Milestones in Dance in the USA Elizabeth McPherson,2022-09-30 Embracing dramatic similarities, glaring disjunctions, and striking innovations, this book explores the history and context of dance on the land we know today as the United States of America. Designed for weekly use in dance history courses, it traces dance in the USA as it broke traditional forms, crossed genres, provoked social and political change, and drove cultural exchange and collision. The authors put a particular focus on those whose voices have been silenced, unacknowledged, and/or uncredited – exploring racial prejudice and injustice, intersectional feminism, protest movements, and economic conditions, as well as demonstrating how socio-political issues and movements affect and are affected by dance. In looking at concert dance, vernacular dance, ritual dance, and the convergence of these forms, the chapters acknowledge the richness of dance in today's USA and the strong foundations on which it stands. Milestones are a range of accessible textbooks, breaking down the need-to-know moments in the social, cultural, political, and artistic development of foundational subject areas. This book is ideal for undergraduate courses that embrace culturally responsive pedagogy and seek to shift the direction of the lens from western theatrical dance towards the wealth of dance forms in the United States.

Choreographing Intersubjectivity in Performance Art Victoria Wynne-Jones,2021-09-29 This book offers new ways of thinking about dance-related artworks that have taken place in galleries, museums and biennales over the past two decades as part of the choreographic turn. It focuses on the concept of intersubjectivity and theorises about what happens when subjects meet within a performance artwork. The resulting relations are crucial to instances of performance art in which embodied subjects engage as spectators, participants and performers in orchestrated art events. *Choreographing Intersubjectivity in Performance Art* deploys a multi-disciplinary approach across dance choreography and evolving manifestations of performance art. An innovative, overarching concept of choreography sustains the idea that intersubjectivity evolves through places, spaces, performance and spectatorship. Drawing upon international examples, the book introduces readers to performance art from the South Pacific and the complexities of de-colonising choreography. Artists Tino Sehgal, Xavier Le Roy, Jordan Wolfson, Alicia Frankovich and Shigeyuki Kihara are discussed.
