The Inventor and the Tycoon Edward Ball, 2013-11-05 A Chicago Tribune Noteworthy Book of the Year Nearly 140 years ago, in frontier California, photographer Eadweard Muybridge captured time

with his camera and played it back on a flickering screen, inventing the breakthrough technology of moving pictures. Yet the visionary inventor Muybridge was also a murderer who killed coolly and meticulously, and his trial became a national sensation. Despite Muybridge's crime, the artist's patron, railroad tycoon Leland Stanford, founder of Stanford University, hired the photographer to answer the question of whether the four hooves of a running horse ever left the ground all at once—and together these two unlikely men launched the age of visual media. Written with style and passion by National Book Award-winner Edward Ball, this riveting true-crime tale of the partnership between the murderer who invented the movies and the robber baron who built the railroads puts on display the virtues and vices of the great American West.

A Newbery Zoo Martin Harry Greenberg, 1995 Animals -- enter their magic kingdom. From cuddly puppies to ferocious lions and every beast in between, children are forever drawn to animals and to stories about their adventures. And who better to tell these stories than authors who have won the John Newbery Medal for distinguished contributions to literature for children. This collection of animal tales is a treat for the whole family. It includes stories by authors today's children know and love, from Beverly Cleary and Betsy Byars to Lloyd Alexander and Virginia Hamilton. There are also stories by writers familiar to parents and grandparents, from Elizabeth Coatsworth to Robert Lawson and Will James. You'll find stories about zoo animals, wild animals, ranch animals, and pets. Animals that can talk and sing as well as bark, caw, buzz, and roar. There's a crow, a camel, a crusty crocodile, lions and wolves as well as cats and dogs, and much more. Perfect for both reading aloud and reading alone, this is a collection to bring to the beach, pack in the picnic basket, or read in the car. Classtime, storytime, bedtime, or anytime, this is a book to share. A portion of the royalties from this book will be donated to the American Library Association, administrator of the John Newbery Medal.

In the Company of Animals James Serpell, 1996-08-13 What purpose, if any, do pets really serve? Are they simply an outlet for misplaced love? Or four-legged friends who help us to satisfy vital emotional needs? Whatever they are, when we elevate pets to the status of social companions, we undermine the distinction between human and non-human. In other words, pets force us to confront the moral contradictions inherent in our treatment of animals in general. Pursuing this idea to its logical conclusion, the author uncovers a fascinating and disturbing trail of myths, evasions and double standards which humans have used since earliest times to justify their subjugation of nature and other life forms. Through an exploration of the phenomenon of pet-keeping across history and between cultures, this thought-provoking study reassesses our relationships with animals and the natural world. This new edition of *In the Company of Animals* has been substantially revised and updated to take into account developments in research since the first edition was published in 1986.

Tales That Touch Bettina Brandt, Yasemin Yildiz, 2022-09-20

Cultural texts born out of migration frequently defy easy categorization as they cross borders, languages, histories, and media in unpredictable ways. Instead of corralling them into identity categories, whether German or otherwise, the essays in this volume, building on the influential work of Leslie A. Adelson, interrogate how to respond to their methodological challenge in innovative ways. Investigating a wide variety of twentieth- and twenty-first-century texts that touch upon things German in the broadest sense—from print and born-digital literature to essay film, nature drawings, and memorial

sites—the contributions employ transnational and multilingual lenses to show how these works reframe migration and temporality, bringing into view antifascist aesthetics, refugee time, postmigrant Heimat, translational poetics, and post-Holocaust affects. With new literary texts by Yoko Tawada and Zafer Şenocak and essays by Gizem Arslan, Brett de Bary, Bettina Brandt, Claudia Breger, Deniz Göktürk, John Namjun Kim, Yuliya Komska, Paul Michael Lützeler, B. Venkat Mani, Barbara Mennel, Katrina L. Nousek, Anna Parkinson, Damani J. Partridge, Erik Porath, Jamie Trnka, Ulrike Vedder, and Yasemin Yildiz.

At the Tycoon's Command Shawna Delacorte, 2010-12-27 Working for Jared Stevens was not how teacher Kim Donaldson wanted to spend her vacation, but doing so would pay off her father's debt and end the long-standing feud begun by their grandfathers. If only Jared hadn't matured into a handsome man with a magnetic appeal and a smooth, sexy voice that made concentrating extremely difficult! Reformed playboy Jared was nothing like his unethical father—he was hardworking and responsible...and his attraction to his newest employee was immediate and powerful. Jared found their passionate battles in the office led to steamy lovemaking in the bedroom. But could a woman who no longer trusted find love with a man afraid of commitment?

Character Development and Storytelling for Games Lee Sheldon, 2022-11-18 This is the third edition of *Character Development and Storytelling for Games*, a standard work in the field that brings all of the teaching from the first two books up to date and tackles the new challenges of today. Professional game writer and designer Lee Sheldon combines his experience and expertise in this updated edition. New examples, new game types, and new challenges

throughout the text highlight the fundamentals of character writing and storytelling. But this book is not just a box of techniques for writers of video games. It is an exploration of the roots of character development and storytelling that readers can trace from Homer to Chaucer to Cervantes to Dickens and even Mozart. Many contemporary writers also contribute insights from books, plays, television, films, and, yes, games. Sheldon and his contributors emphasize the importance of creative instinct and listening to the inner voice that guides successful game writers and designers. Join him on his quest to instruct, inform, and maybe even inspire your next great game.
