*The Globalization of Martyrdom* Assaf Moghadam, 2011-04-01 2009 Outstanding Academic Title, Choice This groundbreaking volume examines the rise and spread of suicide attacks over the past decade. Sorting through 1,270 terror strikes between 1981 and 2007, Assaf Moghadam attributes their recent proliferation to the mutually related ascendance of al Qaeda and its guiding ideology, Salafi Jihad, an extreme interpretation of Islam that rejects national boundaries and seeks to create a global Muslim community. In exploring the roots of the extreme radicalization represented by Salafism, Moghadam finds many causes, including Western dominance in the Arab world, the physical diffusion of Salafi institutions and actors, and the element of opportunity created by the Soviet invasion of Afghanistan. He uses individual examples from the Middle East, Southwest Asia, and Europe to show how the elite leaders of al Qaeda and affiliated groups and their foot soldiers interact with one another and how they garner support—and a growing number of converts and attackers—from the Muslim community. Based on over a decade of empirical research and a critical examination of existing thought on suicide attacks, Moghadam distinguishes the key characteristics separating globalized suicide strikes from the traditional, localized pattern that previously prevailed. This unflinching analysis provides new information about the relationship between ideology and suicide attacks and recommends policies focused on containing Salafi Jihadism.

*A Promised Land* Barack Obama, 2020-11-17 THE #1 SUNDAY TIMES BESTSELLER A riveting, deeply personal account of history in the making—from the president who inspired us to believe in the power of democracy - and the perfect gift this Christmas! 'Gorgeously written, humorous, compelling, life affirming' Justin Webb, Mail on Sunday In the stirring, highly anticipated first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation's highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune's Spear, which leads to the death of Osama bin Laden. *A Promised Land* is extraordinarily intimate and introspective—the story of one man's bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of hope and change, and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama's conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day. 'What is unexpected in *A Promised Land* is the former president's candour' David Olusoga, Observer

Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

*Troubled Partnership* Taylor & Francis Group, 2020-12-18 During World War II, Japanese fighters, such as the famed Zero, were among the most respected and feared combat aircraft in the world. But for decades following the defeat of Japan in 1945, a variety of political and economic factors prevented Japan from developing its own modern national fighter. This changed in the 1980s. Japan began independently developing its first world-class fighter since World War II. After several years of contentious negotiations, the Japanese agreed to work with the United States to cooperatively develop a minimally modified F-16, the FS-X. The new fighter, however,

has evolved into a world-class aircraft developed largely by Japanese industry primarily due to errors committed by the U.S. side. By the fall of 1995, fifty years after the end of World War II, the Zero for the 1990s will have made its first flight, catapulting Japan into the elite ranks of nations capable of developing the most advanced weapon systems. In *Troubled Partnership*, Mark Lorell traces the evolution of the FS-X, disclosing the conflicting economic and security objectives advanced by U.S. officials, the flawed U.S. policy of technology reciprocity, and the challenges of international collaboration. Its deep intimacy with the interplay of policy and economy will make this volume of intense interest to political scientists, military studies specialists, historians, and government officials.

**Islamic Radicalism and Anti-Americanism in Indonesia** Merlyna Lim, 2005 Even before 9/11, radical Islamic fundamentalist groups were using the Internet to reinforce their identities and ideologies, expand their networks, and disseminate information about their activities and their worldviews. Using two case studies from Indonesia—one examining the radical Islamic group Laskar Jihad, and the other looking at the anti-Americanism of post-9/11 Islamic radicalism in the country—this study details how such groups have used the Internet to define themselves, refine and disseminate their messages, and reach new audiences. It also shows how these groups can use the Internet to connect local grievances and narratives of marginalization and oppression with global meta-narratives of conspiracy against Islam to create a wide base of support. However, the two cases also show that these conspiracy meta-narratives—even when spread through the Internet, and even when repeated by traditional media outlets—were not enough to persuade a wide number of Indonesians to mobilize for an actual jihad in the form of a physical war on the conflict-ridden Maluku Islands or elsewhere.

**German Northern Theater of Operations 1940-1945 [Illustrated Edition]** Earl Ziemke, 2015-11-06 [Includes 23 maps and 31 illustrations] This volume describes two campaigns that the Germans conducted in their Northern Theater of Operations. The first they launched, on 9 April 1940, against Denmark and Norway. The second they conducted out of Finland in partnership with the Finns against the Soviet Union. The latter campaign began on 22 June 1941 and ended in the winter of 1944-45 after the Finnish Government had sued for peace. The scene of these campaigns by the end of 1941 stretched from the North Sea to the Arctic Ocean and from Bergen on the west coast of Norway, to Petrozavodsk, the former capital of the Karelo-Finnish Soviet Socialist Republic. It faced east into the Soviet Union on a 700-mile-long front, and west on a 1,300-mile sea frontier. Hitler regarded this theater as the keystone of his empire, and, after 1941, maintained in it two armies totaling over a half million men. In spite of its vast area and the effort and worry which Hitler lavished on it, the Northern Theater throughout most of the war constituted something of a military backwater. The major operations which took place in the theater were overshadowed by events on other fronts, and public attention focused on the theaters in which the strategically decisive operations were expected to take place. Remoteness, German security measures, and the Russians' well-known penchant for secrecy combined to keep information concerning the Northern Theater down to a mere trickle, much of that inaccurate. Since the war, through official and private publications, a great deal more has become known. The present volume is based in the main on the greatest remaining source of unexploited information, the captured German military and naval records. In addition a number of the participants on the German side have very generously contributed from their personal knowledge and experience.

**Undercover Jihadi Bride** Anna Erelle,2016-02-11 Previously published as 'In the Skin of a Jihadist' Twenty-year-old 'Mélodie', a recent convert to Islam, meets the leader of an ISIS brigade on Facebook. In 48 hours he has 'fallen in love' with her, calls her every hour, urges her to marry him, join him in Syria in a life of paradise - and join his jihad. Anna Erelle is the undercover journalist behind 'Melodie'. Created to investigate the powerful propaganda weapons of Islamic State, 'Melodie' is soon sucked in by Bilel, right-hand man of the infamous Abu Bakr al-Baghdadi. An Iraqi for whose capture the US government has promised \$10 million, al-Baghdadi is described by Time Magazine as the most dangerous man in the world and by himself as the caliph of Islamic State. Bilel shows off his jeep, his guns, his expensive watch. He boasts about the people he has just killed. With Bilel impatient for his future wife, 'Melodie' embarks on her highly dangerous mission, which - at its ultimate stage - will go very wrong ... Enticed into this lethal online world like hundreds of other young people, including many young British girls and boys, Erelle's harrowing and gripping investigation helps us to understand the true face of terrorism.

*The Conspirators' Hierarchy* John Coleman,1997 This work argues for the existence of a committee of 300, an elite body which controls every aspect of politics, religion, commerce and industry, answerable to no one except itself. It maintains that the confusion of social and moral values in the free world has been deliberately created.

The People's Liberation Army and Contingency Planning in China Arthur S. Ding,Phillip C. Saunders,Scott W. Harold,2019-02-17 All militaries have a responsibility to plan for contingencies, and China's military, the People's Liberation Army (PLA), is no exception. PLA contingency planning takes place primarily within the General Staff Department's (GSD's) First Department, also known as the GSD Operations Department. China's seven military regions participate in drafting and reviewing the plans relevant to their areas of responsibility, albeit under heavy supervision from the GSD. U.S. joint doctrine defines a contingency as a situation that likely would involve military forces in response to natural and manmade disasters, terrorists, subversives, military operations by foreign powers, or other situations. U.S. doctrine distinguishes between deliberate planning (advance preparation of campaign and contingency plans in non-crisis situations) and crisis action planning (rapid planning in response to a developing incident or situation). Deliberate planning is typically used to develop campaign and contingency plans for a broad range of activities based on requirements identified in strategic guidance for military commanders. Crisis action planning is conducted with less advance warning (hours, days, or up to 12 months) and focuses on developing alternative courses of action or refining existing campaign or contingency plans to adapt to current circumstances. **China's Evolving Surface Fleet** Peter Dutton,Ryan D. Martinson,2017 Over the past fifteen years, the People's Liberation Army Navy's (PLAN's) missile fast-attack craft and amphibious fleets have been significantly modernized. While these two types of vessels have not increased in numbers, their capabilities have increased exponentially. This publication examines the People's Liberation Army's (PLA's) doctrine and training strategy in order to analyze present and predict future missions by these military vessels. China's deterrence posture is improved greatly by these ships and boats, which aid coastal water defense, and threaten Taiwanese attempts to gain independence. In addition, these two fleets improve China's long-range sealift capabilities, and help with the PLA's traditional, and new, nontraditional security practices. These fleets allow the PLAN to continue offshore operations, and begin blue-water, or far-seas operations, helping the United States to predict the future nature of Chinese maritime missions.
