David Elkington

The Ancient Solfeggio Frequencies Encoded in the King James Bible Book of Numbers William C. Henry (Sr.), 2014-12-27 This book shows how the 9 ancient Solfeggio frequencies were encoded in the King James Version Bible in 1611. These frequencies have been associated with miracles, human awakenings, and with time and space. The noted frequencies interplay with the 432 Hertz frequency scale, the Sumerian King's List, with Hindu and Mayan time [s]ystems, and the book shows how they relate to time travel in our reality.

A Fork in the Road David Hulse D.D., 2009-09-01 In my travels across the country, the question asked most frequently is how I went from being a fundamentalist preacher to being a developer of healing techniques using tuning forks. This book is the story of that journey. I feel honored yet humbled to be among those rising to the call to facilitate the new 5th Dimensional energy coming into our third dimensional time/space continuum. Come with me as we journey step by step through my search for answers. After looking at what I refer to in this book as my Fork in the Road, a new truth was born a truth that provides answers for the Spirit, Mind, and Body. I will share information concerning self-healing using sound, vibration, and frequencies that can clear, cleanse, balance, and focus our lives in all its forms. The ancient Solfeggio frequencies are part of a process that can assist us in creating the possibility of lives without stress, illness, and sickness. Together we will go to the cutting edge of scientific discoveries regarding sound and healing. This book is also a call for Lightworkers to gather in this crucial time of change and transformation on the planet. Join me and others who do not live in fear of the future. Just tune your inner ear

and listen to these wonderful new ideas as I share the techniques of working with sound and, more specifically, the Solfeggio tuning forks. My hope is that we can all find the harmonics of our own individual music, and that through this process we will be enabled to live balanced lives.

The Ancient Language of Sacred Sound David Elkington, 2021-04-06 • Details how sacred sites resonate at the same frequencies as both the Earth and the alpha waves of the human brain • Shows how human writing in its original hieroglyphic form was a direct response to the divine sound patterns of sacred sites • Explains how ancient hero myths from around the world relate to divine acoustic science and formed the source of religion The Earth resonates at an extremely low frequency. Known as “the Schumann Resonance,” this natural rhythm of the Earth precisely corresponds with the human brain’s alpha wave frequencies--the frequency at which we enter into and come out of sleep as well as the frequency of deep meditation, inspiration, and problem solving. Sound experiments reveal that sacred sites and structures like stupas, pyramids, and cathedrals also resonate at these special frequencies when activated by chanting and singing. Did our ancestors build their sacred sites according to the rhythms of the Earth? Exploring the acoustic connections between the Earth, the human brain, and sacred spaces, David Elkington shows how humanity maintained a direct line of communication with Mother Earth and the Divine through the construction of sacred sites, such as

Stonehenge, Newgrange, Machu Picchu, Chartres Cathedral, and the pyramids of both Egypt and Mexico. He reveals how human writing in its original hieroglyphic form was a direct response to the divine sound patterns of sacred sites, showing how, for example, recognizable hieroglyphs appear in sand patterns when the sacred frequencies of the Great Pyramid are activated. Looking at ancient hero legends--those about the bringers of important knowledge or language--Elkington explains how these myths form the source of ancient religion and have a unique mythological resonance, as do the sites associated with them. The author then reveals how religion, including Christianity, is an ancient language of acoustic science given expression by the world's sacred sites and shows that power places played a profound role in the development of human civilization.

Every cell becomes a portal. As this happens, corrections and adjustments in the electrical fields that have been out of attunement occur, and the whole body benefits from a re-alignment within the organs. All the cells begin to clear things long held there.
