Later chapters explore how artists sought to enhance their status by writing theoretical treatises and producing works of art intended for purely aesthetic contemplation which ultimately gave rise to the writing of art history and to the development of art collecting. The study, which is illustrated throughout and which draws on contemporary

perspectives in the sociology of art, will prompt the student of classical art to rethink fundamental assumptions on Greek art and its cultural and social implications.--BOOK JACKET.

Ancient Egyptian Art and Architecture: A Very Short Introduction Christina Riggs, 2014-10-23 From Berlin to Boston, and St Petersburg to Sydney, ancient Egyptian art fills the galleries of some of the world's greatest museums, while the architecture of Egyptian temples and pyramids has attracted tourists to Egypt for centuries. But what did Egyptian art and architecture mean to the people who first made and used it - and why has it had such an enduring appeal? In this Very Short Introduction, Christina Riggs explores the visual arts produced in Egypt over a span of some 4,000 years. The stories behind these objects and buildings have much to tell us about how people in ancient Egypt lived their lives in relation to each other, the natural environment, and the world of the gods. Demonstrating how ancient Egypt has fascinated Western audiences over the centuries with its impressive pyramids, eerie mummies, and distinctive visual style, Riggs considers the relationship between ancient Egypt and the modern world. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

A World Perspective of Art History Deborah Gustlin, Zoe Gustlin, 2019-12-11 A World Perspective of Art History: Ancient Art History from the First Artists to the 14th Century - Volume One provides students with a worldwide, integrated introduction to art. The book features a distinct emphasis on women, minorities, and civilizations around the world using a coordinated time sequence and comparing art in multiple cultures simultaneously. Students discover art and culture from a global perspective and are encouraged to connect their own cultures with key learnings. The material is presented in historical time sequences based on the rise and fall of various civilizations and how they created art and architecture during that time. Students are introduced to the early art of around 50,000 BCE and encouraged to consider why these original artists created their works. Additional units progress chronologically and show how art evolved in step with developed settlements. The book introduces great structures erected during the Bronze Age and demonstrates how the Iron Age influenced the art of ancient Greece. Students read about trade, the rise of empires, the dawn of deities, and how each of these historical developments profoundly impacted the type of art created during each time period. The final unit focuses on the end of ancient civilizations. Featuring a uniquely inclusive approach, A World Perspective of Art History is an ideal resource for courses in art history and art appreciation.
