Would Somebody Please Send Me to My Room! Bob Schwartz, 2005 Bob Schwartz reminds us of the necessity, no matter how harried or confusing things are, to appreciate the humor in the day-to-day nature of family life. Bob gives parents a reason to laugh as he navigates the unexpected twists and turns of parenthood every mom and dad has experienced - such as that feeling of panic when you hear the toilet being flushed and immediately followed by your child's less than reassuring yell of Uh-oh! Or the admonition to your five-year-old of, No, you can't have the leftover cotton candy for breakfast, even if you do pour milk over it. Perhaps parents also need the reassurance that Bob offers. In looking back on his initial years of parenthood, Bob writes, There was one word that sprang to mind - Naive. That's French for 'Buddy, you don't even have a clue.' If you, like Bob, are entirely clueless at the beginning of parenthood, there's hope for the future. For while imparting crucial information to his children like the shower curtain goes inside the bathtub; don't put marbles into the garbage disposal, and it's not a great idea to see how many peas you can stick up your nose, Bob did learn things like how to navigate the challenging world of school carpool pickup without infuriating the power hungry fifth grade Safety Patrol. And you, like Bob, might also make some headway with the linguistic parental challenge of cracking the grunt communication code of teenagers. Bob Schwartz tackles these problems and more. He tells us that the purpose of his essays is to have us embrace the humor of parenthood and the fun of family life. Let laughter be the fuel for this thrilling, and yes indeed, sometimes pandemonium-producing journey. Book jacket.

The Trainable Cat John Bradshaw, Sarah Ellis, 2016-09-13 A New York Times Bestseller I have to hand it to Bradshaw and Ellis: Once you suss out their basic cat-training philosophy, their methods totally work. --Slate We often assume that cats can't be trained, and don't need to be. But in *The Trainable Cat*, bestselling anthrozoologist John Bradshaw and cat expert Sarah Ellis show that cats absolutely must be trained in order to enrich the bond between pet and owner. Full of training tips and exercises--from introducing your cat to a new baby to helping them deal with visits to the vet--*The Trainable Cat* is the essential cat bible for cat owners and lovers. I doubt you'll find a more well-informed or scientific book on cats that better shows you how feline thinking works.--Times (UK)

The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language "Good reading for dog lovers and an immensely useful manual for dog owners."—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how "man's best friend" might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to "get dominance" over your dog can cause problems • Why "rough and tumble primate play" can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than "alpha wanna-bes!" Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of

relationships.

The Big Tow: An Unlikely Romance Ann McMan, 2020-10-13 Welcome to the National Recovery Bureau, where your assets are as sacred as God's holy word. Vera "Nick" Nicholson is an overtaxed and underpaid attorney wasting away on the bottom rung of the gilded ladder at Turner, Witherspoon, Anders, and Tyler in Winston-Salem, NC. When a high-priced luxury car belonging to one of the firm's top clients goes missing, Nick gets saddled with the unenviable job of recovering the vehicle—and its mysterious contents—without involving the cops. Enter Fast Eddie and his quirky band of misfits at The National Recovery Bureau, a repo agency located in a sleepy town called K-Vegas. When Nick is unceremoniously furloughed from TWAT, she throws caution to the wind and signs on to become the newest agent of the NRB, teaming up with moonlighting third-grade schoolteacher, Frances "Frankie" Stohler. Frankie's mortician father and beautician mother are stalwarts of the Winston-Salem community—so it's no surprise that everyone across three counties has some connection to her family. What is surprising, however, is the Slim Jim Frankie carries in her purse and her preternatural talent for jacking cars. Nick and Frankie's stumbling entrée into the surreal world of asset recovery takes them on a hilarious, fast-paced, and mind-bending journey across the back roads and byways of the Tar Heel state, setting into motion a chain of misadventures that lead them both toward financial independence, cataclysmic legal jeopardy, and the discovery that true love can sometimes lurk in the most unlikely places. Repo romance might not be a genre, but two-time Lambda Literary Award-winner McMan makes a case that it should be with this delicious and hilarious fever-dream of a novel. —Publisher's Weekly (Starred Review)

The Origin of Consciousness in the Breakdown of the Bicameral Mind Julian Jaynes, 2000-08-15 National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, The New Yorker "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—American Journal of Psychiatry
