Small Boats, Weak States, Dirty Money Martin N. Murphy, 2009 Many believe that pirates and other water-bound terrorists present a significant threat to international maritime security. Testing the validity of this claim, Martin N. Murphy scrutinizes recent incidents of maritime terrorism and locates the commonalities between pirates and maritime terrorists that enable them to commit their extensive crimes. Murphy's research opens up surprising sites of contact between pirates and wider criminal networks, organizations that pursue their corrupt agendas not only on sea but also on land. It is these relationships, Murphy argues, that bring about the destabilization of states and regions in which piracy occurs. Murphy's most significant revelation is the way in which maritime criminality may disguise insurgent and terrorist activity, allowing such actors greater freedom to maneuver. Although these acts currently rank as a low-level threat, piracy feeds off of political upheaval. Before they can evolve into a truly powerful and dangerous force, however, maritime terrorists and insurgents will have to overcome significant operational and technical issues. They must also capture the attention of an international audience by committing atrocities at sea that are as devastating as those committed on land.

Sikhs in Britain Gurharpal Singh, Darshan Singh Tatla, 2006-07 The history of Sikhs in Britain provides important clues into the evolution of Britain as a multicultural society and the challenges it faces today. The authors examine the complex Anglo-Sikh relationship that led to the initial Sikh settlement and the processes of community-building around Sikh institutions such as gurdwaras. They explore the nature of British Sikh society as reflected in the performance of Sikhs in the labor markets, the changing characteristics of the Sikh family and issues of cultural transmission to the young. They provide an original and insightful account of a community transformed from the site of radical immigrant class politics to a leader of the Sikh diaspora in its search for a separate Sikh state.

Sikh Nationalism Gurharpal Singh, Giorgio Shani, 2021-11-25 This important volume provides a clear, concise and comprehensive guide to the history of Sikh nationalism from the late nineteenth century to the present. Drawing on A. D. Smith's ethno-symbolic approach, Gurharpal Singh and Giorgio Shani use a new integrated methodology to understanding the historical and sociological development of modern Sikh nationalism. By emphasising the importance of studying Sikh nationalism from the perspective of the nation-building projects of India and Pakistan, the recent literature on religious nationalism and the need to integrate the study of the diaspora with the Sikhs in South Asia, they provide a fresh approach to a complex subject. Singh and Shani evaluate the current condition of Sikh nationalism in a globalised world and consider the lessons the Sikh case offers for the comparative study of ethnicity, nations and nationalism.

Steps by Steps Don Edkins, Iikka Vehkalahti, 2008 The Steps for the Future documentary film project began in 2000, as a shared journey by talented

African filmmakers and well-known professionals from around the world. The experience of the North combined with the knowledge of the South was an auspicious fusion that helped create 38 unique films. It was also the catalyst for new documentary projects such as *Why Democracy?* All the films produced dealt with the question of death and the enormous problem of HIV and AIDS in Southern Africa. Films that millions of people have seen worldwide, that have received awards from Cannes to Zanzibar, and \2013 dubbed into local languages \2013 are still used throughout southern Africa. *Steps by Steps* provides an honest and thorough picture of the process, step by step. Detailed accounts of the logistics of making the series are mingled with reflections on the art of direction, working with other people and the reality of the lives of those people affected by HIV and AIDS. *Steps by Steps* gives a rare behind-the-scenes look at the making of documentary films and the building of a worldwide project, complete with its problems and triumphs, mistakes and unique results--Publisher's website.

Home in the World: A Memoir Amartya Sen, 2022-01-25 From Nobel Prize winner Amartya Sen, a long-awaited memoir about home, belonging, inequality, and identity, recounting a singular life devoted to betterment of humanity. The Nobel laureate Amartya Sen is one of a handful of people who may truly be called “a global intellectual” (Financial Times). A towering figure in the field of economics, Sen is perhaps best known for his work on poverty and famine, as inspired by events in his boyhood home of West Bengal, India. But Sen has, in fact, called many places “home,” including Dhaka, in modern Bangladesh; Kolkata, where he first studied economics; and Trinity College, Cambridge, where he engaged with the greatest minds of his generation. In *Home in the World*, these “homes” collectively form an unparalleled and profoundly truthful vision of twentieth- and twenty-first-century life. Here Sen, “one of the most distinguished minds of our time” (New York Review of Books), interweaves scenes from his remarkable life with candid philosophical reflections on economics, welfare, and social justice, demonstrating how his experiences—in Asia, Europe, and later America—vitaly informed his work. In exquisite prose, Sen evokes his childhood travels on the rivers of Bengal, as well as the “quiet beauty” of Dhaka. The Mandalay of Orwell and Kipling is recast as a flourishing cultural center with pagodas, palaces, and bazaars, “always humming with intriguing activities.” With characteristic moral clarity and compassion, Sen reflects on the cataclysmic events that soon tore his world asunder, from the Bengal famine of 1943 to the struggle for Indian independence against colonial tyranny—and the outbreak of political violence that accompanied the end of British rule. Witnessing these lacerating tragedies only amplified Sen’s sense of social purpose. He went on to study famine and inequality, wholly reconstructing theories of social choice and development. In 1998, he was awarded the Nobel Prize for his contributions to welfare economics, which included a fuller understanding of poverty as the deprivation of human capability. Still Sen, a tireless champion of the dispossessed, remains an activist, working now as ever to empower vulnerable minorities and break down walls among warring ethnic groups. As much a book of penetrating ideas as of people and places, *Home in the World* is the ultimate “portrait of a citizen of the world” (Spectator), telling an extraordinary story of human empathy across distance and time, and above all, of being at home in the world.

Charles Darwin's Barnacle and David Bowie's Spider Stephen B. Heard, 2020-03-17 An engaging history of the surprising, poignant, and occasionally scandalous stories behind scientific names and their cultural significance Ever since Carl Linnaeus's binomial system of scientific names was adopted in the eighteenth century, scientists have been eponymously naming organisms in ways that both honor and vilify their namesakes. This charming, informative, and accessible history examines the fascinating stories behind taxonomic nomenclature, from Linnaeus himself naming a small and unpleasant weed after a rival botanist to the recent influx of scientific names based on pop-culture icons—including David Bowie's spider, Frank Zappa's jellyfish, and Beyoncé's fly. Exploring the naming process as an opportunity for scientists to express themselves in creative ways, Stephen B. Heard's fresh approach shows how scientific names function as a window into both the passions and foibles of the scientific community and as a more general indicator of the ways in which humans relate to, and impose order on, the natural world.

Privacy and Social Media Ashley Nicole, 2019 Social media facilitates the creation and sharing of information and ideas online, through electronic devices like smart phones, laptops, personal computers, or tablets. Today, an estimated 2.8 billion people around the world use social media networks such as Facebook, YouTube, Snapchat, or Instagram to engage with friends, family members, and even strangers. The Contemporary Issues Pro-Con series is to give young readers a better understanding of major social issues today. Each book examines four key questions related to a controversial topic, with essays that detail the most commonly heard arguments on both sides of the discussion. The arguments contained within are supported by data from experts as well as nonpartisan reports, allowing to reader to make his or her own informed decision on the issue--Back cover.

Violence at Sea Peter Lehr, 2006-11-02 Violence at Sea is an overview of maritime piracy, examining threats that piracy poses to global security and commerce, as well as measures and policies to mitigate the threat. The essays analyze piracy activities in key shipping lanes (including the African

coast, the Arabian Sea, the Bay of Bengal, and the Straits of Malacca-South China Sea); piratical groups and their capabilities; case studies on overlaps between piracy, terrorism, and organized crime; legal and policy hurdles to combating piracy; tactical recommendations for combating piracy; and new trends and developments in the area. The counter response to maritime terrorism has been slow in coming, hampered by issues rooted in sovereignty, the laws of the sea, and the inherent challenges of international coordination. Yet given the likelihood that threats posed by piracy will not recede, but rather increase, all actors affected by maritime security will, sooner or later, need to address these challenges.
