**Dark Sparrow** Andrew Casey, 2020-04-30 My name is Dark Sparrow. Now is a good time to listen to my random thoughts. Born and bred living my whole life in Nankin city USA. I somehow inherited my mother's British accent even though I was a problem child sent to countless therapists. Dominant female Bounty hunter by choice to do what all frightened police cannot, bloody wankers. I admit only to my thoughts that I am an expert vigilante who is not afraid to bring pain to the bad guy. I am in custody awaiting bail on another planet similarly structured to what I have seen on Earth. Could anyone on Earth truly grasp this?

**Robots That Kill** Judith A. Markowitz, 2019-04-11 This book describes real-world killer robots using a blend of perspectives. Overviews of technologies, such as autonomy and artificial intelligence, demonstrate how science enables these robots to be effective killers. Incisive analyses of social controversies swirling around the design and use of killer robots reveal that science, alone, will not govern their future. Among those disputes is whether fully-autonomous, robotic weapons should be banned. Examinations of killers from the golem to Frankenstein's monster reveal that artificially-created beings like them are precursors of real 21st century

killer robots. This book laces the death and destruction caused by all these killers with science and humor. The seamless combination of these elements produces a deeper and richer understanding of the robots around us.

**Escritos discentes em literaturas de língua inglesa** Maria Aparecida Andrade Salgueiro, Leila Assumpção Harris, As professoras Leila Assumpção Harris e Maria Aparecida Andrade Salgueiro estão mais uma vez à frente de uma das iniciativas mais bem sucedidas destes 30 anos de existência do Programa de Pós-graduação em Letras stricto sensu da Universidade do Estado do Rio de Janeiro: a coleção Escritos discentes em literaturas de língua inglesa. Chegando agora ao seu décimo volume, a coleção consolidou-se, definitivamente, como um meio privilegiado de divulgação das pesquisas realizadas pelos mestrandos e doutorandos da especialidade de Literaturas de Língua Inglesa, cuja pujança é atestada tanto pela qualidade quanto pela diversidade dos temas recobertos pelos trabalhos aqui reunidos. A história da série teve início com uma exitosa atividade acadêmica, cultivada por anos pela especialidade, a dos seminários internos, em que os alunos apresentavam o andamento de seus estudos e eram beneficiados pelos comentários, críticas e sugestões de professores e colegas. Tão bem sucedida foi a prática dos simpósios que ultrapassou os limites da especialidade, e permanece viva, hoje, nos Seminários anuais dos alunos, no âmbito geral do PPG-Letras. Na condição de coordenador atual do Programa, não posso deixar ainda de saudar a publicação de mais um volume da série, uma vez que ela contempla um dos quesitos de avaliação mais valorizados pela CAPES – a produção bibliográfica de mestrandos e doutorandos. Louva-se, nesse sentido, não apenas a publicação do livro em si, mas seu processo de elaboração: os capítulos, supervisionados pelos orientadores, valem também como um precioso exercício de escrita de futuros artigos, destinados aos veículos especializados da área. Resta-nos, pois, apenas desejar uma longa vida à série Escritos discentes em Literaturas de Língua Inglesa. Júlio França Coordenador Geral Pós-Graduação em Letras da Uerj

**Advancing Multimodal and Critical Discourse Studies** Sumin Zhao, Emilia Djonov, Anders Björkvall, Morten Boeriis, 2017-09-08 As a founder and leading figure in multimodality and social semiotics, Theo van Leeuwen has made significant contributions to a variety of research fields, including discourse analysis, sociolinguistics, communication and media studies, education, and design. In celebration of his illustrious research career, this volume brings together a group of leading and emerging scholars in these fields to review, explore and advance two central research agendas set out by van Leeuwen: the categorisation of the meaning potential of various semiotic resources and the examination of their uses in different forms of communication, and the critical analysis of the interaction between semiotic forms, norms and technology in discursive practices. Through 11 cutting-edge research papers and an experimental visual essay, the book investigates a broad range of semiotic resources including touch, sound, image, texture, and discursive practices such as community currency, fitness regime, film scoring, and commodity upcycling. The book showcases how social semiotics and multimodality can provide insights into the burning issues of the day, such as global neoliberalism, terrorism, consumerism, and immigration.

**Robots that Talk and Listen** Judith Markowitz, 2014-12-12 Robots That Talk and Listen provides a forward-looking examination of speech and language in robots from technical, functional, and social perspectives. Contributors address cultural foundations as well as the linguistic skills and technologies that robots need to function effectively in real-world settings. Among the most difficult and complex is the ability to understand and use language. Speech-enabled automata are already serving as interactive toys, teacher's aides, and research assistants. These robots will soon be joined by personal companions, industrial co-workers, and military support automata. The social impact of these and other robots extends well beyond the specific tasks they perform. Contributors tackle the most knotty of those issues, notably acceptance of advanced, speech-enabled robots and developing ethical and moral controls for robots. Topics in this book include: •Language and Beyond: The True Meaning of "Speech Enabled" •Robots in Myth and Media •Enabling Robots to Converse •Language Learning by Automata •Handling Noisy Settings •Empirical Studies of Robots in Real-World Environments •Acceptance of Intelligent Robots •Managing Robots that Can Lie and Deceive •Envisioning a World Shared with Intelligent Robots

What You Don't Know Cortnie Abercrombie, 2022-03-22 You are probably not aware, because of their hidden nature, but Artificial Intelligence systems are all around you affecting some of the biggest areas of your life—jobs, loans, kids, mental health, relationships, freedoms, and even healthcare decisions that can determine if you live or die. As an executive working in AI at one of the largest, most sophisticated tech companies on the planet, Cortnie Abercrombie saw firsthand how the corporate executives and data science teams of the Fortune 500 think about and develop AI systems. This gave her a unique perspective that would result in a calling to leave her job so she could reveal to the public the sobering realities behind AI without any constraints or Public-Relations candy-coating from corporate America. In this book she makes it easy to understand how AI works and unveils what companies are doing with AI that can impact you the most. Most importantly, she offers practical advice on what you can do about it today and the change you should demand for the future. This book drops the hype, over-exaggerations, and big scientific terms and addresses the pressing questions that non-insiders want answered: • How does AI work (in words you don't need a PhD to understand)? • How can AI affect my job, replace me, or prevent my hire? • Is AI involved in life-or-death decisions in healthcare? • Could my digital accounts or home network be hacked because of my AI-based Smart TV, coffeemaker, or robot vacuum? • How does AI know so much about me, what does it know, and can it be used against me? • Can it manipulate people to do things they wouldn't normally? • Could AI help push my teen to self-harm or suicide? • Is fake news a real thing? • How can AI affect my rights and liberties? Does facial recognition play a part? • What can I do to protect myself, my kids, and my grandkids? • What should I demand from educators, lawmakers, and corporations to ensure AI is used in ways that are safe, fair, and responsible? • Is AI worth having? What could AI do for us in the future? It's time to understand what this AI hubbub is all about and what you're going to do about it because what you don't know about AI, could hurt you.
