The Use of Locks in Physical Crime Prevention James M. Edgar, William D. McInerney, Joe A. Mele, 2013-10-22 The Use of Locks in Physical Crime Prevention aims to present the minimum necessary material that will enable the proper use of locks as security devices. The lock is the most widely used security device. Wherever people have an interest in securing their persons or property against intruders, some sort of locking devices have been developed and used. The effectiveness of any locking system depends on a combination of interrelated factors that are involved in the design, manufacture, installation, and maintenance of the system. A security specialist needs to understand the weaknesses and strengths of the various systems, and know how each must be used to achieve maximum benefit from its application. This goal requires a thorough understanding of the inner workings of the various types of locks, which this book presents. This book is presented in layman's language and does not require an extensive background in security. However, the technological detail contained in this book will be of use to professionals in the field.

LIFE The Day Kennedy Died The Editors of LIFE, 2013-10-15 Fifty years ago on November 22, 1963, in Dallas's Dealey Plaza, John Fitzgerald Kennedy, the 35th President of the United States, was assassinated while traveling in a motorcade with his wife, Jacqueline. LIFE magazine, the weekly pictorial chronicle of events in America and throughout the world, was quickly on the scene. The Kennedys had been our story: Jack and Jackie made the cover in his sailboat before they were married and he was a fresh-faced senator from Massachusetts, and the White House doors had remained open to LIFE throughout his presidency: Cecil Stoughton's photographs of Caroline and John-John in the Oval Office, Jackie's tour of the renovation, tense behind-the-scenes moments during 13 days of the Cuban Missile Crisis—all of this appeared in LIFE. We needed to be in Dallas. The famous Zapruder film first appeared in LIFE, after being acquired by LIFE's Richard B. Stolley. Stolley also interviewed at the time Dallas police, Kennedy administration officials, members of the Oswald family, workers at Jack Ruby's bar. Jackie's first conversation after the murder was with Theodore H. White for LIFE, and in it she told the American people, for the first time, about the Camelot her late husband had imagined. All of that is revisited in this commemorative book, including: · All 486 frames of the Zapruder film in print for the first time · An essay by Richard B. Stolley on how he exclusively obtained the iconic film for LIFE · An essay by Abraham Zapruder's granddaughter, Alexandra, who writes for the first time about how the film affected her family over the generations · Personal stories about where they were when they heard the news from Barbra Streisand, Maya Angelou, Jimmy Carter, Tony Bennett, Willie Mays, Sergei Khrushchev, James Earl

Jones, John Boehner, Tom Brokaw, Mikhail Baryshnikov, Alec Baldwin, Bill O'Reilly, Dan Rather and many more · Rarely seen photos from the TIME/LIFE archive of Allan Grant's photo essay of the Oswald family on the night of the assassination · A foreword featuring a conversation with historian David McCullough · A full reprint of LIFE's 1963 issue covering the tragic events in Dallas · LIFE's Theodore H. White's famous Camelot interview with Jackie (which she gave shortly after the assassination), as well as the story behind the interview and the words that never ran · A new essay on 50 years of conspiracy theories by J.I. Baker, author of *The Empty Glass* *The Kennedys: A LIFE story for more than 50 years, and still today.*

Visual Tools for Developing Cross-Disciplinary Collaboration, Innovation and Entrepreneurship Capacity Selena Griffith,Kate Carruthers,Martin Bliemel,2018 Visual Tools for Developing Cross-Disciplinary Collaboration, Innovation and Entrepreneurship Capacity will identify and document pedagogical and practice-based visual approaches to scaffold and develop capacity for cross-disciplinary collaboration, innovation and entrepreneurship. An introductory chapter will introduce and contextualise the key themes of the book. It outlines the value in supporting acquisition of cross-disciplinary collaboration, innovation and entrepreneurship skills in students and why visual tools are particularly useful in doing this. The main body of the book will be divided into four sections, each will include theory and case study based inquiries. - Visual Tools for Collaboration This first section would explore approaches to developing skills for cross-disciplinary collaboration in students leveraging visual tools and artefacts. - Visual tools for Innovation This

second section would explore approaches to scaffolding the acquisition of innovation skills in students via use of visual tools and artefacts. - Visual tools for Entrepreneurship This third section would explore how students can be supported and encouraged to attain appropriate skills and knowledge for successful entrepreneurship through the use of visual tools and artefacts. - Integrated Approaches This fourth, and final, section will demonstrate integrated approaches with respect two or three of these. The chapter authors have been selected from across disciplinary specialisations from a global pool of educators and practitioners in order to provide a broad range of perspectives. A final summary chapter summaries and reflects on the key insights of the book--
