Antarctic Adventure; Scott's Northern Party Raymond Edward Priestley,2013-09 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1915 edition. Excerpt: ... CHAPTER X Dep6t Journey To The West Preparing pemmican--An alarm of fire--Fire-bars found in the chimney--The two-decker --Iron runners a success on sea ice --Our clothes--Start for the west--Penelope Point--Heavy going in Relay Bay--Magnificent scenery--Ski, and two miles a day --We return from Cape Wood--A concert in the Abbey Cave-- Weddell seals--An area of calms--Levick detained at Warning Glacier by blizzards--A short trip to Warning Glacier at the end of the month--

Narrow escape from loss of a cooker--A gusty blizzard--We return to Cape Adare at the run. Early September was spent preparing two sledges and weighing out food for our forthcoming trip along the west coast of Robertson Bay. The rations taken were much the same as on our last journey, but the work of preparation was a much longer task, because we were taking with us six weeks' provisions. Distinctly the longest job we had was, as before, the powdering of the biscuit which was to go in our hoosh; but though this was really hard work it was not nearly as unpleasant as that of opening the pemmican-tins and extracting their contents. This latter food is evidently prepared in a liquid or semi-liquid state and then poured into round tins, which hold about 12 to 14 oz., and the tins are then hermetically sealed. As we required 84 lb. for this trip there were, therefore, close on a hundred of these tins to deal with, and by the time we had finished our hands, thanks to a thin tin-opener with a metal handle, looked as if we had just received half a dozen cuts with a cane. Each man possessed one or two small blisters on his palm, besides innumerable cuts, which were the more unwelcome as it proved impossible to keep the blood from them out of the pemmican. Our record, timed by...

Alone on the Ice: The Greatest Survival Story in the History of Exploration David Roberts,2013-01-28 Describes the epic journey undertaken by Douglas Mawson, who suffered starvation, the loss of his team, and a crippling foot injury as he resorted to crawling back to base camp during the Australasian Antarctic Expedition of 1913.

Leading at the Edge Dennis N.T. Perkins,Margaret P. Holtman,Paul R. Kessler,Catherine McCarthy,2012-03-28 Drawing on the amazing story of Shackleton and his polar exploration team's survival against all odds, author Dennis N. T. Perkins demonstrates

the importance of a strong leader in times of adversity, uncertainty, and change. Part adventure tale and part leadership guide, *Leading at the Edge* uncovers what the legendary Antarctic adventure of Sir Ernest Shackleton, his ship *Endurance*, and his team of twenty-seven polar explorers can teach us about bringing order to chaos through true leadership. Among other skills, you'll learn how to: instill optimism while staying grounded in reality, step up to risks worth taking, consistently reinforce your team message, set a personal example, find things to celebrate, laugh small things off, and--even in the face of extreme temperatures, hazardous ice, scarce food, and complete isolation--never give up. This second edition of *Leading at the Edge* features additional lessons, new case studies of the strategies in action, tools to uncover and resolve conflicts, and expanded resources. An updated epilogue compares the leadership styles of the famous polar explorers Shackleton, Amundsen, and Scott, which transcend the one-hundred-plus years since their historic race to the South Pole to help today's leaders learn valuable lessons about the meaning of true success.

ER nurse Helena Mathews wants just one thing: to show her parents that she's no longer the fragile, premature baby they cradled in the NICU. So her new South Pole-based job is the perfect way to break free! But Dr. Carter Simpson's arrival proves that you can't just erase the past. Her one-time best friend may have left without a trace after a life-altering discovery, but he never left Helena's heart... "Oh this was just perfect! I loved a good medical romance and Hyland has truly delivered a goodie with *The Pediatrician's Twin Bombshell*! I loved every bit...this was just the type of book that you don't want to put down because it just keeps getting better. If you enjoy a good fast paced medical romance, then this is the book for you!" -Harlequin Junkie "An emotionally intense love story! Juliette Hyland shines once again.... Her characters are richly developed with intriguing back stories and the mix of medical situations with the budding romance is always spot on. Always looking forward to more from this endearing voice. I highly recommend this book to anyone who enjoys a medical setting with complex characters, emotional interactions and a well-deserved happily ever after." -Goodreads on *A Stolen Kiss with the Midwife*

Cruise Tourism in Polar Regions Michael Lück,Patrick T. Maher,Emma J. Stewart,2010 Cruises are the primary form of tourism in the Polar Regions and cruise ship tourism in both the Arctic and Antarctic is expanding rapidly. The industry has moved beyond its infancy, and is now entering a maturing phase with increased

numbers and types of vessels, more demanding routes, and more regular and predictable patterns of activity. The increase in cruise activities, and the associated risks of accidents, as well as the potential and actual impacts of the large numbers of tourists in the polar regions bring with it management challenges for sustainable use of these regions. This book discusses critically the issues around environmental and social sustainability of the cruise industry in Polar Regions. Authors from Canada, USA, Europe, Australia and New Zealand are experts in their respective fields and take an innovative, critical and at times controversial approach to the subject.
