Animation Behind the Iron Curtain Eleanor Cowen, 2020-09-22 Animation Behind the Iron Curtain is a journey of discovery into the world of Soviet era animation from Eastern Bloc countries. From Jerzy Kucia's brutally exquisite Reflections in Poland to the sci-fi adventure of Ott in Space by Estonian puppet master Elbert Tuganov to the endearing Gopo's little man by Ion Popescu-Gopo in Romania, this excursion into Soviet era animation brings to light magnificent art, ruminations on the human condition, and celebrations of innocence and joy. As art reveals the spirit of the times, animation art of Eastern Europe during the Cold War, funded by the Soviet states, allowed artists to create works illuminating to their experiences, hopes, and fears. The political ideology of the time ironically supported these artists while simultaneously suppressing more direct critiques of Soviet life. Politics shaped the world of these artists who then fashioned their realities into amazing works of animation. Their art is integral to the circumstances in which they lived, which is why this book combines the unlikely combination of world politics and animated cartoons. The phenomenal animated films shared in this book offer a glimpse into the culture and hearts of Soviet citizens who grew up with characters as familiar and beloved to them as Mickey Mouse and Bugs Bunny are to Americans. This book lays out the basic political dynamics of the Cold War and how those political tensions affected the animation industry in both the US and in the Eastern Bloc. And, for animation novices and enthusiasts alike, Animation Behind the Iron Curtain also offers breakout sections to explain many of the techniques and aesthetic considerations that go into this fascinating art form. This book is a must read for anyone interested in the Cold War era and really cool animated films!

Animation in the Middle East Stefanie van de Peer, 2017-02-27 The internationally acclaimed films Persepolis and Waltz with Bashir only hinted at the vibrant animation culture that exists within the Middle East and North Africa. In spite of censorship, oppression and war, animation studios have thrived in recent years - in Egypt, Iran, Iraq, Lebanon, Morocco, Palestine, Syria and Turkey - giving rise to a whole new generation of entrepreneurs and artists. The success of animation in the Middle East is in part a product of a changing cultural climate, which is increasingly calling for art that reflects politics. Equally, the professionalization and popularization of film festivals and the emergence of animation studios and private initiatives are the results of a growing consumer culture, in which family-friendly entertainment is big business. Animation in the Middle East uncovers the history and politics that have defined the practice and study of animation in the Middle East, and explores the innovative visions of contemporary animators in the

region.

Animated Mischief Brian N. Duchaney, David S. Silverman, 2023-09-21 Over the last century, the medium of animation has served as an expression of childhood as well as a method of subverting the expectations of what society has promised for the future. Separated into three parts, this work assembles various explorations of taste, culture and passion through animation. Section I features essays that outline the historical changes in art and society that gave rise to an outsider culture that found a home in animation. In the second section, essays examine the practical use of animation as a voice for the underserved. Finally, in Section III, essays analyze the ways in which animation has reshaped the acceptance of outsider status to embrace otherness. Featuring everything from feature-length films to self-produced YouTube videos, the essays in this text reflect a shared love of animation and its unique ability to comment on society and culture.
