**The Threat** Lilia Giugni,2022-11-17 Why has the digital revolution been damaging for so many women? And what can be done about it?The Threat explores today's digital capitalism through the prism of the women who are harmed by it globally. Some of them are victimised through digital devices. Others are exploited while producing them. And some don't even have access to the Internet, but are brutally raped in wars funded by the minerals that make our tablets work. With the help of individuals' stories and interviews, activist and academic Dr Lilia Giugni explores how millions of women across the world are violated, exploited and marginalised due to processes of technological change. She unpacks the tight intersections between technology, patriarchy and capitalism - exposing the profit-driven market in which our digital devices are designed and built, and the patriarchal society that shapes who gets to use them and how. Above all, Lilia Giugni gives us very practical ideas to help us take back the tech: turning technology into a truly emancipatory force and a leverage to create a better and more just future for women and for all. 'A brilliant and engaging exposé of how the forces of capitalism and patriarchy penetrate our digital world - and what women can do to fight back.' Hannah Jewell, author of ;100 Nasty Women of History

**Effetto digitale. Le nuove professioni, gli strumenti e il Personal Branding** Boscaro,Porta,2015  
Theories of the Mobile Internet Andrew Herman,Jan Hadlaw,Thom Swiss,2014-11-27 This volume proposes the mobile Internet is best understood as a socio-technical assemblage of objects, practices, symbolic representations, experiences and affects. Authors from a variety of disciplines discuss practices mediated through mobile communication, including current phone and tablet devices. The converging concepts of Materialities (ranging from the political economy of communication to physical devices) and Imaginaries (including cultural values, desires and perceptions) are touchstones for each of the chapters in the book.

**Porro Carmine - Microsoft** Porro Carmine,2016-03-28 Microsoft  
**Digital Love** Raimondo Aiello,Rossella Dolce,Fiorenzo Pilla,2018-05-04 Le evoluzioni nelle modalità di comunicazione e il rapido sviluppo delle tecnologie di socialità digitale hanno caratterizzato l’ultimo ventennio producendo, al contempo, nuove risorse e nuovi canali dedicati sia al mondo delle relazioni sentimentali che alle diverse galassie della sessualità. Incontrarsi, conoscersi, innamorarsi, fare sesso, sono attività che sempre più ricerchiamo e viviamo al confine tra il piano fisico e l’universo virtuale con il naturale e cospicuo bagaglio di domande e dubbi che questa dualità porta con sé.Cosa sono e come funzionano Tinder e le altre app per appuntamenti? È possibile innamorarsi online? Quali possono essere le conseguenze dello spiare lo smartphone o le mail del proprio partner?A questi ed altri interrogativi gli autori provano a fornire una risposta che, attraverso un approccio basato su ricerca e analisi di casi concreti, risulti per il lettore esauriente e, al tempo stesso, accessibile.

Renard Alessi,2021-06-30 Il bianco e il nero si fondono in un unico testo, da dover scrivere insieme. Lascio la penna digitale al lettore, per poter scegliere il colore in cui meglio specchiarsi, senza dimenticare, che sta nella differenza la corretta visione. Osserveremo insieme, alcune delle tempeste statunitensi, venezuelane, cubane, brasiliane, africane, australiane, che hanno scosso, in un lampo, le vite di persone comuni e di chi per trovare rifugio, le combatte. Il celebre rapper Tupac Shakur, di cui nel 2021 si ricordano i 50 anni dalla nascita e i 25 anni dall'assassinio, in una delle sue ultime poesie, mai pubblicate: Lost Soulz, scriveva: in ginocchio imploro Dio, per salvarmi da questo destino, fammi vedere cosa c'era d'oro in me, prima che sia troppo tardi, alcuni di loro, raccogliendo il suo messaggio diventeranno i rapper più controversi della musica e riscriveranno insieme un nuovo cammino. Possiamo parlare di coincidenze, ma dopo esattamente 25 anni Suor Ann Rose, si inginocchiava in Myanmar e fermava la violenza della guerra civile per un solo giorno, insegnando a chi ignora, che non ci sarà luogo al mondo, dove potrà nascondersi, dalla sue responsabilità. Vi presento: Violenza Cieca.Renard Alessi

L'Era della Persuasione Tecnologica ed Educazione all'Uso della Tecnologia Francesco Galgani, Abstract Le idee, le consuetudini e i comportamenti degli individui sono condizionati dal rapporto reciproco tra tecnologia e norma sociale, che a sua volta è influenzata dalle regole di mercato e dall’azione delle grandi corporation: tali fattori si influenzano reciprocamente e sono a loro volta in relazione con il sistema socio-economico nel suo complesso. Oggi i comportamenti dell’essere umano sono condizionati dalla tecnologia della “iperconnessione” (tutto e tutti connessi in Rete sempre), che è sia persuasiva, cioè in grado di influenzare, se non addirittura determinare, idee e comportamenti, sia pervasiva, nel senso che tende a diffondersi in modo penetrante, così da prevalere e dominare nelle vite individuali, nelle relazioni sociali, nel lavoro, nell’economia e nella politica. Il presente elaborato, basato sull’analisi dei dati ottenuti tramite un'estesa raccolta bibliografica, è focalizzato sugli aspetti persuasivi e pervasivi dell'attuale sviluppo tecnologico, individuando come area di intervento per le conseguenze negative delle problematiche riscontrate un certo modello di educazione all'uso della tecnologia. Nel complesso, la stesura di questa ricerca ha richiesto l'adozione di un approccio interdisciplinare, che vede coinvolti vari settori, come la psicologia, la sociologia, l'economia, le politiche internazionali, l'antropologia, la filosofia del diritto, la medicina, le scienze della comunicazione, la pedagogia, le scienze e le tecnologie informatiche. Particolare attenzione è stata posta alla vita di chi ha sempre con sé lo smartphone. Il primo capitolo presenta i risvolti pervasivi della tecnologia nella vita quotidiana, analizza precise statistiche sulla diffusione di Internet e delle connessioni in mobilità, e definisce il concetto di “persuasione” operata tramite le tecnologie. Il secondo capitolo analizza alcuni principi psicologici e sociali su cui si basa l'attuale persuasione e invasione tecnologica. Il terzo capitolo riguarda l'educazione all'uso della tecnologia, con particolare attenzione all'uso dello smartphone: gli studi e le ricerche presentati offrono un serio ammonimento per gli educatori, con indicazioni in controtendenza rispetto agli umori della società e alla corrente dei tempi. Il quarto capitolo affronta gli aspetti etici collegati alla persuasione tecnologica, per poi concludere con una sintesi dei temi esposti e con un invito, rivolto in particolare ai giovani, a “liberarsi dalla tecnocrazia”, nel senso di diventare padroni della tecnologia piuttosto che esserne dominati.

**L'origine del mondialismo** Luigi Cocola,2018-05-26 Terza raccolta di post dal Blog di Luigi Cocola - Per un nuovo Risorgimento 3° edizione
