Animals in Translation Temple Grandin, Catherine Johnson, 2009-08-11 With unique personal insight, experience, and hard science, *Animals in Translation* is the definitive, groundbreaking work on animal behavior and psychology. Temple Grandin's professional training as an animal scientist and her history as a person with autism have given her a perspective like that of no other expert in the field of animal science. Grandin and coauthor Catherine Johnson present their powerful theory that autistic people can often think the way animals think—putting autistic people in the perfect position to translate “animal talk.” Exploring animal pain, fear, aggression, love, friendship, communication, learning, and even animal genius, Grandin is a faithful guide into their world. *Animals in Translation* reveals that animals are much smarter than anyone ever imagined, and Grandin, standing at the intersection of autism and animals, offers unparalleled observations and extraordinary ideas about both.

Animals Emma Jane Unsworth, 2015-10-06 It is the moment every twenty-something must confront: the time to grow up. Adulthood looms, with all its numbing tranquility and stifling complacency. The end of prolonged adolescence is near. Laura and Tyler are two women whose twenties have been a blur of overstayed parties, a fondness for drugs that has shifted from cautious experimentation to catholic indulgence, and hangovers that don't relent until Monday morning. They've been best friends, partners in excess, for the last ten years. But things are changing: Laura is engaged to Jim, a classical pianist who has long since given up the carousing lifestyle. He disapproves of Tyler's reckless ways and of what he perceives to be her bad influence on Laura. Jim pulls Laura toward adulthood and responsibility, toward what society says she should be, but Tyler isn't ready to let her go. But what does Laura want for herself? And how can she choose between Tyler and Jim, between one life she loves and another she's supposed to love? Raw, uproarious, and deeply affecting, *Animals* speaks to an entire generation caught between late-adolescence and adulthood wondering what exactly they'll have to give up in order to grow up.

On Animals Susan Orlean, 2021-10-12 NATIONAL BESTSELLER “Magnificent.” —The New York Times * “Beguiling, observant, and howlingly funny.” —San Francisco Chronicle * “Spectacular.” —Star Tribune (Minneapolis) * “Full of astonishments.” —The Boston Globe Susan Orlean—the beloved New Yorker staff writer hailed as “a national treasure” by The Washington Post and the author of the New York Times bestseller *The Library Book*—gathers a lifetime of musings, meditations, and in-depth profiles about animals. “How we interact with animals has preoccupied philosophers, poets, and naturalists for ages,” writes Susan Orlean. Since the age of six, when Orlean wrote and illustrated a book called *Herbert the Near-Sighted Pigeon*, she's been drawn to stories about how we live with animals, and how they abide by us. Now, in *On Animals*, she examines animal-human relationships through the compelling tales she has written over the course of her celebrated career. These stories consider a range of creatures—the household pets we dote on, the animals we raise to end up as meat on our plates, the creatures who could eat us for dinner, the various tamed and untamed animals we share our planet with who are central to human life. In her own backyard, Orlean discovers the delights of keeping chickens. In a different backyard, in New Jersey, she meets a woman who has twenty-three pet tigers—something none of her neighbors knew about until one of the tigers escapes. In Iceland, the world's most famous whale resists the efforts to set him free; in Morocco, the world's hardest-working donkeys find respite at a special clinic. We meet a show dog and a lost dog and a pigeon who knows exactly how to get home. Equal parts delightful and profound, enriched by Orlean's stylish prose and precise research, these stories celebrate the meaningful cross-species connections that grace our collective existence.

Talking to Animals Jon Katz, 2017-05-02 New York Times bestselling author Jon Katz—“a Thoreau for modern times” (San Antonio Express-News)—offers us a deeper understanding of the inner lives of animals and teaches us how we can more effectively communicate with them, made real by his own remarkable experiences with a wide array of creatures great and small. In *Talking to Animals*, journalist Jon Katz—who left his Manhattan life behind two decades ago for life on a farm where he is surrounded by dogs, cats, sheep, horses, cows, goats, and chickens—marshals his experience to offer us a deeper insight into animals and the tools needed for effectively communicating with them. Devoting each chapter to a specific animal from his life, Katz tells funny and illuminating stories about his profound experiences with them, showing us how healthy engagement with animals falls into five key areas: Food, Movement, Visualization, Language, and Instincts. Along the way, we meet Simon the donkey who arrives at Katz’s farm near death and now serves as his Tai Chi partner. We meet Red the dog who started out antisocial and untrained and is now a therapy dog working with veterans from Iraq and Afghanistan. And we meet Winston, the dignified and brave rooster who was injured defending his hens from a hawk and who has better interpersonal skills than most humans. Thoughtful and intelligent, lively and powerful, this book will completely change the way you think about and interact with animals. Katz’s “honest, straightforward, and sometimes searing prose will speak to those who love animals, and might well convert some who do not” (Booklist).

Metaphysical Animals Clare Mac Cumhaill, Rachael Wiseman, 2023-10-24 A NEW YORK TIMES BOOK REVIEW BEST BOOK OF THE YEAR • A vibrant portrait of four college friends—Iris Murdoch, Philippa Foot, Elizabeth Anscombe, and Mary Midgley—who formed a new philosophical tradition while Oxford's men were away fighting World War II. The history of European philosophy is usually constructed from the work of men. In *Metaphysical Animals*, a pioneering group biography, Clare Mac Cumhaill and Rachael Wiseman offer a compelling alternative. In the mid-twentieth century Elizabeth Anscombe, Mary Midgley, Philippa Foot, and Iris Murdoch were philosophy students at Oxford when most male undergraduates and many tutors were conscripted away to fight in the Second World War. Together, these young women, all friends, developed a philosophy that could respond to the war's darkest revelations. Neither the great Enlightenment thinkers of the past, the logical innovators of the early twentieth century, or the new Existentialist philosophy trickling across the Channel, could make sense of this new human reality of limitless depravity and destructive power, the women felt. Their answer was to bring philosophy back to life. We are metaphysical animals, they realized, creatures that can question their very being. Who am I? What is freedom? What is human goodness? The answers we give, they believed, shape what we will become.

Written with expertise and flair, *Metaphysical Animals* is a lively portrait of women who shared ideas, but also apartments, clothes and even lovers. Mac Cumhaill and Wiseman show how from the disorder and despair of the war, four brilliant friends created a way of ethical thinking that is there for us today.

Wild Animals I Have Known Ernest Thompson Seton, 2017-11-16 'The most precious book of my childhood' – Sir David Attenborough Meet Old Lobo, a gigantic grey wolf whose death-defying predations on sheep and cattle herds are the scourge of farmers and ranchers in the Currumpaw region of northern New Mexico. This great wolf is just one of the animals whose true stories come to life in this engrossing collection of tales by the celebrated naturalist Ernest Thompson Seton (1860-1946). Combining scientific observations of animals in their natural habitats with a romantic vision of nature and the narrative skills of a born storyteller, Seton created an extraordinary collection of tales that gave the animal story new force and believability as a literary genre. Critically and popularly acclaimed upon its initial appearance in 1898, *Wild Animals I Have Known* remains, more than a century later, the best-known and best-loved of his works. Each tale focuses on an individual creature: the clever crow, Silverspot; Raggybug, a young cottontail rabbit; the author's errant hound, Bingo; Redruff, a Don Valley partridge; a wild horse known as The Mustang; Vixen, The Springfield Fox; and Wully, faithful sheep dog by day and treacherous killer by night. Seton offers affectionate but realistic portraits of each animal, stressing the commonality between his subjects and their human neighbours. In addition to his popular wildlife stories, the author is well known for his work as an illustrator and painter. This edition faithfully reproduces the layout of the original volume, as well as all 200 of the author's distinctive illustrations. Animal lovers, environmentalists, naturalists, and any reader who appreciates a lively yarn will cherish this memorable wildlife classic.

Saving Animals Elan Abrell, 2021-05-04 A fascinating and unprecedented ethnography of animal sanctuaries in the United States In the past three decades, animal rights advocates have established everything from elephant sanctuaries in Africa to shelters that rehabilitate animals used in medical testing, to homes for farmed animals, abandoned pets, and entertainment animals that have outlived their "usefulness." *Saving Animals* is the first major ethnography to focus on the ethical issues animating the establishment of such places, where animals who have been mistreated or destined for slaughter are allowed to live out their lives simply being animals. Based on fieldwork at animal rescue facilities across the United States, Elan Abrell asks what "saving," "caring for," and "sanctuary" actually mean. He considers sanctuaries as laboratories where caregivers conceive and implement new models of caring for and relating to animals. He explores the ethical decision making around sanctuary efforts to unmake property-based human-animal relations by creating spaces in which humans interact with animals as autonomous subjects. *Saving Animals* illustrates how caregivers and animals respond by cocreating new human-animal ecologies adapted to the material and social conditions of the Anthropocene. Bridging anthropology with animal studies and political philosophy, *Saving Animals* asks us to imagine less harmful modes of existence in a troubled world where both animals and humans seek sanctuary.

100 Grumpy Animals Beast Flaps, 2020-04-21 #1 AMAZON BESTSELLER. WARNING: THIS IS NOT A CHILDREN'S BOOK. *100 Grumpy Animals* by BeastFlaps. It was only the first week of the new year, and I was already fed up and grumpy. I had a pile of paperwork to sort through, a backlog of work to get done and more than a few bills to pay. I was asked to stop everything and urgently draw a cute greeting card for a friend (as a favour... of course) and before I knew it I had drawn an angry duckling saying QUACK F***ING QUACK. It made me laugh out loud and I shared it online. It quickly became apparent that it was making a few other people smile too, and so a promise was made. No matter what else life would bring in 2020, I would set aside enough time each day to draw and post a daily grumpy animal. This book is the unstoppable force of 100 days of grumpy animal drawings.
