Unqualified Anna Faris,2018-10-02 A hilarious, honest memoir—combined with just the right amount of relationship advice—from the popular actress and host of the hit podcast Anna Faris is Unqualified. Anna Faris has advice for you. And it's great advice, because she's been through it all, and she wants to tell you what she's learned. After surviving an awkward childhood (when she bribed the fastest boy in the third grade with ice cream), navigating dating and marriage in Hollywood, and building a podcast around romantic advice, Anna has plenty of lessons to share: Advocate for yourself. Know that there are wonderful people out there and that a great relationship is possible. And, finally, don't date magicians. Her comic memoir, Unqualified, shares Anna's candid, sympathetic, and entertaining stories of love lost and won. Part memoir—including stories about being “the short girl” in elementary school, finding and keeping female friends, and dealing with the pressures of the entertainment industry and parenthood—part humorous, unflinching advice from her hit podcast, Anna Faris Is Unqualified, the book will reveal Anna's unique take on how to master the bizarre, chaotic, and ultimately rewarding world of love. Hilarious, honest, and useful, Unqualified is the book Anna's fans have been waiting for.

The Indigenous Identity of the South Saami Håkon Hermanstrand,Asbjørn Kolberg,Trond Risto Nilssen,Leiv Sem,2019-02-01 This open access book is a novel contribution in two ways: It is a multi-disciplinary examination of the indigenous South Saami people in Fennoscandia, a social and cultural group that often is overlooked as it is a minority within the Saami minority. Based on both historical material such as archaeological evidence, 20th century newspapers, and postcard motives as well as current sources such as ongoing land-right trials and recent works of historiography, the articles highlight the culture and living conditions of this indigenous group, mapping the negotiations of different identities through the interaction of Saami and non-Saami people through the ages. By illuminating this under-researched field, the volume also enriches the more general debate on global indigenous history, and sheds light on the construction of a Scandinavian identity and the limits of the welfare state and the myth of heterogeneity and equality.

**Women, Business and the Law 2021** World Bank,2021-04-05 Women, Business and the Law 2021 is the seventh in a series of annual studies measuring the laws and regulations that affect women's economic opportunity in 190 economies. The project presents eight indicators structured around women's interactions with the law as they move through their lives and careers: Mobility, Workplace, Pay, Marriage, Parenthood, Entrepreneurship, Assets, and Pension. This year's report updates all indicators as of October 1, 2020 and builds evidence of the links between legal gender equality and women's economic inclusion. By examining the economic decisions women make throughout their working lives, as well as the pace of reform over the past 50 years, Women, Business and the Law 2021 makes an important contribution to research and policy discussions about the state of women's economic empowerment. Prepared during a global pandemic that threatens progress toward gender equality, this edition also includes important findings on government responses to COVID-19 and pilot research related to childcare and women's access to justice.

*Access Denied* Ronald Deibert, John Palfrey, Rafal Rohozinski, Jonathan Zittrain, 2008-01-25 A study of Internet blocking and filtering around the world: analyses by leading researchers and survey results that document filtering practices in dozens of countries. Many countries around the world block or filter Internet content, denying access to information that they deem too sensitive for ordinary citizens—most often about politics, but sometimes relating to sexuality, culture, or religion. *Access Denied* documents and analyzes Internet filtering practices in more than three dozen countries, offering the first rigorously conducted study of an accelerating trend. Internet filtering takes place in more than three dozen states worldwide, including many countries in Asia, the Middle East, and North Africa. Related Internet content-control mechanisms are also in place in Canada, the United States and a cluster of countries in Europe. Drawing on a just-completed survey of global Internet filtering undertaken by the OpenNet Initiative (a collaboration of the Berkman Center for Internet and Society at Harvard Law School, the Citizen Lab at the University of Toronto, the Oxford Internet Institute at Oxford University, and the University of Cambridge) and relying on work by regional experts and an extensive network of researchers, *Access Denied* examines the political, legal, social, and cultural contexts of Internet filtering in these states from a variety of perspectives. Chapters discuss the mechanisms and politics of Internet filtering, the strengths and limitations of the technology that powers it, the relevance of international law, ethical considerations for corporations that supply states with the tools for blocking and filtering, and the implications of Internet filtering for activist communities that increasingly rely on Internet technologies for communicating their missions. Reports on Internet content regulation in forty different countries follow, with each two-page country profile outlining the types of content blocked by category and documenting key findings. Contributors Ross Anderson, Malcolm Birdling, Ronald Deibert, Robert Faris, Vesselina Haralampieva [as per Rob Faris], Steven Murdoch, Helmi Noman, John Palfrey, Rafal Rohozinski, Mary Rundle, Nart Villeneuve, Stephanie Wang, Jonathan Zittrain

Twitter and Tear Gas Zeynep Tufekci, 2017-05-16 A firsthand account and incisive analysis of modern protest, revealing internet-fueled social movements' greatest strengths and frequent challenges To understand a thwarted Turkish coup, an anti-Wall Street encampment, and a packed Tahrir Square, we must first comprehend the power and the weaknesses of using new technologies to mobilize large numbers of people. An incisive observer, writer, and participant in today's social movements, Zeynep Tufekci explains in this accessible and compelling book the nuanced trajectories of modern protests—how they form, how they operate differently from past protests, and why

they have difficulty persisting in their long-term quests for change. Tufekci speaks from direct experience, combining on-the-ground interviews with insightful analysis. She describes how the internet helped the Zapatista uprisings in Mexico, the necessity of remote Twitter users to organize medical supplies during Arab Spring, the refusal to use bullhorns in the Occupy Movement that started in New York, and the empowering effect of tear gas in Istanbul's Gezi Park. These details from life inside social movements complete a moving investigation of authority, technology, and culture—and offer essential insights into the future of governance.

Rock What You've Got Katherine Schwarzenegger, 2010-09-14 From Katherine Schwarzenegger comes ROCK WHAT YOU'VE GOT, a hip, empowering, get-real guide to loving the body you're in. For young women today, developing a healthy body image can be a challenge. Yet Katherine Schwarzenegger has done just that. She has been there . . . and back, and has come not only to accept but to love her curvy, powerful, smart, sexy, and happy self. She wants to help other girls do the same—recognize their own beauty, both inside and out. An estimated 8 million Americans have an eating disorder. Seven million of those are young women, and more and more of them are girls. Girls are increasingly growing dissatisfied with their bodies, trying to change them and fit into some image or mold of perfection that is impossible to achieve. Where are they getting this from? The answer is clear: their moms,

sisters, friends, frenemies, television, movies, magazines, and every other media outlet imaginable. When you open a magazine or watch a movie, what kind of girls do you see? Skinny ones! Impossibly perfect girls with immaculate bodies. Everywhere they look, girls are inundated with carefully airbrushed, highly inaccurate images of the female body. It's no wonder they feel something's wrong with them! In this down-to-earth, reassuring, and fun book, Katherine calls for a new way of seeing what is beautiful. Packed with informative facts, moving personal anecdotes from Katherine's life, and the voices of other Rock What You've Got women, her book celebrates the female form, whatever the size, and inspires girls to ROCK WHAT YOU'VE GOT!

**World War I on Film** Paul M. Edwards, 2016-03-28 One of the central events of modern history, World War I has been poorly presented in English language films. Torn between the powerful isolationist movement in the U.S. and a growing hatred of the Hun, contemporary films were mainly propaganda calling citizens to arms. The American film industry used the outbreak of the war and the government's interest in promoting patriotic sacrifice as a means to expand and take the lead in the film industry worldwide. More a business model than an art form, these early efforts claimed a place of respectability for film among the arts. Twenty years later, though films produced about the war were few, they were technically superior and generally carried conflicting messages about the war's mission and value, while focusing more on storyline than history. This study of English Language World War I films examines nearly 350 films from 1914 to 2014. Descriptions and critiques of each of the films are included, with stories and details about the actors and directors.
