A Terrible Thing to Waste Harriet A. Washington, 2019-07-23 A powerful and indispensable look at the devastating consequences of environmental racism (Gerald Markowitz) -- and what we can do to remedy its toxic effects on marginalized communities. Did you know... Middle-class African American households with incomes between \$50,000 and \$60,000 live in neighborhoods that are more polluted than those of very poor white households with incomes below \$10,000. When swallowed, a lead-paint chip no larger than a fingernail can send a toddler into a coma -- one-tenth of that amount will lower his IQ. Nearly two of every five African American homes in Baltimore are plagued by lead-based paint. Almost all of the 37,500 Baltimore children who suffered lead poisoning between 2003 and 2015 were African American. From injuries caused by lead poisoning to the devastating effects of atmospheric pollution, infectious disease, and industrial waste, Americans of color are harmed by environmental hazards in staggeringly disproportionate numbers. This systemic onslaught of toxic exposure and institutional negligence causes irreparable physical harm to millions of people across the country-cutting lives tragically short and needlessly burdening our health care system. But these deadly environments create another insidious and often overlooked consequence: robbing communities of color, and America as a whole, of intellectual power. The 1994 publication of *The Bell Curve* and its controversial thesis catapulted the topic of genetic racial differences in IQ to the forefront of a renewed and heated debate. Now, in *A Terrible Thing to Waste*, award-winning science writer Harriet A. Washington adds her incisive analysis to the fray, arguing that IQ is a biased and flawed metric, but that it is useful for tracking cognitive damage. She takes apart the spurious notion of intelligence as an inherited trait, using copious data that instead point to a different cause of the reported African American-white IQ gap: environmental racism - a confluence of racism and other institutional factors that relegate marginalized communities to living and working near sites of toxic waste, pollution, and insufficient sanitation services. She investigates heavy metals, neurotoxins, deficient prenatal care, bad nutrition, and even pathogens as chief agents influencing intelligence to explain why communities of color are disproportionately affected -- and what can be done to remedy this devastating problem. Featuring extensive scientific research and Washington's sharp, lively reporting, *A Terrible Thing to Waste* is sure to outrage, transform the conversation, and inspire debate.

Benign Bigotry Kristin J. Anderson, 2010 Focuses on commonly held cultural myths as the basis for examining subtle forms of racial, sexual, gender and religious bias.

The Miner's Canary Lani GUINIER, Gerald Torres, Lani Guinier, 2009-06-30 Like the canaries that alerted miners to a poisonous atmosphere, issues of race point to underlying problems in society that ultimately affect everyone, not just minorities. Addressing these issues is essential. Ignoring racial differences--race blindness--has failed. Focusing on individual achievement has diverted us from tackling pervasive inequalities. Now, in a powerful and challenging book, Lani Guinier and Gerald Torres propose a radical new way to confront race in the twenty-first century. Given the complex relationship between race and power in America, engaging race means engaging standard winner-take-all hierarchies of power as well. Terming their concept political race, Guinier and Torres call for the building of grass-roots, cross-racial coalitions to remake those structures of power by fostering public participation in politics and reforming the process of democracy. Their illuminating and moving stories of political race in action include the coalition of Hispanic and black leaders who devised the Texas Ten Percent Plan to establish equitable state college admissions criteria, and the struggle of black workers in North Carolina for fair working conditions that drew on the strength and won the support of the entire local community. The aim of political race is not merely to remedy racial injustices, but to create truly participatory democracy, where people of all races feel empowered to effect changes that will improve conditions for everyone. In a book that is ultimately not only aspirational but inspirational, Guinier and Torres envision a social justice movement that could transform the nature of democracy in America.

Myth of the Model Minority Rosalind S. Chou, Joe R. Feagin, 2015-11-17 The second edition of this popular book adds important new research on how racial stereotyping is gendered and

sexualized. New interviews show that Asian American men feel emasculated in America's male hierarchy. Women recount their experiences of being exoticized, subtly and otherwise, as sexual objects. The new data reveal how race, gender, and sexuality intersect in the lives of Asian Americans. The text retains all the features of the renowned first edition, which offered the first in-depth exploration of how Asian Americans experience and cope with everyday racism. The book depicts the "double consciousness" of many Asian Americans—experiencing racism but feeling the pressures to conform to popular images of their group as America's highly achieving "model minority." FEATURES OF THE SECOND EDITION

Istanbul Was a Fairy Tale Mario Levi, 2012-04-24 A major work of contemporary Turkish literature, *Istanbul Was a Fairy Tale* tells the stories of three generations of a Jewish family from the 1920s to the 1980s. Istanbul is their only home, and yet they live in a state of alienation, isolating themselves from the world around them. As witness, observer, and protagonist, the narrator—at once inside and outside of his story—records their many tales, as well as those of their friends and neighbors, creating an expansive mosaic of characters, each doing their best to survive the twentieth century.

Red Dyed Hair Kōstas Mourselas, 1992 In scene embedded within scene, *Red Dyed Hair* spins a tale of social and personal cowardice and treachery against a distant backdrop of courage betrayed at the cost of death.

Nice Racism Dr. Robin DiAngelo, 2021-06-29 NEW YORK TIMES BESTSELLER Building on the groundwork laid in the New York Times bestseller *White Fragility*, Robin DiAngelo explores how a culture of niceness inadvertently promotes racism. In *White Fragility*, Robin DiAngelo explained how racism is a system into which all white people are socialized and challenged the belief that racism is a simple matter of good people versus bad. DiAngelo also made a provocative claim: white progressives cause the most daily harm to people of color. In *Nice Racism*, her follow-up work, she explains how they do so. Drawing on her background as a sociologist and over 25 years working as an anti-racist educator, she picks up where *White Fragility* left off and moves the conversation forward. Writing directly to white people as a white person, DiAngelo identifies many common white racial patterns and breaks down how well-intentioned white people unknowingly perpetuate racial harm. These patterns include: -rushing to prove that we are "not racist"; -downplaying white advantage; -romanticizing Black, Indigenous and other peoples of color (BIPOC); -pretending white segregation "just happens"; -expecting BIPOC people to teach us about racism; -carefulness; -and feeling immobilized by shame. DiAngelo explains how spiritual white progressives seeking community by co-opting Indigenous and other groups' rituals create separation, not connection. She challenges the ideology of individualism and explains why it is OK to generalize about white people, and she demonstrates how white people who experience other oppressions still benefit from systemic racism. Writing candidly about her own missteps and struggles, she models a path forward, encouraging white readers to continually face their complicity and embrace courage, lifelong commitment, and accountability. *Nice Racism* is an essential work for any white person who recognizes the existence of systemic racism and white supremacy and wants to take steps to align their values with their actual practice. BIPOC readers may also find the "insiders" perspective useful for navigating whiteness. Includes a study guide.

A Strangeness in My Mind Orhan Pamuk, 2015-10-06 Since his boyhood in a poor village in Central Anatolia, Mevlut Karatas has fantasized about what his life would become. Not getting as far in school as he'd hoped, at the age of twelve, he comes to Istanbul—the center of the world—and is immediately enthralled both by the city being demolished and the new one that is fast being built. He follows his father's trade, selling boza on the street, and hopes to become rich like other villagers who have settled on the desolate hills outside the booming metropolis. But chance seems to conspire against him. He spends three years writing love letters to a girl he saw just once at a wedding, only to elope by mistake with her sister. And though he grows to cherish his wife and the family they have, his relations all make their fortunes while his own years are spent in a series of jobs leading nowhere; he is sometimes attracted to the politics of his friends and intermittently to the lodge of a

religious guide. But every evening, without fail, he still wanders the streets of Istanbul, selling boza and wondering at the strangeness in his mind, the sensation that makes him feel different from everyone else, until fortune conspires once more to let him understand at last what it is he has always yearned for. Told from the perspectives of many beguiling characters, *A Strangeness in My Mind* is a modern epic of coming of age in a great city, and a mesmerizing narrative sure to take its place among Pamuk's finest achievements.

Race Talk and the Conspiracy of Silence Derald Wing Sue, 2016-02-01 Turn Uncomfortable Conversations into Meaningful Dialogue If you believe that talking about race is impolite, or that colorblindness is the preferred approach, you must read this book. *Race Talk and the Conspiracy of Silence* debunks the most pervasive myths using evidence, easy-to-understand examples, and practical tools. This significant work answers all your questions about discussing race by covering: Characteristics of typical, unproductive conversations on race Tacit and explicit social rules related to talking about racial issues Race-specific difficulties and misconceptions regarding race talk Concrete advice for educators and parents on approaching race in a new way His insistence on the need to press through resistance to have difficult conversations about race is a helpful corrective for a society that prefers to remain silent about these issues. —Christopher Wells, Vice President for Student Life at DePauw University In a Canadian context, the work of Dr. Derald Wing Sue in *Race Talk: and the Conspiracy of Silence* is the type of material needed to engage a populace that is often described as 'Too Polite.' The accessible material lets individuals engage in difficult conversations about race and racism in ways that make the uncomfortable topics less threatening, resulting in a true 'dialogue' rather than a debate. —Darrell Bowden, M Ed. Education and Awareness Coordinator, Ryerson University He offers those of us who work in the Diversity and Inclusion space practical tools for generating productive dialogues that transcend the limiting constraints of assumptions about race and identity. —Rania Sanford, Ed.D. Associate Chancellor for Strategic Affairs and Diversity, Stanford University Sue's book is a must-read for any parent, teacher, professor, practitioner, trainer, and facilitator who seeks to learn, understand, and advance difficult dialogues about issues of race in classrooms, workplaces, and boardrooms. It is a book of empowerment for activists, allies, or advocates who want to be instruments of change and to help move America from silence and inaction to discussion, engagement, and action on issues of difference and diversity. Integrating real life examples of difficult dialogues that incorporate the range of human emotions, Sue provides a masterful illustration of the complexities of dialogues about race in America. More importantly, he provides a toolkit for those who seek to undertake the courageous journey of understanding and facilitating difficult conversations about race. —Menah Pratt-Clarke, JD, PhD, Associate Provost for Diversity, University of Illinois Urbana-Champaign

Biased Jennifer L. Eberhardt, PhD, 2020-03-03 Poignant....important and illuminating.—The New York Times Book Review Groundbreaking.—Bryan Stevenson, New York Times bestselling author of *Just Mercy* From one of the world's leading experts on unconscious racial bias come stories, science, and strategies to address one of the central controversies of our time How do we talk about bias? How do we address racial disparities and inequities? What role do our institutions play in creating, maintaining, and magnifying those inequities? What role do we play? With a perspective that is at

once scientific, investigative, and informed by personal experience, Dr. Jennifer Eberhardt offers us the language and courage we need to face one of the biggest and most troubling issues of our time. She exposes racial bias at all levels of society—in our neighborhoods, schools, workplaces, and criminal justice system. Yet she also offers us tools to address it. Eberhardt shows us how we can be vulnerable to bias but not doomed to live under its grip. Racial bias is a problem that we all have a role to play in solving.

Dawn Selahattin Demirtas, 2019-04-23 Written from behind bars, DAWN is the unforgettable story collection from one of Turkey's leading politicians, and most powerful oppositional voices. From the dynamic political force 'who has evoked comparisons to President Obama' (New York Times), Selahattin Demirtas' stories capture the voices of ordinary people living in extraordinary times - from cleaning ladies and teenage laborers, bus drivers and factory workers, from a violent demonstration in Ankara to a five-year-old girl's attempt to escape war-torn Syria by boat. With Demirtas' trademark wit, warmth and humor, and seasoned by the vernacular of everyday speech, DAWN paints a remarkable portrait of life behind the headlines in Turkey and the Middle East - in all its hardship and adversity, freedom and hope.

Educational Research and Innovation Education in the Digital Age Healthy and Happy Children OECD, 2020-10-15 The COVID-19 pandemic was a forceful reminder that education plays an important role in delivering not just academic learning, but also in supporting physical and emotional well-being. Balancing traditional "book learning" with broader social and personal development means new roles for schools and education more generally.

American Islamophobia Khaled A. Beydoun, 2018-04-03 On Forbes list of 10 Books To Help You Foster A More Diverse And Inclusive Workplace How law, policy, and official state rhetoric have fueled the resurgence of Islamophobia—with a call to action on how to combat it. "I remember the four words that repeatedly scrolled across my mind after the first plane crashed into the World Trade Center in New York City. 'Please don't be Muslims, please don't be Muslims.' The four words I whispered to myself on 9/11 reverberated through the mind of every Muslim American that day and every day after.... Our fear, and the collective breath or brace for the hateful backlash that ensued, symbolize the existential tightrope that defines Muslim American identity today." The term "Islamophobia" may be fairly new, but irrational fear and hatred of Islam and Muslims is anything but. Though many speak of Islamophobia's roots in racism, have we considered how anti-Muslim rhetoric is rooted in our legal system? Using his unique lens as a critical race theorist and law professor, Khaled A. Beydoun captures the many ways in which law, policy, and official state rhetoric have fueled the frightening resurgence of Islamophobia in the United States. Beydoun charts its long and terrible history, from the plight of enslaved African Muslims in the antebellum South and the laws prohibiting Muslim immigrants from becoming citizens to the ways the war on terror assigns blame for any terrorist act to Islam and the myriad trials Muslim Americans face in the Trump era. He passionately argues that by failing to frame Islamophobia as a system of bigotry endorsed and emboldened by law and carried out by government actors, U.S. society ignores the injury it inflicts on both Muslims and non-Muslims. Through the stories of Muslim Americans who have experienced Islamophobia across various racial, ethnic, and socioeconomic lines, Beydoun shares how U.S. laws shatter lives, whether directly or inadvertently. And with an eye toward benefiting society as a whole, he recommends ways for Muslim Americans and their allies to build coalitions with other groups. Like no book before it, American Islamophobia offers a robust and genuine portrait of Muslim America then and now.

One Person, No Vote Carol Anderson, 2018-09-11 As featured in the documentary All In: The Fight for Democracy Finalist for the PEN/John Kenneth Galbraith Award for Nonfiction Longlisted for the National Book Award in Nonfiction Named one of the Best Books of the Year by: Washington Post * Boston Globe * NPR * Bustle * BookRiot * New York Public Library From the award-winning, New York Times bestselling author of White Rage, the startling--and timely--history of voter suppression in America, with a foreword by Senator Dick Durbin. In her New York Times bestseller White Rage, Carol Anderson laid bare an insidious history of policies that have systematically

impeded black progress in America, from 1865 to our combustible present. *With One Person, No Vote*, she chronicles a related history: the rollbacks to African American participation in the vote since the 2013 Supreme Court decision that eviscerated the Voting Rights Act of 1965. Known as the Shelby ruling, this decision effectively allowed districts with a demonstrated history of racial discrimination to change voting requirements without approval from the Department of Justice. Focusing on the aftermath of Shelby, Anderson follows the astonishing story of government-dictated racial discrimination unfolding before our very eyes as more and more states adopt voter suppression laws. In gripping, enlightening detail she explains how voter suppression works, from photo ID requirements to gerrymandering to poll closures. And with vivid characters, she explores the resistance: the organizing, activism, and court battles to restore the basic right to vote to all Americans.

Punished Victor M. Rios, 2011 Victor Rios grew up in the ghetto of Oakland, California in the 1980s and 90s. A former gang member and juvenile delinquent, Rios managed to escape the bleak outcome of many of his friends and earned a PhD at Berkeley and returned to his hometown to study how inner city young Latino and African American boys develop their sense of self in the midst of crime and intense policing. *Punished* examines the difficult lives of these young men, who now face punitive policies in their schools, communities, and a world where they are constantly policed and stigmatized. Rios followed a group of forty delinquent Black and Latino boys for three years. These boys found themselves in a vicious cycle, caught in a spiral of punishment and incarceration as they were harassed, profiled, watched, and disciplined at young ages, even before they had committed any crimes, eventually leading many of them to fulfill the destiny expected of them. But beyond a fatalistic account of these marginalized young men, Rios finds that the very system that criminalizes them and limits their opportunities, sparks resistance and a raised consciousness that motivates some to transform their lives and become productive citizens. Ultimately, he argues that by understanding the lives of the young men who are criminalized and pipelined through the criminal justice system, we can begin to develop empathic solutions which support these young men in their development and to eliminate the culture of punishment that has become an overbearing part of their everyday lives.

My Vanishing Country Bakari Sellers, 2020-05-19 New York Times Bestseller What J. D. Vance did for Appalachia with *Hillbilly Elegy*, CNN analyst and one of the youngest state representatives in South Carolina history Bakari Sellers does for the rural South, in this important book that illuminates the lives of America's forgotten black working-class men and women. Part memoir, part historical and cultural analysis, *My Vanishing Country* is an eye-opening journey through the South's past, present, and future. Anchored in in Bakari Seller's hometown of Denmark, South Carolina, *Country* illuminates the pride and pain that continues to fertilize the soil of one of the poorest states in the nation. He traces his father's rise to become, friend of Stokely Carmichael and Martin Luther King, a civil rights hero, and member of the Student Non-Violent Coordinating Committee (SNCC), to explore the plight of the South's dwindling rural, black working class—many of whom can trace their ancestry back for seven generations. In his poetic personal history, we are awakened to the crisis affecting the other "Forgotten Men & Women," who the media seldom acknowledges. For Sellers, these are his family members, neighbors, and friends. He humanizes the struggles that shape their lives: to gain access to healthcare as rural hospitals disappear; to make ends meet as the factories they have relied on shut down and move overseas; to hold on to precious traditions as their towns erode; to forge a path forward without succumbing to despair. *My Vanishing Country* is also a love letter to fatherhood—to Sellers' father, his lodestar, whose life lessons have shaped him, and to his newborn twins, who he hopes will embrace the Sellers family name and honor its legacy.

Diversity, Inc. Pamela Newkirk, 2019-10-22 One of Time Magazine's Must-Read Books of 2019 An award-winning journalist shows how workplace diversity initiatives have turned into a profoundly misguided industry--and have done little to bring equality to America's major industries and institutions. Diversity has become the new buzzword, championed by elite institutions from academia to Hollywood to corporate America. In an effort to ensure their organizations represent

the racial and ethnic makeup of the country, industry and foundation leaders have pledged hundreds of millions of dollars to commission studies, launch training sessions, and hire consultants and diversity czars. But is it working? In *Diversity, Inc.*, award-winning journalist Pamela Newkirk shines a bright light on the diversity industry, asking the tough questions about what has been effective--and why progress has been so slow. Newkirk highlights the rare success stories, sharing valuable lessons about how other industries can match those gains. But as she argues, despite decades of handwringing, costly initiatives, and uncomfortable conversations, organizations have, apart from a few exceptions, fallen far short of their goals. *Diversity, Inc.* incisively shows the vast gap between the rhetoric of inclusivity and real achievements. If we are to deliver on the promise of true equality, we need to abandon ineffective, costly measures and commit ourselves to combatting enduring racial attitudes

Islamic Archaeology ,2019-04 The rarity of material evidence for the religion of Islam during the first seventy years of the hijra (622-92 CE) has been used to attack the traditional positivist account of the rise of Islam. However, the earliest declarations of Islam are to be found on media produced by the early Islamic state. There has never been such interest among both scholars and the informed public alike in the archaeology of Islamic societies. The last few years in particular have witnessed marked growth in the number of conferences and workshops, publications, and university programs with Islamic archaeology as a focus. Islamic archaeology courses are being offered in conjunction with Middle East Studies and Islamic art history at universities throughout North America and Europe, and comprise a field of specialization in archaeology departments in the Middle East. This book explores the origins and development of archaeology in and of the Islamic world. It considers the relationship between Islamic archaeology and imperialism, colonialism, nationalism, and, more recently, tourism and heritage management. In examining the impetus for Islamic archaeology in the late 19th and early 20th centuries, it also considers the relationship between the art market, the formation of museum collections, and archaeological expeditions. Whilst the title of this volume privileges the art of Islam there is much more about the issues and questions of Islam, art, and museums to be found here, from the political to the professional and on to the public. The book is committed to highlighting the diverse character of Islamic material and visual culture, and to establishing common preoccupations that exist in the production, commissioning, use and appreciation of art and architectural forms across the Islamic world. The book also contains studies that can function as fundamental resources for future research and teaching of Islamic visual and material culture. This book will be a valuable guide for students and archaeologists, and initiate a major area of debate.
