Soft Computing for Problem Solving Kedar Nath Das,Jagdish Chand Bansal,Kusum Deep,Atulya K. Nagar,Ponnambalam Pathipooranam,Rani Chinnappa Naidu,2019-11-27 This two-volume book presents the outcomes of the 8th International Conference on Soft Computing for Problem Solving, SocProS 2018. This conference was a joint technical collaboration between the Soft Computing Research Society, Liverpool Hope University (UK), and Vellore Institute of Technology (India), and brought together researchers, engineers and practitioners to discuss thought-provoking developments and challenges in order to select potential future directions. The book highlights the latest advances and innovations in the interdisciplinary areas of soft computing, including original research papers on algorithms (artificial immune systems, artificial neural networks, genetic algorithms, genetic programming, and particle swarm optimization) and applications (control systems, data mining and clustering, finance, weather forecasting, game theory, business and forecasting applications). It offers a valuable resource for both young and experienced researchers dealing with complex and intricate real-world problems that are difficult to solve using traditional methods.

Smack Dab in the Middle of Maybe Jo Watson Hackl,2019-07-30 11 days. 13 clues. And one kid who won't give up. Smack Dab in the Middle of Maybe is part treasure hunt, part wilderness adventure, and all heart (Alan Gratz, New York Times bestselling author of Refugee). How far would you go to find something that might not even exist? All her life, Cricket's mama has told her stories about a secret room painted by a mysterious artist. Now Mama's run off, and Cricket thinks the room might be the answer to getting her to come back. If it exists. And if she can find it. Cricket's first clue is a coin from a grown-over ghost town in the woods. So with her daddy's old guidebook and a coat full of snacks stolen from the Cash 'n' Carry, Cricket runs away to find the room. Surviving in the woods isn't easy. While Cricket camps out in an old tree house and looks for clues, she meets the last resident of the ghost town, encounters a poetry-loving dog (who just might hold a key to part of the puzzle), and discovers that sometimes you have to get a little lost . . . to really find your way. 2020 Mississippi Library Association Children's Author Award 2019 Southern Book Award Winner--Children's Category A tale of adventure, full of mystery. --Robert Beatty, New York Times bestselling author of Serafina and the Black Cloak An unforgettable story about a gutsy girl who will steal your heart. --Kathleen Glasgow, New York Times bestselling author of Girl in Pieces Lyrical and endearing, this debut is a genuine adventure tale. --Kirkus Reviews, Starred

Mali International Monetary Fund. Fiscal Affairs Dept.,2016-03-17 This paper discusses Malian mining taxation. Mali's industrial mining sector is predominantly gold mining, with six industrial mines currently active. Most of the mines are old, but some have substantial reserves; extensions are planned for the Syama, Morila, Kalama, Tabakoto-Segela, and Loulo-Gounkoto mines. The Fiscal Analysis for Resource Industries model was completed for five new projects with recent feasibility studies. The government revenue contributed by the five new projects is on the order of US\$1.7 billion (constant dollars) over the next 10 years. The application of the 1999 or 2012 Mining Code increases the government's share of income in comparison with the 1991 code.

Solid Modeling by Computers Mary S. Pickett,John W. Boyse,2012-12-06 This book contains the papers presented at the international research symposium Solid Modeling by Computers: From Theory to Applications, held at the General Motors Research Laboratories on September 25-27, 1983. This was the 28th symposium in a series which the Research Laboratories began sponsoring in 1957. Each symposium has focused on a topic that is both under active study at the Research Laboratories and is also of interest to the larger technical community. Solid modeling is still a very young research area, young even when compared with other computer-related research fields. Ten years ago, few people recognized the importance of being able to create complete and unambiguous computer models of mechanical parts. Today there is wide recognition that computer representations of solids are a prerequisite for the automation of many engineering analyses and manufacturing applications. In September 1983, the time was ripe for a symposium on this subject. Research had already demonstrated the efficacy of solid modeling as a tool in computer automated design and manufacturing, and there were significant results which could be presented at the symposium. Yet the field was still young enough that we could bring together theorists in solid modeling and practitioners applying solid modeling to other research areas in a group small enough to allow a stimulating exchange of ideas.

PasRo Christian Blume,Wilfried Jakob,John Favaro,2012-12-06 The second edition of PASRO - Pascal for Robots includes some new aspects of the PASRO development within the last two years. Besides the PASRO implementation on other computers with the help of different Pascal compilers and operating systems, one significant new development has been the implementation of the PASRO concept in the programming language C. Therefore the second edition is divided into two major parts: A. The revised and little extended old PASRO description of the first edition based on Pascal. B. The new PASRO/C description based on C. Of course we know that the name PASRO/C is a contradiction in terms, but we chose it, in order to use the well known name PASRO in future. The additional author John Favaro is responsible for the PASRO/C implementation and the description while Christian Blume designed the PASRO concept and implemented the original PASRO, together with Wilfried Jakob. Additional thanks are dedicated to Jan Schloen and Thomas Eppting, who helped us to implement PASRO/C. We would also like to thank all readers of the first edition, who sent us their comments and corrections. Amongst these, special thanks to G. Macartney from the

Mali Investment and Business Guide Volume 1 Strategic and Practical Information IBP USA,2013-08 Mali Investment and Business Guide - Strategic and Practical Information

Demystifying Your Business Strategy David Lei,John W. Slocum,2013-08-29 While scores of strategic management books have been written, many books fail to take into consideration the influences that shape and constrain managers' ability to formulate and execute well-thought out strategies. Demystifying Your Business Strategy acknowledges and harnesses those influences, providing practitioners with a helpful new approach to developing and maintaining a competitive advantage. In this book, David Lei and John W. Slocum offer readers a comprehensive overview of the drivers of evolutionary advantage, recognizing that sources of competitive advantage for any organization will necessarily shift and evolve in response to changes in the industry environment. Demystifying Your Business Strategy also offers practical insights on how to spot inflection points of strategic transition and identify signals that indicate when an organization needs to develop a new source of competitive advantage. With in-depth discussion of the four different types of business strategies that many firms pursue and the strategic disciplines that support them, this book can provide significant insight and direction to managers at all levels within an organization.
