Culture Jamming Marilyn DeLaure, Moritz

Fink, 2017-02-28 A collaboration of political activism and participatory culture seeking to upend consumer capitalism, including interviews with The Yes Men, The Guerrilla Girls, among others. Coined in the 1980s, "culture jamming" refers to an array of tactics deployed by activists to critique, subvert, and otherwise "jam" the workings of consumer culture. Ranging from media hoaxes and advertising parodies to flash mobs and street art, these actions seek to interrupt the flow of dominant, capitalistic messages that permeate our daily lives. Employed by Occupy Wall Street protesters and the Russian feminist punk band Pussy Riot alike, culture jamming scrambles the signal, injects the unexpected, and spurs audiences to think critically and challenge the status quo. The essays, interviews, and creative work assembled in this unique volume explore the shifting contours of culture jamming by plumbing its history, mapping its transformations, testing its force, and assessing its efficacy. Revealing how culture jamming is at once playful and politically transgressive, this accessible collection explores the degree to which culture jamming has fulfilled its revolutionary aims. Featuring original essays from prominent media scholars discussing Banksy and Shepard Fairey, foundational texts such as Mark Dery's culture jamming manifesto, and artwork by and interviews with noteworthy culture jammers including the Guerrilla Girls, The Yes Men, and Reverend Billy, Culture Jamming makes a crucial

contribution to our understanding of creative resistance and participatory culture.

Organ Donation and Transplantation Georgios Tsoulfas, 2018-07-25 One of the most interesting and at the same time most challenging fields of medicine and surgery has been that of organ donation and transplantation. It is a field that has made tremendous strides during the last few decades through the combined input and efforts of scientists from various specialties. What started as a dream of pioneers has become a reality for the thousands of our patients whose lives can now be saved and improved. However, at the same time, the challenges remain significant and so do the expectations. This book will be a collection of chapters describing these same challenges involved including the ethical, legal, and medical issues in organ donation and the technical and immunological problems the experts are facing involved in the care of these patients. The authors of this book represent a team of true global experts on the topic. In addition to the knowledge shared, the authors provide their personal clinical experience on a variety of different aspects of organ donation and transplantation.

A Thesaurus of Women Barbara Joan Zeitz,
Ma, Barbara Joan Zeitz Ma, 2012-02 A Thesaurus of
Women: From Cherry Blossoms to Cell Phones offers
a social presentation of history linking places
with the unfamiliar female faces traced to their
creation. The places, both of long ago and today,
are familiar, famous, and global. This collection
unmasks the hidden faces of the real women linked
to Lady Liberty, Lady Godiva, greenspace, outer
space, refrigeration, relativity, a bus boycott,
computer language, and more. Mysteries of her
histories are hacked open for you to learn of the
women linked to the DNA in your body, OSHA in your
workplace, Social Security in your future, a
bridge in Brooklyn, the Civil Rights March in
Washington, cherry blossoms in DC, and the cell
phone in your hand. A Thesaurus of Women seeks to
provide expansive information in a minimal amount
of time in respect to our busy lifestyles. With
complete citations for further reference, this is
the perfect historical teaser for those who want
to build a base knowledge of women's roles in the
defining moments and discoveries of history as well
as those who want to stay sharp on what they
already know. From politics to athletics, from
Wall Street to Hollywood, women have been vital,
if unrecognized, pioneers and innovators
throughout history. Learn some of their stories in
A Thesaurus of Women From Cherry Blossoms to Cell
Phones.

Selected Papers of Alan Hoffman with Commentary

Alan Jerome Hoffman, Charles A. Micchelli, 2003

Dr Alan J Hoffman is a pioneer in linear programming, combinatorial optimization, and the study of graph spectra. In his principal research interests, which include the fields of linear inequalities, combinatorics, and matrix theory, he and his collaborators have contributed fundamental concepts and theorems, many of which bear their names. This volume of Dr Hoffman's selected papers is divided into seven sections: geometry; combinatorics; matrix inequalities and eigenvalues; linear inequalities and linear programming; combinatorial optimization; greedy algorithms; graph spectra. Dr Hoffman has supplied background commentary and anecdotal remarks for each of the selected papers. He has also provided autobiographical notes showing how he chose mathematics as his profession, and the influences and motivations which shaped his career. Contents: The Variation of the Spectrum of a Normal Matrix (with H W Wielandt); Integral Boundary Points of Convex Polyhedra (with J Kruskal); On Moore Graphs with Diameters 2 and 3 (with R R Singleton); Cycling in the Simplex Algorithm; On Approximate Solutions of Systems of Linear Inequalities; On the Polynomial of a Graph; Some Recent Applications of the Theory of Linear Inequalities of Extremal Combinatorial Analysis; On Simple Linear Programming Problems; Self-Orthogonal Latin Squares (with R K Brayton & D Coppersmith); On the Nonsingularity of Complex Matrices (with P Camion); A Generalization of Max Flow-Min Cut; A Characterization of Comparability Graphs and of Interval Graphs (with P C Gilmore); and 33 other

papers. Readership: Researchers in linear programming and inequalities, combinatorics, combinatorial optimization, graph theory, matrix theory and operations research.

 themselves are the heart of the book, and each one
 has a brief introduction that explains its origins
 and motivation ... The whole is rounded off by a
 twenty-page autobiography, notable for its
 insights into the diverse aspects of the life of a
 professional mathematician, and anecdotes about
 the many interesting people whom Hoffman
 encountered." The London Mathematical Society
 "Each section is well edited along with editorial
 comment. The book is well written and is helpful
 to the younger generation." Zentralblatt MATH
 "Alan's 'Autobiographical notes' are worthwhile by
 themselves and should be required reading for any
 prospective PhD student in a mathematical
 discipline ... The introduction of this book is
 entertaining and thought provoking for anyone in
 mathematics. The papers and commentaries form a
 worthwhile sourcebook for anyone from PhD students
 to professors who is interested in the delightful
 mathematics at the intersection of combinatorics,
 linear algebra, and linear programming." Interfaces
 "These papers are annotated in such a way that the
 reader learns something about Hoffman's motivation

for working on the problems they discuss. We also learn a good deal about Hoffman and his collaborators, and the academic climate in which the papers were written ... This is a fun book to read. Hoffman is a good storyteller and he has many stories. His writing style is fluent and lively ... The book gives a whirlwind tour through a very fascinating career. It shows what a career in mathematics can be if one is both lucky and talented."Mathematical Reviews

ICSGS 2019 Muhammad Syaroni Rofii, Adis Imam Munandar, Danial Mohd. Yusof, 2020-11-13 The International Conference on Strategic and Global Studies is organized by the School of Strategic and Global Studies (SSGS), Universitas Indonesia. The ICSGS conference is an annual meeting event involving lecturers, students and researchers who are concerned with contemporary national and international issues that are directly related to the problems faced by the government and the private sector using a multidisciplinary approach. Participants of this conference came from the ASEAN region and the global network of the Universitas Indonesia.

cGMP: Generators, Effectors and Therapeutic Implications Harald H. H. W. Schmidt, Franz B. Hofmann, Johannes-Peter Stasch, 2008-12-17 After the discovery of endogenous NO formation in the late '80s and the 1998 Nobel Prize in Physiology or Medicine, many researchers and physicians again became interested in the NO/sGC interaction and cGMP-dependent signaling. This book is an enthusiastic celebration of cyclic guanosine monophosphate (cGMP) and amply illustrates the

importance of this field of science to patients and the way in which the field has evolved. It is exclusively devoted to this exciting and important signaling molecule, addressing all recent advances in understanding guanylate cyclase regulation, NO/sGC interactions, cGMP effector mechanisms and their pathophysiological and pharmacological implications. Particular attention will also be given to clinical applications of the novel cGMP-elevating drugs which are on the horizon, thus spanning the continuum from basic science to clinic.

Handbook of Public Pedagogy Jennifer A. Sandlin, Brian D. Schultz, Jake Burdick, 2010-07-29
Bringing together scholars, public intellectuals, and activists from across the field of education, the Handbook of Public Pedagogy explores and maps the terrain of this burgeoning field. For the first time in one comprehensive volume, readers will be able to learn about the history and scope of the concept and practices of public pedagogy. What is 'public pedagogy'? What theories, research, aims, and values inform it? What does it look like in practice? Offering a wide range of differing, even diverging, perspectives on how the 'public' might operate as a pedagogical agent, this Handbook provides new ways of understanding educational practice, both within and without schools. It implores teachers, researchers, and theorists to reconsider their foundational understanding of what counts as pedagogy and of how and where the process of education occurs. The questions it raises and the critical analyses they require provide curriculum and educational workers

and scholars at large with new ways of understanding educational practice, both within and without schools.

Living on a Meme Richard Telofski, 2012-01-31
Living on a Meme - How Anti-Corporate Activists Bend the Truth, and You, to Get What They Want is about the NGOs and activist groups that engage corporations adversarially and how they use meme to further their anti-corporate agendas. Whats meme? Say the word as meeeeeem. The dictionary says that a meme is an idea that spreads from one person to another. And thanks to todays Internet, memes get started, spread, and believed in a flash, whether they are true or not, making them formidable tools for groups that damage company reputations. Here in his fifth book, author Richard Telofski takes an in-depth look at anti-corporate NGOs and activist groups that use memes cleverly to compete with the image of the companies they target. These groups unabashedly use unchallenged memes to bribe people to their side of their anti-corporate argument. Bribe? Yes. By leveraging a meme, these groups bribe people with something, a way to feel better about themselves, often with scant or no support of the meme. Through their meme-mangling, adversarial NGOs and activists can impose undeserved damage on corporate reputations, costing market share, revenue, and jobs, maybe one of them yours. These organizations are truly competitors, not only to the individual corporations that they target, but also to the economic system in general. *Living on a Meme* is compiled from a selection of articles published on Richards Web site, Telofski.com,

between August 1, 2009 through August 3, 2010. But, many of these writings are more essay than article. Within the essays in this book, you'll find insights, theories, as well as specific facts and analysis on how certain NGOs and activist groups operate online and offline to sap companies of their vital reputation. By reading this book, you'll discover how these irregular competitors make use of existing cultural memes, true or not, and how they contribute to those memes, strengthening them and contributing to the degradation of a company's image. Don't worry. This book isn't just a repackaging of blog postings. You're going to get more than that. At the end of each chapter you will find bonus Take-Aways. Those Take-Aways are critical analyses of the essays in the chapter, pointing out for you how what was just discussed relates to an NGO's or activist's reliance of living on a meme or their hope that YOU are living on THEIR meme for them. You'll also find in this book 23 exclusive essays that appear only in this book. So, start your journey now into the understanding of how anti-corporate NGOs and activists bend the truth, and the beliefs of people, to get what they want.

Design Activism Alastair Fuad-Luke, 2013-06-17
Design academics and practitioners are facing a multiplicity of challenges in a dynamic, complex, world moving faster than the current design paradigm which is largely tied to the values and imperatives of commercial enterprise. Current education and practice need to evolve to ensure that the discipline of design meets sustainability drivers and equips students, teachers and

professionals for the near-future. New approaches, methods and tools are urgently required as sustainability expands the context for design and what it means to be a 'designer'. Design activists, who comprise a diverse range of designers, teachers and other actors, are setting new ambitions for design. They seek to fundamentally challenge how, where and when design can catalyse positive impacts to address sustainability. They are also challenging who can utilise the power of the design process. To date, examination of contemporary and emergent design activism is poorly represented in the literature. This book will provide a rigorous exploration of design activism that will re-vitalise the design debate and provide a solid platform for students, teachers, design professionals and other disciplines interested in transformative (design) activism. Design Activism provides a comprehensive study of contemporary and emergent design activism. This activism has a dual aim - to make positive impacts towards more sustainable ways of living and working; and to challenge and reinvigorate design praxis,. It will collate, synthesise and analyse design activist approaches, processes, methods, tools and inspirational examples/outcomes from disparate sources and, in doing so, will create a specific canon of work to illuminate contemporary design discourse. Design Activism reveals the power of design for positive social and environmental change, design with a central activist role in the sustainability challenge. Inspired by past design activists and set against the context of global-local tensions,

expressions of design activism are mapped. The nature of contemporary design activism is explored, from individual/collective action to the infrastructure that supports it generating powerful participatory design approaches, a diverse toolbox and inspirational outcomes. This is design as a political and social act, design to enable adaptive societal capacity for co-futuring.

Women in IT in the New Social Era: A Critical Evidence-Based Review of Gender Inequality and the Potential for Change Bernhardt, Sonja, 2014-03-31 Research and statistics support the view that current programs are failing to keep women in the ICT field. Currently, there exist very few solutions to this growing problem. **Women in IT in the New Social Era: A Critical Evidence-Based Review of Gender Inequality and the Potential for Change** aims to bring this topic to the forefront of discussion about what can be done to correct this lopsided gender distribution. This reference work will be an essential guide for government professionals, students, and researchers in the ICT field looking to develop a solution to equalize the retention rate of women in these related fields.
