Atlantic Linchpin Guy Warner, 2021-12-30 On a map the Azores appear as nine tiny specks in the middle of the Atlantic Ocean, but their location was to prove strategically vital in two world wars. The Atlantic became a crucial battleground twice within the space of 25 years, as the US 'arsenal of democracy' sent firstly stores, arms, and equipment, followed by many thousands of troops to fight in Europe. In both desperate and closely fought struggles at sea, Germany sought to stem the flow and thereby win the war by cutting this vital lifeline using a new weapon – the ocean-going submarine. In the First World War, the Azores became a mid-Atlantic refueling location, a base for US and Portuguese naval vessels and – in a hugely innovative contribution to the anti-submarine war – for the patrol seaplanes and flying boats of the US Marine Corps. Portugal was neutral during the Second World War but when Winston Churchill invoked a treaty dating from 1373, permission was given in 1943 for an RAF Coastal Command base to be very rapidly established at Lagens. From there convoys could be protected and U-boats could be harried and sunk, so closing the notorious mid-Atlantic gap. Later, it also became an important staging post for US aircraft, as it had been in the previous conflict. The significance of the Azores has been overlooked in most military histories, but this extensively researched and copiously illustrated book from historian Guy Warner provides a detailed but balanced appraisal. The author has had access to archives and photographic collections in the UK, USA, Portugal, and the Azores, consulting with local historians to produce a book that sheds much new light on a hitherto under-appreciated facet of twentieth-century history.

Characterization of Modern and Historical Seismic-Tsunamic Events, and Their Global-Societal Impacts Y. Dilek, Y. Ogawa, Y. Okubo, 2021-06-22 Earthquakes and tsunamis are devastating geohazards with significant societal impacts. Most recent occurrences have shown that their impact on the stability of nations-societies and the world geopolitics is immense, potentially triggering a tipping point for a major downturn in the global economy. This Special Publication presents the most current information on the causes and effects of some of the modern and historical earthquake-tsunami events, and effective practices of risk assessment-disaster management, implemented by various governments, international organizations and intergovernmental agencies. Findings reported here show that the magnitude of human casualties and property loss resulting from earthquakes-tsunamis are highly variable around the globe, and that increased community, national and global resilience is significant to empower societal preparedness for such geohazards. It is clear that all stakeholders, including scientists, policymakers, governments, media and world organizations must work together to disseminate accurate, objective and timely information on geohazards, and to develop effective legislation for risk reduction and realistic hazard mitigation-management measures in our globally connected world of today.

Provenance and Possession K. J. P. Lowe, 2024-04-09 A thought-provoking study of how knowledge

of provenance was not transferred with enslaved people and goods from the Portuguese trading empire to Renaissance Italy. In the fifteenth and sixteenth centuries, Renaissance Italy received a bounty of goods from Portuguese trading voyages—fruits of empire that included luxury goods, exotic animals and even enslaved people. Many historians hold that this imperial opening up of the world transformed the way Europeans understood the global. In this book, K.J.P. Lowe challenges such an assumption, showing that Italians of this era cared more about the possession than the provenance of their newly acquired global goods. With three detailed case studies involving Florence and Rome, and drawing on unpublished archival material, Lowe documents the myriad occasions on which global knowledge became dissociated from overseas objects, animals and people. Fundamental aspects of these imperial imports, including place of origin and provenance, she shows, failed to survive the voyage and make landfall in Europe. Lowe suggests that there were compelling reasons for not knowing or caring about provenance, and concludes that geographical knowledge, like all knowledge, was often restricted and not valued. Examining such documents as ledger entries, journals and public and private correspondence as well as extant objects, and asking previously unasked questions, Lowe meticulously reconstructs the backstories of Portuguese imperial acquisitions, painstakingly supplying the context. She chronicles the phenomenon of mixed-ancestry children at Florence's foundling hospital; the ownership of inanimate luxury goods, notably those possessed by the Medici; and the acquisition of enslaved people and animals. How and where goods were acquired, Lowe argues, were of no interest to fifteenth- and sixteenth-century Italians; possession was paramount.

The Routledge Handbook of Media Education Futures Post-Pandemic Yonty Friesem, Usha Raman, Igor Kanižaj, Grace Y. Choi, 2022-09-08 This handbook showcases how educators and practitioners around the world adapted their routine media pedagogies to meet the challenges of the COVID-19 pandemic, which often led to significant social, economic, and cultural hardships. Combining an innovative mix of traditional chapters, autoethnography, case studies, and dialogue within an intercultural framework, the handbook focuses on the future of media education and provides a deeper understanding of the challenges and affordances of media education as we move forward. Topics range from fighting disinformation, how vulnerable communities coped with disadvantages using media, transforming educational TV or YouTube to reach larger audiences, supporting students' wellbeing through various online strategies, examining early childhood, parents, and media mentoring using digital tools, reflecting on educators' intersectionality on video platforms, youth-produced media to fight injustice, teaching remotely and providing low-tech solutions to address the digital divide, search for solutions collaboratively using social media, and many more. Offering a unique and broad multicultural perspective on how we can learn from the challenges of addressing varied pedagogical issues that have arisen in the context of the pandemic, this handbook will allow researchers, educators, practitioners, institution leaders, and graduate students to explore how media education evolved during 2020 and 2021, and how these experiences can shape the future direction of media education.

An Oral History of the Portuguese Colonial War Ângela Campos, 2017-02-23 This oral history of ex-combatants of the Portuguese colonial war places the reader face-to-face with the men who were conscripted to fight the last and bloodiest of the West's colonial wars in Africa, namely in Angola, Mozambique and Guinea-Bissau (then Portuguese Guinea), between 1961 and 1974. At the forefront of this work are the lived experiences of a wide range of Portuguese veterans, framed by broader insights about the post-war public memory of this event in Portugal. Moving away from stereotypical and polarized images of these ex-combatants, *An Oral History of the Portuguese Colonial War: Conscripted Generation* explores the memories and consequences of this war for these veterans and their society. Seeking to understand why Portuguese ex-combatants often feel neglected and historically unrecognised, this book presents a thorough portrait of a continually shifting – and at times paradoxical – individual and collective remembrance process.

Region Simon Richards, Robert Schmidt III, Cagri Sanliturk, Falli Palaiologou, 2023-07-28 This book explores how the concept of 'region' has evolved over time and shaped architectural culture and practice. It questions what the words 'region' and 'regional' mean for architecture, cities and landscapes past and present, and speculates on the forms they might take in the future. Region is explored in many thematic guises: as a real geographical site of evolving socio-economic activity; as a mythical locus of enduring value; as a gatekeeper of indigenous crafts and vernacular techniques; as a site of architectural and artistic imagination; as a repository of contested, conflicted and mobile identities. The contributing chapters take these themes from the theoretical and literary page through to architectural and urban practice, and from the scale of the domestic hearth through to the ocean archipelago and international law, enriching the long-standing trope of viewing architectural regionalism purely as a matter of style. Curated into four key thematic areas – Theorised Regions, Contested Regions, Heritage Regions and Future Regions – the book incorporates the values, concerns and approaches of a truly diverse international community of scholars, curators and practitioners, as well as the design work of international students tasked to explore what region means to them.

The Portuguese in Canada Carlos Teixeira, Victor M.P. Da Rosa, 2009-03-07 Even though the Portuguese are relatively new to Canada, they have made major contributions to the cultural mosaic of the country. Containing many new essays, this second edition of The Portuguese in Canada updates the work that filled a gap in the scholarly literature of multiculturalism in Canada. The contributors come from a variety of disciplines - anthropology, geography, history, literature, linguistics, sociology, and urban planning - and are from Portugal, Canada and the United States. Essays examine the history of the Portuguese diaspora, the Portuguese presence in Newfoundland and its fisheries, language and identity, urban experiences (especially in Montreal and Toronto), and history and literature. This second edition of The Portuguese in Canada conveys the multi-faceted contributions the Portuguese have made to Canada and considers possible future growth and development of Portuguese-Canadian culture and heritage.

Routledge Handbook of Tea Tourism Lee Jolliffe, M.S.M. Aslam, Amnaj Khaokhrueamuang, Li-Hsin Chen, 2022-11-29 The Routledge Handbook of Tea Tourism provides comprehensive and cutting-edge insights into global tea tourism. With contributions from leading scholars and experts across 19 countries, it demonstrates the interdisciplinary nature and breadth of topics associated with global tea tourism. Tea is deeply connected to tourism through both travel and consumption. For host communities it provides an opportunity for diversification from the production and/or serving of tea while sharing cultural traditions and improving livelihoods. The Handbook is organised into five parts, with an introduction and epilogue, and the first part begins with an overview of historical and contemporary perspectives on the foundations of tea tourism. It digs into the roots of such tourism in China, the relationship of wild tea to indigenous tourism in Vietnam, heritage railways to tea tourism, and tea tourism in Africa. The second part examines sustainable tea tourism, with examples from Thailand, Turkey, Sri Lanka and India. The third part explores the management and marketing of tea tourism, highlighting tools and techniques for development and the impact of social media on the tea tourism experience. It draws on examples of tea tourism experience in diverse settings, such as the English tea room, a pearl milk tourism factory in Taiwan and a hot spring tea destination in Japan. The fourth part provides perspectives on innovation and practice in tea tourism, such as gastronomical tea tourism in Turkey, Japan and Thailand; tea cafés and community diversification in Japan; the role of GIAHS designation in tea tourism; and tea tour guiding in Iran. Finally, the fifth part provides insights

on resilience in tea tourism, examining topics such as human-wildlife conflicts and the impact of the COVID-19 pandemic on the sector in both Asia and Europe. This Handbook provides a valuable resource for students and researchers, presenting a rich collection of theoretical and empirical insights, an agenda for future directions in the field and end-of-chapter discussion questions. It also serves as a useful tool for key stakeholders, aiming to increase interaction between academia and industry, encouraging the development of sustainable responsible tea tourism that benefits local communities on a global basis.
