Exchanges and Parallels between Italy and East Asia Gaoheng Zhang,2019-12-18 This collection of essays is the first English-language study to present the latest research on Italy's cultural relationships with China and Japan across the centuries. It explores topics ranging from travel writing to creative arts, from translation to religious accommodation, and from Cold War politics to Chinese American cuisine. The volume draws on the expertise of an interdisciplinary group of scholars trained and working in Europe, East Asia, and North America who re-assess research foci and frames, showcase transcultural and theoretically-informed research, and help to strengthen this field of study.

Japanese Animation in Asia Marco Pellitteri,Wong Heung-wah,2021-09-28 Anime is a quintessentially Japanese form of animation consisting of both hand drawn and computer-generated imagery, and is often characterised by colourful graphics, vibrant characters, and fantastical themes. As an increasingly globalising expression of popular art and entertainment, and distributed through cinema, television, and over the internet, anime series and films have an enormous following, not only in Japan but also in Asia. This book provides a comprehensive survey of the historical development, industrial structure, and technical features of Japanese animation and of the overall dynamics of its globalisation in key contexts of the Asian region. Specific chapters cover anime's production logics, its features as an 'emotion industry', and the involvement of a range of Asian countries in the production, consumption, and cultural impact of Japanese animation.

I mondi di Miyazaki AA. VV.,2023-11-17T00:00:00+01:00 Questa nuova edizione di I mondi di Miyazaki si arricchisce di un saggio sull'ultimo lavoro realizzato dal maestro dell'animazione, Il ragazzo e l'airone (2023), che analizza il film sia dal punto di vista estetico sia da quello della sua storia produttiva e distributiva. Il volume si compone inoltre di saggi, scritti da studiosi ed esperti di animazione e di cinema giapponese, che intrecciano e sviluppano i principali temi messi in campo dalle pellicole di Miyazaki Hayao durante tutta la sua carriera. Dal concetto di ucronia a un'analisi storica di Principessa Mononoke, dal significato della tecnica al rapporto fra natura e scienza in Si alza il vento, fino a uno studio sulle musiche di Hisaishi Joe. Completano questa edizione contributi che affrontano due manga realizzati da Miyazaki, Nausicaä della Valle del vento e Il viaggio di Shuna.

A come Ateotaku - Perché gli otaku dovrebbero essere atei e anticlericali Francesco Avella,2015-02-09 Molte critiche e censure ai danni di anime e manga si basano sulla difesa di quei valori religiosi che, se venissero rispettati, decreterebbero la fine dell'animazione giapponese così come la conosciamo: anime ecchi, yaoi e yuri verrebbero aboliti a prescindere, idem per la violenza e le scelte morali discutibili, per non parlare dei contenuti che hanno a che fare con la magia e dunque con l'occultismo che, da solo, già porta anime e manga ad essere considerati satanici. Quindi, gli otaku italiani dovrebbero prendere le distanze dalle religioni e diventare, se non proprio atei, almeno anticlericali, per le stesse ragioni che li portano ad andare contro i sedicenti esperti della crescita e le misconosciute associazioni di genitori che prendono di mira le opere nipponiche (guarda caso, spesso rifacendosi proprio ai valori cristiani). Nel libro vengono consigliati anche anime con protagonisti atei e contenuti contro la religione, in quanto l'autore, essendo un ateotaku (ateo e otaku), spera anche di far avvicinare i lettori atei all'animazione giapponese.

Satoshi Kon AA. VV.,2021-05-06T00:00:00+02:00 Dietro all'opera di Satoshi Kon, scomparso ad appena 47 anni, si nasconde un universo stratificato di forme, riflessioni, visioni immaginifiche. Con pochi titoli in veste di regista, Kon ha saputo incidere in maniera indelebile sul modo di concepire e raccontare il cinema contemporaneo. Perfect Blue, Millennium Actress, Tokyo Godfathers, Paprika e, naturalmente, la serie Paranoia Agent rivelano un autore maturo, capace di muoversi liberamente nel territorio sottile e mastodontico che si attesta fra reale e onirico. In questo volume, ricco di firme prestigiose, si ripercorre l'intera carriera di Kon, da quella fumettistica a quella di animatore e sceneggiatore, fino ai titoli che lo hanno consacrato come autore in grado di ispirare registi quali Christopher Nolan e Darren Aronofsky e di ridefinire il concetto stesso di visione. Un viaggio attraverso lo specchio del cinema.

The Book of Human Insects Osamu Tezuka,2017-08-09 Toshiko Tomura is a genius; the darling of the intelligentsia. A modern-day Michelangelo, this twenty year-old is already an established international stage actress, an up-and-coming architect, and the next recipient of the prestigious Akutagawa Prize as Japan's best new writer. Her actions make headlines in the papers, and inspire radio and television programming. And like many great talents, her troubled past is what motivates her to greatness. She has the amazing ability to emulate the talents of others. Toshiko is also the mastermind behind a series of murders. The ultimate mimic, she has plagiarized, blackmailed, stolen and replicated the works of scores of talents. And now as her star is rising within the world of the elites and powerful she has amassed a long list of enemies frustrated by the fact that she has built critical and financial acclaim for nothing more than copying others' work. Neglected as a child, she is challenging the concepts of gender inequality while unleashing her loneliness upon the world as she climbs the social ladder one body at a time. One of Osamu Tezuka's most wicked tales, The Book of Human Insects renders the 70's as a brutal and often polarizing bug-eat-bug world, where only those willing to sell their soul to the masses and become something less than human are capable of achieving their wildest dreams

Generazione Goldrake Marco Teti,2018-07-13T00:00:00+02:00 Il libro esamina la storia e l'estetica del disegno animato giapponese degli anni

Ottanta. La metodologia di studio che viene applicata è di tipo pragmatico, cioè attenta alla relazione istituita dall’animazione giapponese con un pubblico sempre più internazionale composto in prevalenza da adolescenti. Si desidera esaminare in particolare il funzionamento delle serie giapponesi a disegni animati sul piano semiotico e i meccanismi di natura psicologica che esse sono capaci di attivare nello spettatore. L’indagine portata avanti tiene soprattutto conto degli ampi e significativi fenomeni sociali e culturali che condizionano il rapporto al contempo comunicativo e affettivo stabilito dalle serie animate nipponiche con il proprio pubblico. Questi fenomeni riguardano l’universo giovanile e l’intera società nipponica degli anni Ottanta.

Confini, identità, appartenenze Angela Fabris,Ilvano Caliaro,2020-12-16 The studies gathered in this volume analyze, in authors from Italy, Austria, Slovenia, Croatia, and neighboring territories, the complex relation between identity and borders, namely those between languages and cultures, that can cut through one single territory. We are looking at identities made of different layers and elements, blurred and oppressed, and constantly forced to redefine themselves, in dialog with one another.

Last night a subber saved my life Simone Laudiero,2013-04-22 Last night a subber saved my life - Dalle serie Tv ai sottotitoli è un reportage che indaga quello che, ultimamente, è diventato un vero e proprio fenomeno di costume: le serie televisive. Oggi in rete si trovano produzioni, spesso made USA, di gran lunga migliori dell’intera offerta dei 300 e più canali del digitale terrestre. Ed è facilissimo seguirle, perché i subbers, i sottotitolatori, nottetempo, smanettano per farcele comprendere in italiano. Con il loro preziosissimo lavoro, i subbers hanno promosso un vero e proprio cambiamento di costume nel modo di guardare la Tv: è infatti cresciuto a dismisura il numero di persone che siedono davanti allo schermo di un pc invece che al televisore. In questo libro Simone Laudiero indaga su cosa, e soprattutto chi, sta dietro al funsubbing. Un reportage divertente sul microcosmo dei sottotitoli, che ci svela chi sta dietro a nickname come Zefram, Debug o LordThul, divenuti familiari per la maggior parte di noi, che siamo sempre a caccia dell'ultima puntata di Breaking Bad e Game of Thrones.
