

Animal Head Photo Mashup

Charlotte Cory

The Photo Ark Joel Sartore, 2017 This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

Animal Antics John Lund, 2002 Ever wonder what really goes on among our four-legged friends after we leave the room? In *Animal Antics*, the secret is finally out. The animals are having a ball--and reading this book, you will too. Cats ride scooters, ducks dance the cancan, beagles lounge at the spa, and, yes, dogs do play poker! Behind this shocking expose is veteran photographer (and digital-manipulation wizard) John Lund. Lund uses amazing digital sleight of hand to endow a menagerie of animals with eerily and uncannily human qualities. The text of the book is equally playful with tasty morsels of advice like Learn to pamper your soul, Sharpen your survival skills, and Chill out as needed. Many of the images in *Animal Antics* have been featured in a best-selling greeting card line of the same name.

You Animal, You! Charlotte Cory, 2012 A reworking of Victorian-era visiting cards, replacing the heads of the subjects with the heads of animals that have been stuffed.

Animal Wise Virginia Morell, 2014-03-25 The New York Times Bestseller that explores animal intelligence and will alter the way we as humans view other species. Have you ever wondered what it is like to be a fish? Or a parrot, dolphin, or an elephant? Do they experience thoughts that are similar to ours, or have feelings of grief and love? These are tough questions, but scientists are answering them. They know that ants teach and rats love to be tickled. They've discovered that dogs have thousand-word vocabularies and that birds practice their songs in their sleep. But how do scientists know these things? **Animal Wise** takes us on a dazzling odyssey into the inner world of animals and among the pioneering researchers who are leading the way into once-uncharted territory: the animal mind. Morell uses her formidable gifts as a storyteller to transport us to field sites and laboratories around the world, introducing us to animal-cognition scientists and their surprisingly intelligent and sensitive subjects. She explores how this rapidly evolving, controversial field has

only recently overturned old notions about why animals behave as they do. In this surprising and moving book, Morell brings the world of nature brilliantly alive in a nuanced, deeply felt appreciation of the human-animal bond.

Love Immortal Anthony Cavo, 2022-08-30 An artfully designed compendium of 200 antiquarian photographs, all published here for the first time—including daguerrotypes, ambrotypes, tintypes, cartes de visite, and sepia and black-and-white images—culled from the private collection of longtime antiques collector, dealer, and appraiser Anthony Cavo, accompanied by an entertaining mix of historical anecdotes, true stories, excerpts from literature, letters, quotes, and fun facts. "Until one has loved an animal, a part of one's soul remains unawakened."—Anatole France Dogs have been beloved companions since the dawn of humankind. With the advent of photography in the nineteenth century, this love was immortalized for the first time on film. While the clothing and the hairstyles of yesteryear may be very different—and intriguing to the modern eye—in these photos, the evident love between pet and owner is unmistakable, and remains as poignant today as when these images were taken. An avid collector of nineteenth-

and early twentieth-century photographs for more than fifty years, Anthony Cavo has amassed an enormous catalog of antique photography, including hundreds of shots of people and their dogs. From this huge array, he has carefully curated 200 extraordinary pictures. These photos were taken from approximately 1840 to 1930 and offer a wide display of both candid and formal studio poses. Cavo arranges his subjects thematically and combines different photographic formats and images from different eras to create visual interest—whether the mix features a particular breed, a selection of images in shadow, or two images identical in pose but taken decades apart or in vastly different locations. In his introduction, Cavo offers a personal overview of this incredible treasury, which provides background on his lifelong experience as a collector and dog lover as well as touches briefly on photography's birth and various forms in its earliest years. He has gathered not only a fascinating array of facts, history, quotes, and anecdotes about dogs which he sprinkles among these charming and fascinating photographs, but enhances the viewing experience for the reader through pointing out details, such as style trends, that help identify when an image was taken. Here, too, are delightful anecdotes, from kidnapped pups who escaped and found their way home to devoted dogs who saved their owners' lives. Cavo offers fun insights into the history of our association with pets, information on a range of breeds, and tips about animal care throughout the ages. Here are touching true stories, quotes from famous historical figures, and a cornucopia of miscellaneous trivia, such as: a dog's presence in a household helps build immunity from disease in children; Dalmatians are born without their spots; the canine is a powerful feng shui symbol of protection and justice; it's good luck to have a stray follow you home; a dog's nose prints are as unique as a human's fingerprints; and much more. The ultimate companion book on humans' favorite animal companion, *Love Immortal* is essential for all devoted to dogs, animal lovers, those with an

interest in photography , and miscellany buffs.

Smarter Than You Think Clive Thompson,2013-09-12 A revelatory and timely look at how technology boosts our cognitive abilities—making us smarter, more productive, and more creative than ever It’s undeniable—technology is changing the way we think. But is it for the better? Amid a chorus of doomsayers, Clive Thompson delivers a resounding “yes.” In Smarter Than You Think, Thompson shows that every technological innovation—from the written word to the printing press to the telegraph—has provoked the very same anxieties that plague us today. We panic that life will never be the same, that our attentions are eroding, that culture is being trivialized. But, as in the past, we adapt—learning to use the new and retaining what is good of the old. Smarter Than You Think embraces and extols this

transformation, presenting an exciting vision of the present and the future.

Night of the Were-Cat Eileen Watkins, 2022-02-22 Cassie McGlone's Comfy Cats grooming service can turn a scruffy stray into a glamorous Cat-dashian. But with a drug-peddling killer at loose in her picturesque hometown of Chadwick, New Jersey, she'll need to comb through some dangerous suspects to avert a catastrophe . . . To an animal lover like Cassie, all cats are beautiful . . . though some may be more photogenic than others. When a customer brings in Quentin, a Maine Coon who looks more wolf than feline, it gives Cassie an idea. Things are getting hairy around Chadwick in other ways too. A thief targets the clinic where Cassie's veterinarian boyfriend Mark works, making off with anesthetics. Soon after, a young woman dies in a related drug incident. Wanting to help the police, Cassie and her good friend, Dawn, go undercover on the singles scene to investigate a suspected "party drug" ring, getting Mark's protective hackles up. Praise for *Claw & Disorder* "Cat and mystery lovers alike will be charmed." —Publishers Weekly

Gothic Remixed Megen de Bruin-Molé,2019-11-14 Longlisted for the 2022 International Gothic Association's Allan Lloyd Smith Prize The bestselling genre of Frankenfiction sees classic literature turned into commercial narratives invaded by zombies, vampires, werewolves, and other fantastical monsters. Too engaged with tradition for some and not traditional enough for others, these 'monster mashups' are often criticized as a sign of the artistic and moral degeneration of contemporary culture. These hybrid creations are the 'monsters' of our age, lurking at the limits of responsible consumption and acceptable appropriation. This book explores the boundaries and connections between contemporary remix and related modes, including adaptation, parody, the Gothic, Romanticism, and postmodernism. Taking a multimedia approach, case studies range from novels like *Pride and Prejudice and Zombies* and *The Extraordinary Adventures of the Athena Club* series, to television programmes such as *Penny Dreadful*, to popular visual artworks like Kevin J. Weir's Flux Machine GIFs. Megen de Bruin-Molé uses these monstrous and liminal works to show how the thrill of transgression has been contained within safe and familiar formats, resulting in the mashups that dominate Western popular culture.
