UnixWare 7 System Administration Gene Henriksen, Melissa Henriksen, 1999 In great technical detail, Unixware 7 System Administration presents the latest version of SCO Unixware. Unixware is the definitive operating system resource for SCO engineers and administrators. This comprehensive guide includes critical information on the installation of this new technology and post installation tasks, tips on how to maintain the system under UnixWare 7, including performance tuning, detailed coverage of UnixWare 7's disaster recovery tools, and extensive coverage of migrating to UnixWare 7, including tools and scripts. Each chapter of the book includes troubleshooting notes from initial beta users and the developers at SCO. There are also tips for users familiar with other UNIX variants or NT.

The Book of Giants W.B. Henning, 2012 Before the great flood described in the Old Testament, there was a race of giants called Nephilim inhabiting the earth. One of the giants - Ogias - fought a great dragon. An apocryphal expansion of an obscure verse in Genesis, The Book of Giants: The Fallen Angels and Their Giant Sons was composed prior to the 2nd century BCE.

Dark Ecology Timothy Morton, 2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in Blade Runner (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

Climate Intervention National Research Council, Division on Earth and Life Studies, Ocean Studies Board, Board on Atmospheric Sciences and Climate, Committee on Geoengineering Climate: Technical Evaluation and Discussion of Impacts, 2015-06-23 The growing problem of changing environmental conditions caused by climate destabilization is well recognized as one of the defining issues of our time. The root problem is greenhouse gas emissions, and the fundamental solution is curbing those emissions. Climate geoengineering has often been considered to be a last-ditch response to climate change, to be used only if climate change damage should produce extreme hardship. Although the likelihood of eventually needing to resort to these efforts grows with every year of inaction on

emissions control, there is a lack of information on these ways of potentially intervening in the climate system. As one of a two-book report, this volume of Climate Intervention discusses albedo modification - changing the fraction of incoming solar radiation that reaches the surface. This approach would deliberately modify the energy budget of Earth to produce a cooling designed to compensate for some of the effects of warming associated with greenhouse gas increases. The prospect of large-scale albedo modification raises political and governance issues at national and global levels, as well as ethical concerns. Climate Intervention: Reflecting Sunlight to Cool Earth discusses some of the social, political, and legal issues surrounding these proposed techniques. It is far easier to modify Earth's albedo than to determine whether it should be done or what the consequences might be of such an action. One serious concern is that such an action could be unilaterally undertaken by a small nation or smaller entity for its own benefit without international sanction and regardless of international consequences. Transparency in discussing this subject is critical. In the spirit of that transparency, Climate Intervention: Reflecting Sunlight to Cool Earth was based on peer-reviewed literature and the judgments of the authoring committee; no new research was done as part of this study and all data and information used are from entirely open sources. By helping to bring light to this topic area, this book will help leaders to be far more knowledgeable about the consequences of albedo modification approaches before they face a decision whether or not to use them.

War on the Saints Jessie Penn-Lewis,2017-05-02 As soldiers in the army of the Lord, Christians face the onslaught of evil forces head-on every day. But there is no need to despair...God has not abandoned us. In *War on the Saints*, Jessie Penn-Lewis reveals: Satan's game plan-his tricks, lies, and methods of destruction The deception-that sincere Christians can be deceived The devil's target-his methods for targeting believers Spiritual warfare principles-both offensive and defensive Learn to equip yourself with God's full arsenal of weapons to defeat the enemy. Don't wait a moment longer. Now is the time to armor yourself against spiritual attacks. You can emerge victorious from every battle.

The Moonshadow's Daughter Kaylie Newell,2022-06-21 The mystery surrounding her disappearance is legendary in Wolfe Creek. But she's far from gone ... Aimee Styles vanished in the tiny mountain town of Wolfe Creek two years ago. She's supposed to be dead. The only problem is, she's not. What the locals don't know is that she lurks there as a werewolf to this day—a symbol of strength and tragedy, but mostly a protector to those who need her most. When Doctor Jake Blackstock is called in to treat a sick woman, he has no idea the beauty he's nursing back to health is Aimee. By the time he realizes what he's gotten himself into, it's too late—he's already falling in love. But Jake doesn't trust easily. A native son of mysterious Wolfe Creek, he's always been able to recognize

danger in its most natural form. And he knows whatever Aimee's hiding might just be the end of them both.

Mighty Morphin Power Rangers #1 Kyle Higgins,2016-03-02 Based on the long-running Power Rangers franchise, five teens from Angel Grove High are granted superpowers and giant robot dinosaur Zords to defend Earth against the alien villain Rita Repulsa. When Repulsa creates an evil Green Power Ranger by brainwashing recent transfer student Tommy, the team is able to free him from her grasp and get him on their side. But with remnants of Repulsa's control still stirring in the back of Tommy's mind, he must confront the fact he may be more of a danger to his new team than a help. This is Green Ranger: Year One.

After Theory Terry Eagleton,2004-08-26 The golden age of cultural theory (the product of a decade and a half, from 1965 to 1980) is long past. We are living now in its aftermath, in an age which, having grown rich in the insights of thinkers like Althusser, Barthes and Derrida, has also moved beyond them. What kind of new, fresh thinking does this new era demand? Eagleton concludes that cultural theory must start thinking ambitiously again - not so that it can hand the West its legitimation, but so that it can seek to make sense of the grand narratives in which it is now embroiled.

Writing Apache Modules with Perl and C Lincoln Stein,Doug MacEachern,1999 Apache is the most popular web server on the Internet because it is free, reliable, and extensible. The availability of the source code and the modular design of Apache makes it possible to extend web server functionality through the Apache API. For the most part, however, the Apache API has only been available to C programmers, and requires rebuilding the Apache server from source. mod_perl, the popular Apache module used primarily for enhanced CGI performance, changed all that by making the Apache API available to Perl programmers. With mod_perl, it becomes simple to develop Apache modules with Perl and install them without having to rebuild the web server. Writing Apache Modules with Perl and C shows how to extend web server capabilities regardless of whether the programming language is Perl or C. The book explains the design of Apache, mod_perl, and the Apache API. It then demonstrates how to use them to perform for tasks like the following: Rewriting CGI scripts as Apache modules to vastly improve performance Server-side filtering of HTML documents, to embed special markup or code (much like SSI) Enhancing server log functionality

Converting file formats on the fly Implementing dynamic navigation bars Incorporating database access into CGI scripts Customizing access control and authorization to block robots or to use an external database for passwords The authors are Lincoln Stein and Doug MacEachern. Lincoln is the successful author of How to Set Up and Maintain a World Wide web Site and the developer of the widely used Perl CGI.pm module. Doug is a consultant and the creator of the innovative mod_perl Apache module.

Breaking Vegan Jordan Younger,2015-11-01 Finding balance in life is a goal many of us strive to achieve. Whether it's through a healthy diet, exercise regimen, state of mind, relationship, or other activity (or all of the above), we spend our days trying to be, and become, our best selves. But what happens when all that focus starts to dominate our lives? When our desire for perfect health trumps everything else, perhaps without us even realizing it? What happens when our solution starts becoming the problem? These are questions that author and popular blogger Jordan Younger faced when she decided that her extreme, plant-based lifestyle just wasn't working in favor of her health anymore--and questions that you may be facing too. In Breaking Vegan, Jordan reveals how obsessive healthy dieting eventually led her to a diagnosis of orthorexia, or a focus on healthy food that involves other emotional factors and ultimately becomes dysfunctional, even dangerous. In candid detail, Jordan shares what it was like to leave veganism, the downfall of her desire to achieve nutritional perfection, and how she ultimately found her way to recovery. In addition to this, Jordan outlines an anti-diet, whole-foods-based eating plan featuring more than 25 recipes to help inspire others to find similar balance in their own lives. Breaking Vegan is about tolerance and forgiveness. And ultimately, forging one's own path toward happiness.

Solar Ultraviolet Radiation Christos S. Zerefos,Alkiviadis F. Bais,2013-06-29 Following the rapid developments in the UV-B measurement techniques and the rapidly growing research in the field in the late 80's and early 90's, we organized a large gathering of distinguished experts in a NATO Advanced Study Institute, held in Halkidiki, Greece on October, 2-11. 1995. The Institute was organized so as to include state of the art lectures on most aspects of solar ultraviolet radiation and its effects. This was achieved by extended lectures and discussions given in five sessions by 27 lecturers and a demonstration of field measurements and calibration techniques at the end of the Institute. The ASI began with the sun and fundamentals on solar radiative emissions and their variability in time and continued with the interaction of solar Ultraviolet with the atmosphere through the complex scattering processes and photochemical reactions involved. Particular emphasis was given to changes in atmospheric composition imposed by different manifestations of the solar activity cycle. as well as on the modelling of radiative transfer through the atmosphere and the ocean under variable environmental conditions. Overviews on the ozone issue. its monitoring and variability were extensively discussed with emphasis on the observed acceleration of ozone decline in the early 90's. This acceleration had as a consequence, significant increases in UV-B radiation observed at a few world-wide distributed stations.

Mrs. Penn-Lewis Mary Garrard,2014-06-12 This is the original, unabridged biography of Jessie Penn-Lewis, written

by Mary N. Garrard, her successor as editor of the Overcomer magazine. Originally published in 1930, it has been completely re-typeset; spelling and punctuation has been updated, but otherwise the content has been left untouched. There is a course prepared for each believer from the moment of his new birth, providing for the fullest maturity of the new life within him and the highest which God can make of his life in the use of every faculty for his service. To discover that course and fulfill it is the one duty of every soul. These words from Mrs. Penn-Lewis aptly describe her own spiritual journey. From the moment of conversion, she experienced deep longings for more of the power and presence of God in her life. At age 31 she experienced a remarkable baptism of power for service. This, together with her God-given insight into the Scriptures-especially her understanding of the believer's identification with the cross of Christ as the secret of victory-prepared her for a unique ministry that lasted a lifetime and continues to the present time through her many books, which are in constant demand. Though frail in health her entire lifetime, and despite having been given only a few months to live at the age of 28 (and several times afterwards), Mrs. Penn-Lewis nevertheless accomplished a great deal. Her ministry took her to Russia, Scandinavia, India, Canada, and the USA. She was a frequent speaker at the famous Keswick Convention in England and was the founder of the Llandrindod Wells Convention in Wales (the Welsh Keswick), and later the Matlock Conferences. She also founded the Overcomer magazine in 1908, a serious journal on the pursuit of the deeper Christian life. Her life became linked with some of the spiritual giants of her day, including D. L. Moody and Andrew Murray, as well as F. B. Meyer, whom she considered an old friend. May the careful perusal of these pages kindle within each reader a desire to follow Mrs. Penn-Lewis as she followed Christ.
