Arie Wallert, Erma Hermens, Marja Peek

Fierce Jo Weldon, 2018-06-26 In this lush compendium illustrated with full-color images, the author of *The Burlesque Handbook* chronicles the history of one of the world's most beloved fashion patterns—leopard print—celebrating its beauty and place in couture, and the women who have dared to wear it. In nature, the distinctive markings on big cats served as camouflage, helping them to blend into their surroundings when hunting prey. Unlike these magnificent predators, humans have donned this distinctive animal pattern to be noticed; leopard print demands an audience. Jo Weldon, an expert in the world of burlesque, reveals how this sexy, playful, decadent, and vibrant pattern once reserved for royalty came into vogue and became a staple of fashion. With the revolution in technology and the rise of mass production in the early 1900s, textiles could be produced quickly and inexpensively, transforming every industry. Couture experienced a creative awakening: colors, prints, and patterns never seen before became ubiquitous. A greater freedom of choice in ready-to-wear clothing gave women the opportunity to express themselves in new styles. From its inception in textile, leopard print—long used as a symbol of a warrior's power or a ruler's wealth—became a sensation, adopted by daring trendsetters and members of the avant-garde, including film stars and celebrities such as Carole Lombard and Josephine Baker, who walked her pet Cheetah, Chiquita, on a diamond-encrusted leash. The desire for leopard print continues today as Nicki Minaj, Rihanna and other stars flaunt their feline-inspired spots on film and stage, the catwalk and the red carpet. With a lively narrative, informative sidebars, and stunning images, *Fierce* is a must have collection for designers and fashionistas of all kinds.

The Bizarre Truth Andrew Zimmern, 2010-09-07 Andrew Zimmern, the host of The Travel Channel's hit series *Bizarre Foods*, has an extraordinarily well-earned reputation for traveling far and wide to seek out and sample anything and everything that's consumed as food globally, from cow vein stew in Bolivia and giant flying ants in Uganda to raw camel kidneys in Ethiopia, putrefied shark in blood pudding in Iceland and Wolfgang Puck's Hunan style rooster balls in Los Angeles. For Zimmern, local cuisine—bizarre, gross or downright stomach turning as it may be to us—is not simply what's served at mealtime. It is a primary avenue to discovering what is most authentic—the bizarre truth—about cultures everywhere. Having eaten his way around the world over the course of four seasons of *Bizarre Foods*, Zimmern has now launched *Bizarre Worlds*, a new series on the Travel Channel, and this, his first book, a chronicle of his journeys as he not only tastes the “taboo treats” of the world, but delves deep into the cultures and lifestyles of far-flung locales and seeks the most prized of the modern traveler's goals: The Authentic Experience. Written in the smart, often hilarious voice he uses to narrate his TV shows, Zimmern uses his adventures in “culinary anthropology” to illustrate such themes as: why visiting local markets can reveal more about destinations than museums; the importance of going to “the last stop on the subway”—the most remote area of a place where its essence is most often revealed; the need to seek out and catalog “the last bottle of coca-cola in the desert,” i.e. disappearing foods and cultures; the profound differences between dining and eating; and the pleasures of snout to tail, local, fresh and organic food. Zimmern takes readers into the back of a souk in Morocco where locals are eating a whole roasted lamb; along with a conch fisherman in Tobago, who may be the last of his kind; to Mississippi, where he dines on raccoon and possum. There, he writes, People said, 'That's roadkill!' 'No it's not,' I said. 'It's a cultural story.'” Whether it's a session with an Incan witch doctor in Ecuador who blows fire on him, spits on him, thrashes him with poisonous branches and beats him with a live guinea pig or drinking blood in Uganda and cow urine tonic in India or eating roasted bats on an uninhabited island in Samoa, Zimmern cheerfully celebrates the

undiscovered destinations and weird wonders still remaining in our increasingly globalized world.

Let Us Prey Cassandra Featherstone,C. Rochelle,2021-11-30 In this world, you're either predator or prey. I come from a long line of pure-blood predators, but when my shift finally happened, I turned out to be prey. A bunny to be exact. A freakin' bunny.The guy I'd been promised to since birth rejected me. My own father has turned his back on me - shipping me off to Apex Academy even though it's practically a death sentence with what I am.Oh, and of course, my ex-fiance and his friends are here at the academy and more than happy to make my life a living h***.But then I met my teachers. Five incredibly gorgeous apex predators, each one more mysterious than the last. And all of them, very much off-limits.There is something dark at Apex Academy - something that's killing off students and teachers alike. As prey, I'm afraid I'm the easiest target, but who can I trust to keep me safe?

Come Out & Prey Cassandra Featherstone,2023-04-21 Being a teenager is bullshit.You'd think being an heir in one of most powerful families in predator society would make it easier, but you'd be dead wrong.From the moment I was old enough, my bloodthirsty parents made sure I understood my job is to smile, nod, and look pretty in public. None of my choices are my own, including my friends, my future, and even my hairstyle. The only sliver of happiness I cling to is my boyfriend, Todd, and attending Apex Academy where I'll be free of the chains holding me down. Unfortunately, my life is a cosmic joke and everyone but me is laughing.The perfect prom night I envisioned ends in disaster and my entire world explodes in the blink of an eye. I didn't emerge as a predator and now there's hell to pay. My name is Delores Drew and I've got news for the friends and family who betrayed me when I turned out different than they expected. I'm no ordinary bunny.

Apex Bijou Hunter,2022-04-02 Cyril “Apex” Tayback is an enforcer for the Born Villains Motorcycle Club. He suffered a brutal childhood, bouncing from one trauma to another. When the club found the angry, young man living in the woods, he was on his way to a life in prison or an early grave. Now, Apex’s their most feared enforcer. Seeking help from the Born Villains Motorcycle Club, Giselle has escaped a painful past she can no longer remember. Her body tells a story of suffering, but her mind is a blank slate. All she knows is her heart already belongs to the fierce and beautiful biker. Claiming Giselle immediately, Apex won’t allow her past or anything else to stand in the way of their future. But the Born Villains face problems beyond a lost woman's violent past. They'll contend with secrets brewing in a rival club and the aftershocks from a brutal attack on the heart of their sanctuary. The Born Villains MC series contains sexual content, harsh language, graphic violence, and drug use. This book is only suitable for readers 18+.

Apex Predator Gail Daley,2022-11-20 The first world discovered by the Laughing Mountain Scientists was a doozy. A fitting match for Homo Sapiens—the deadliest predator of all time—maybe. If the native animals here don't get you, the plants just might. Life is hard on the outlawed colony of Lemuria. Some days it's a struggle just to stay alive. The plants and animals are huge--and deadly. Homo Sapiens are apex predators, but they may have just met their match . Zach Tylor is young, tough, and broke. He needs the money, so despite his better judgement, he agrees to guide a group of researchers to a mysterious structure of unknown origin. During the trek, he uncovers a dangerous conspiracy that threatens not only his home planet, but all the Outlawed Colonies.

Last of the Giants Jeff Campbell,2019-08-01 Today, an ancient world is vanishing right before our eyes: the age of giant animals. Over 40,000 years ago, the earth was ruled by megafauna: mammoths, mastodons, saber-toothed tigers and giant sloths. Of course, those creatures no longer exist, and there is only one likely reason for that: the evolution and arrival of the earth's only tool-wielding hunter, the wildly adaptive, comparatively pint-sized human species. Many more of the world's biggest and baddest creatures—including the black rhino, the dodo, giant tortoises, and the great

auk—have vanished since our world became truly global. Last of the Giants chronicles those giant animals and apex predators pushed to extinction in the modern era. The book also highlights those giant species that remain—even though many barely survive, living in such low numbers that they are on the brink of leaving this world within the next few decades. However, there is hope, for many endangered species can still be saved. As it profiles each extinct and endangered animal, Last of the Giants focuses on the conservation efforts that are trying to preserve the world's remaining charismatic species before they are lost forever.

The Necropsy Book John McKain King,L. Roth-Johnson,M. E. Newson,2007

Distilled Vestiges Jennie L. Morris,2022-12-29 Former Royal Navy diver Imogen Waide's job thrusts her into people's lives on their worst days. Called to Brandywine Lake to search for a missing child, she finds the idyllic resort town far from ordinary. Diving lake, she discovers bones. Among the animal remains is a distinct human skull marred by a bizarre injury. Maxwell Rue, a native hunter, aids in the rescue efforts. Rue has lived in the Appalachian Mountains his entire life, trapping and relocating dangerous animals. His inability to identify the markings on the skull is a bad sign. A second child goes missing. Waide and Rue are on the hunt for a creature moving unseen in Brandywine Lake. Will they find the children, or will the beast add two more skeletons to its collection?

The Year of Small Things Sarah Arthur, Erin F. Wasinger, 2017-01-31 When Sarah and Tom Arthur were appointed to a suburban church after three years in an urban Christian community, they faced a unique challenge: how to translate the practices of radical faith into their new context. Together with their friends and fellow church members Erin and Dave Wasinger, the Arthurs embarked on a yearlong experiment to implement twelve small practices of radical faith--not waiting until they were out of debt or the kids were out of diapers or God sent them elsewhere, but right now. This book is Sarah and Erin's story, told with humor, theological reflection, and practical insight, exploring such practices as simplicity, hospitality, accountability, sustainability, and social justice--but, most of all, discernment. Along the way readers will consider how God might be calling them to embark on their own year of small but radical changes, right where God has planted them. Each chapter includes discussion questions and suggested readings. Foreword by Jonathan Wilson-Hartgrove. For more information, visit [www.YearofSmallThings.com](<http://www.YearofSmallThings.com>).

Apex Legends: Overtime Jesse Stern, 2022-08-30 The Legends from the Battle Royale video game, Apex Legends, find themselves pulled together to rescue the city from Mad Scientists, brutal assassins, and the sudden and sinister grip of The Syndicate, a corrupt cabal attempting to “fix” arena outcomes in their favor. Will the legends hold up to their celebrity status and be the heroes Solace needs? Players are familiar with the fierce gladiators of King’s Canyon Arena in Apex Legends. Now they can see what life is like for their favorite Legends outside the arena, in the wild and vibrant dystopian city of Solace. Some of the victorious celebrate together while the others go about their night, blowing off steam or investigating the strange and often nefarious events happening in the neon-lit depths of the city. Each contestant came to the arena for different reasons: glory, fame, wealth, revenge, redemption, and more. This book gives fans a look at their humanity, the good, the bad, and even... the robotic? With pencils by Neil Edwards (Assassin’s Creed, Dark Avengers), inks from Keith Champagne (Stranger Things, Green Lantern), and script by film and videogame writer Jesse Stern (Call of Duty 2, NCIS). Collects Apex Legends: Overtime issues #1–#4.

In Defense of Food Michael Pollan, 2008-01-01 #1 New York Times Bestseller from the author of How to Change Your Mind, The Omnivore's Dilemma, and Food Rules Food. There's plenty of it around, and we all love to eat it. So why should anyone need to defend it? Because in the so-called Western diet, food has been replaced by nutrients, and common sense by confusion--most of what we’re consuming today is longer the product of nature but of food science. The result is what Michael Pollan calls the American Paradox: The more we worry about nutrition, the less healthy we see to become. With In Defense of Food, Pollan proposes a new (and very old) answer to the question of what we should eat that comes down to seven simple but liberating words: Eat food. Not too much. Mostly plants. Pollan’s bracing and eloquent manifesto shows us how we can start making thoughtful food choices that will enrich our lives, enlarge our sense of what it means to be healthy, and bring pleasure back to eating.
